Approval

EPPO Standards are approved by EPPO Council. The date of approval appears in each individual Standard. In the terms of Article II of the IPPC, EPPO Standards are Regional Standards for the members of EPPO.

Review

EPPO Standards are subject to periodic review and amendment. The next review date for this set of EPPO Standards is decided by the EPPO Working Party on Phytosanitary Regulations.

Amendment record

Amendments will be issued as necessary, numbered and dated. The dates of amendment appear in each individual Standard (as appropriate).

Scope

EPPO Phytosanitary Procedures are intended to be used by NPPOs, in their capacity as bodies responsible for the inspection and testing of plants and plant products moving in trade, or for the implementation of surveys against quarantine pests.

Definitions

These definitions are extracted from the Glossary of phytosanitary terms:

Inspection: official visual examination of plants, plant products or other regulated articles to determine if pests are present and/or to determine compliance with phytosanitary regulations

Monitoring: an official ongoing process to verify phytosanitary situations

Phytosanitary procedure: any official method for implementing phytosanitary measures including the performance of inspections, tests, surveillance or treatments in connection with regulated pests

Survey: an official procedure conducted over a defined period of time to determine the characteristics of a pest population or to determine which species occur in an area

Test: official examination, other than visual, to determine if pests are present or to identify pests.

Outline of requirements

EPPO Standards on phytosanitary procedures describe the methods to be followed for performing inspections or tests of commodities moving in trade, or surveys against quarantine pests.

Methods to be followed for performing treatments of commodities and treatments of crops for containment or

eradication of regulated pests are included in series PM10.

EPPO Standards on phytosanitary procedures arise from the programmes of activity of the EPPO Panels on Phytosanitary Measures, on Phytosanitary Measures for Potato, and on Phytosanitary Procedures. The first 59 EPPO Standards on phytosanitary procedures were originally published in *Bulletin OEPP/EPPO Bulletin*, following a numbering sequence described in *Bulletin OEPP/EPPO Bulletin* 20, 229–233, which provides a list in approximate chronological order of appearance.

All these EPPO Standards have been revised to bring them into line with new EPPO terminology, and are available from the EPPO website.

27 more recent Standards have been approved and published (including the new and the revised Standard published here):

PM 3/21 (2) Post-entry quarantine for potato. *Bulletin OEPP/EPPO Bulletin* 34, 443–454.

PM 3/59 (3) *Synchytrium endobioticum*: descheduling of previously infested plots. *Bulletin OEPP/EPPO Bulletin* 47, 366–368.

PM 3/60 (1) Testing growing medium and plants in growing medium. *Bulletin OEPP/EPPO Bulletin* 32, 223–230.

PM 3/61 (1) Pest-free areas and pest-free production and distribution systems for quarantine pests of potato. *Bulletin OEPP/EPPO Bulletin* 34, 441–442.

PM 3/62 (2) Production of pathogen-free microplants of potato. *Bulletin OEPP/EPPO Bulletin* 36, 187.

PM 3/63 (2) Production of pathogen-free minitubers of potato. *Bulletin OEPP/EPPO Bulletin* 36, 189–190.

PM 3/64 (1) Intentional import of organisms that are plant pests or potential plant pests. *Bulletin OEPP/EPPO Bulletin* 36, 191–194.

PM 3/66 (1) Guidelines for the management of plant health risks of biowaste of plant origin. *Bulletin OEPP/EPPO Bulletin* 36, 353–358.

PM 3/67 (1) Guidelines for the management of invasive alien import or have been intentionally imported. *Bulletin OEPP/EPPO Bulletin* 36, 417–418.

PM 3/68 (1) Testing of potato varieties to assess resistance to *Globodera rostochiensis* and *Globodera pallida*. *Bulletin OEPP/EPPO Bulletin* 36, 419–420.

PM 3/69 (1) *Meloidogyne chitwoodi* and *M. fallax*: sampling potato tubers for detection. *Bulletin OEPP/EPPO Bulletin* 36, 421–422.

PM 3/70 (1) Export certification and import compliance checking for potato tubers. *Bulletin OEPP/EPPO Bulletin* 36, 423–424.

PM 3/71 (1) General crop inspection procedure for potatoes. *Bulletin OEPP/EPPO Bulletin* 37, 592–597.

PM 3/72 (2) Elements common to inspection of places of production, area-wide surveillance, inspection of consignments and lot identification. *Bulletin OEPP/EPPO Bulletin* 39, 260–262.

PM 3/73 (1) Consignment inspection of fragaria plants for planting. *Bulletin OEPP/EPPO Bulletin* **38**, 396–406.

PM 3/74 (1) EPPO Guidelines on the development of a code of conduct on horticulture and invasive alien plants. *Bulletin OEPP/EPPO Bulletin* **39**, 263–266.

PM 3/75 (1) *Globodera rostochiensis* and *G. pallida*: sampling soil attached to ware potato tubers for detection prior to export and at import. *Bulletin OEPP/EPPO Bulletin* **44**, 316–317.

PM 3/76 (1) Trees of *Malus*, *Pyrus*, *Cydonia*, and *Prunus* spp. - Inspection of places of production, *Bulletin OEPP/EPPO Bulletin*, **46**, 28–39.

PM 3/77 (1) Vegetable plants for planting under protected conditions - Inspection of places of production, *Bulletin OEPP/EPPO Bulletin*, **46**, 40–48.

PM 3/78 (1) Consignment inspection of seed and grain of cereals, *Bulletin OEPP/EPPO Bulletin*, **46**, 49–57.

PM 3/79 (1) Consignment inspection for *Anoplophora chinensis* and *A. glabripennis*, *Bulletin OEPP/EPPO Bulletin*, **46**, 58–67.

PM 3/80 (1) Consignment inspection of seed of *Solanum lycopersicum*, *Bulletin OEPP/EPPO Bulletin*, **46**, 68–72.

PM 3/81 Inspection of consignments for *Xylella fastidiosa*, *Bulletin OEPP/EPPO Bulletin*, **46**, 395–406.

PM 3/82 Inspection of places of production for *Xylella fastidiosa*, *Bulletin OEPP/EPPO Bulletin*, **46**, 407–418.

PM 3/83 (1) Fragaria plants for planting – inspection of places of production. *Bulletin OEPP/EPPO Bulletin*, **47**, 349–365.

PM 3/84 (1) Inspection of places of production for ‘Candidatus Phytoplasma pyri’ *Bulletin OEPP/EPPO Bulletin*, **48**, 323–329

PM 3/85 (1) Inspection of places of production- *Vitis* plants for planting *Bulletin OEPP/EPPO Bulletin*, **48**, 330–349
