## EUROPEAN AND MEDITERRANEAN PLANT PROTECTION ORGANIZATION

PM 1/5(1)

**General Phytosanitary Measures Mesures Phytosanitaires Générales** 

## **FORMAT FOR PEST REPORTS**

## Specific scope

This standard gives guidance to EPPO Member Governments on the main elements of information which should be provided in official pest reports. This harmonized format for pest reports has been designed to remain compatible with the format which is used by FAO to display official pest reports on the IPPC website. Versions in Russian and French are available on the EPPO website.

## Specific approval and amendment

First approved in September 2011.

| Report to be sent to pestreporting@eppo.int   |
|---|
|   |
| Pest report from: NPPO of   |
| Responsible person (name)   |
|   |
|   |
| Report sent in (date):  |
| Reason for reporting (e.g. First report / Updated situation / Eradication / New pest)   |
|   |
| Identity of the pest (scientific name):   |
|   |
|   |
| Categorization of the pest (Quarantine pest, EU Annexes, EPPO A1/A2, Alert List, none): |
|   |

| Host plants or articles concerned (if appropriate): give details on the type of host plants on which  |
|---|
| the pest was found, such as:  |
| plant name (Latin name, and cultivars if known):  |
| parte name (2001) name, and contrars it known,  |
|   |
| - type of plant or mode of cultivation: commercial crops / nurseries / gardens / forests / wild plants /  |
| indoors / outdoors etc.:  |
|   |
|   |
|   |
| - severity / extent of damage:  |
| , , , , , , , , , , , , , , , , , , ,   |
|   |
|   |
|   |
|   |
|   |
| <b>Location:</b> give suitable and appropriate details, e.g. localities, administrative regions, maps, GPS  |
| coordinates   |
|   |
|   |
|   |
|   |
|   |
|   |
|   |
|   |
|   |
|   |
|   |
| Short description:  |
|   |
| Date of finding (or eradication): give at least an idea of the period (year, month)   |
