CONTENTS

2000/187 - EPPO Reporting Service index

EPPO Reporting Service

2000/187 EPPO Reporting Service index

The following index covers all Reporting Service articles published in 2001. This index is also available as an Excel file from the EPPO Web site (www.eppo.org) and the EPPO Electronic Documentation Service.

Absence

- 2000/009 - *Ciborinia camelliae* does not occur in Belgium
- 2000/010 - *Tilletia indica* not found in Alabama and Tennessee
- 2000/031 - Situation of *Diabrotica virgifera* in the EPPO region
- 2000/032 - Details on glasshouse quarantine pests in EPPO countries
- 2000/059 - Beet necrotic yellow vein benyvirus was not found in Ireland in 1999
- 2000/076 - Situation of glasshouse quarantine pests in Slovenia
- 2000/077 - Details on quarantine pests in Italy: 1999 situation
- 2000/098 - Phytosanitary status of stone fruits, citrus and olives in Palestine
- 2000/113 - *Ralstonia solanacearum* not found in Italy since the 1995 outbreak
- 2000/114 - Brown rot and ring rot of potato absent from Israel
- 2000/153 - Absence of *Meloidogyne chitwoodi* in England and Wales, UK

***Abutilon* yellows closterovirus**

- 2000/048 - Deletions from the EPPO Alert List

Acremonium cucurbitacearum

- 2000/083 - *Acremonium cucurbitacearum* can cause sudden collapse of melons
- 2000/179 - Studies on fungi associated with root rot and vine decline of melons in California (US)

Acroptilon repens

- 2000/002 - Weeds as potential quarantine pests

Albania

- 2000/031 - Situation of *Diabrotica virgifera* in the EPPO region
- 2000/040 - Details on the situation of *Erwinia amylovora* in Albania
- 2000/117 - *Diabrotica virgifera* found in Albania
- 2000/174 - *Cameraria ohridella* continues to spread in Europe

Alert List

- 2000/002 - Weeds as potential quarantine pests
- 2000/003 - Addition of pepino mosaic potyvirus to the EPPO Alert List
- 2000/046 - Begomoviruses of solanaceous crops: Additions to the EPPO Alert List
- 2000/047 - Tomato dwarf leaf curl virus a new begomovirus of tomato and sweet pepper in Jamaica: Addition to the EPPO Alert List
- 2000/048 - Deletions from the EPPO Alert List
- 2000/061 - Additions to the EPPO Alert List
- 2000/066 - Addition to the EPPO Alert List: *Phytophthora quercina*: a new species found on declining oaks
- 2000/082 - *Phytophthora cambivora* added again to the EPPO Alert List
- 2000/083 - *Acremonium cucurbitacearum* can cause sudden collapse of melons
- 2000/112 - Update of the EPPO Alert List
- 2000/159 - Watermelon chlorotic stunt begomovirus: addition to the EPPO Alert List

Aleurocanthus spiniferus

- 2000/004 - New data on quarantine pests or pests of the Alert List

EPPO *Reporting Service*

Aleurodicus dispersus

- 2000/061 - Additions to the EPPO Alert List
- 2000/172 - First report of *Aleurodicus dispersus* in Mauritius
- 2000/173 - Whitefly-transmitted viruses and whitefly species in Islas Canarias, Spain

Alternaria species from citrus

- 2000/063 - New taxonomy of *Alternaria* species from citrus
- 2000/064 - Studies on population genetic structure and host specificity of *Alternaria* species causing brown spot of *Minneola tangelo* and rough lemon
- 2000/065 - Epidemiological studies on *Alternaria* brown spot

Ambrosia artemisiifolia

- 2000/002 - Weeds as potential quarantine pests
- 2000/048 - Deletions from the EPPO Alert List

Anarsia lineatella

- 2000/060 - Situation of several quarantine pests in Lithuania

Anastrepha fraterculus

- 2000/006 - New records or new detailed records on quarantine pests in Argentina, Brazil and Chile

Anastrepha ludens

- 2000/086 - Studies on irradiation against *Anastrepha ludens* and *A. obliqua*

Anastrepha obliqua

- 2000/086 - Studies on irradiation against *Anastrepha ludens* and *A. obliqua*

Anastrepha striata

- 2000/022 - New data on quarantine pests

Anoplophora glabripennis

- 2000/042 - Host plants of *Anoplophora glabripennis*

Anthomonus signatus

- 2000/129 - New data on quarantine pests and pests of the EPPO Alert List

Anthonomus eugenii

- 2000/148 - New data on quarantine pests and pests of the EPPO Alert List

Anthonomus grandis

- 2000/006 - New records or new detailed records on quarantine pests in Argentina, Brazil and Chile

Aphelenchoides besseyi

- 2000/022 - New data on quarantine pests
- 2000/077 - Details on quarantine pests in Italy: 1999 situation

Apiosporina morbosa

- 2000/139 - Epidemiological studies on *Apiosporina morbosa* on sour cherry

EPPO *Reporting Service*

Apple proliferation phytoplasma

- 2000/005 - News from the Diagnostic Centre of the Dutch NPPO
- 2000/077 - Details on quarantine pests in Italy: 1999 situation

Argentina

- 2000/004 - New data on quarantine pests or pests of the Alert List
- 2000/006 - New records or new detailed records on quarantine pests in Argentina, Brazil and Chile
- 2000/007 - Tospoviruses in Argentina
- 2000/022 - New data on quarantine pests
- 2000/148 - New data on quarantine pests and pests of the EPPO Alert List

Arthurdendylus triangulatus

- 2000/089 - Present situation of the New Zealand flatworm (*Arthurdendylus triangulatus*) in UK

Australia

- 2000/051 - *Striga lutea* does not occur in Australia
- 2000/120 - Black sigatoka transient in Queensland (Australia)
- 2000/181 - Black sigatoka in the Torres Strait islands (Australia)

Austria

- 2000/031 - Situation of *Diabrotica virgifera* in the EPPO region

Bactrocera carambolae

- 2000/006 - New records or new detailed records on quarantine pests in Argentina, Brazil and Chile

Bactrocera cucurbitae

- 2000/095 - First report of *Bactrocera cucurbitae* in Gambia
- 2000/148 - New data on quarantine pests and pests of the EPPO Alert List

Bactrocera dorsalis

- 2000/109 - Experiments on different types of traps to capture *Bactrocera dorsalis*

Bactrocera zonata

- 2000/054 - Workshop on *Bactrocera zonata* for Mediterranean countries (2000-05-09/11, Alexandria, EG)
- 2000/075 - Details on the situation of *Bactrocera zonata* in Egypt

Bahrain

- 2000/148 - New data on quarantine pests and pests of the EPPO Alert List

Barbados

- 2000/033 - *Xanthomonas vesicatoria* on *Capsicum chinense* in Grenada and Barbados

Bean calico mosaic begomovirus

- 2000/102 - Bean calico mosaic begomovirus is a distinct species

Beet necrotic yellow vein benyvirus

- 2000/058 - Present situation of beet necrotic yellow vein benyvirus in Sweden
- 2000/059 - Beet necrotic yellow vein benyvirus was not found in Ireland in 1999
- 2000/152 - Details on the occurrence of beet necrotic yellow vein benyvirus in Sweden

EPPO Reporting Service

Begomovirus

- 2000/025 - First report of tomato yellow leaf curl begomovirus in Morocco
- 2000/026 - First report of tomato yellow leaf curl begomovirus in Mexico
- 2000/027 - First report of tomato yellow leaf curl begomovirus on *Capsicum annuum* in Spain
- 2000/028 - Studies on the epidemiology of tomato yellow leaf curl begomovirus in Spain
- 2000/029 - Situation of tomato yellow leaf curl begomovirus in Florida (US)
- 2000/030 - Transmission of tomato yellow leaf curl begomovirus by *Bemisia tabaci* to imidacloprid treated and untreated tomato plants
- 2000/046 - Begomoviruses of solanaceous crops: Additions to the EPPO Alert List
- 2000/047 - Tomato dwarf leaf curl virus a new begomovirus of tomato and sweet pepper in Jamaica: Addition to the EPPO Alert List
- 2000/091 - New data on quarantine pests and pests of the EPPO Alert List
- 2000/101 - Details on Texas pepper begomovirus in Costa Rica
- 2000/102 - Bean calico mosaic begomovirus is a distinct species
- 2000/159 - Watermelon chlorotic stunt begomovirus: addition to the EPPO Alert List
- 2000/168 - Eradication of tomato yellow leaf curl begomovirus in France
- 2000/173 - Whitefly-transmitted viruses and whitefly species in Islas Canarias, Spain

Belarus

- 2000/092 - *Clavibacter michiganensis* subsp. *sepedonicus* occurs in Belarus

Belgium

- 2000/009 - *Ciborinia camelliae* does not occur in Belgium
- 2000/055 - *Ralstonia solanacearum* found again in Belgium
- 2000/129 - New data on quarantine pests and pests of the EPPO Alert List
- 2000/174 - *Cameraria ohridella* continues to spread in Europe

Bemisia tabaci

- 2000/032 - Details on glasshouse quarantine pests in EPPO countries
- 2000/049 - Monoclonal antibodies to identify adults of *Trialeurodes vaporariorum* and *Bemisia tabaci*
- 2000/050 - Weed hosts of *Bemisia tabaci* biotype B in Italy
- 2000/129 - New data on quarantine pests and pests of the EPPO Alert List
- 2000/148 - New data on quarantine pests and pests of the EPPO Alert List

Benin

- 2000/148 - New data on quarantine pests and pests of the EPPO Alert List

Biology

- 2000/036 - Studies on the biology of *Toxoptera citricida*

Bolivia

- 2000/008 - Corrections to PQR 3.9, Quarantine Pests for Europe, Maps of Quarantine Pests for Europe

Bosnia & Herzegovina

- 2000/031 - Situation of *Diabrotica virgifera* in the EPPO region
- 2000/174 - *Cameraria ohridella* continues to spread in Europe

Brazil

- 2000/006 - New records or new detailed records on quarantine pests in Argentina, Brazil and Chile
- 2000/091 - New data on quarantine pests and pests of the EPPO Alert List
- 2000/157 - Survey on viruses of cucurbits in São Paulo State, Brazil

EPPO Reporting Service

Brevipalpus phoenicis

2000/091 - New data on quarantine pests and pests of the EPPO Alert List

Bulgaria

2000/031 - Situation of *Diabrotica virgifera* in the EPPO region

2000/174 - *Cameraria ohridella* continues to spread in Europe

Bursaphelenchus xylophilus

2000/078 - EU additional and temporary measures against the dissemination of *Bursaphelenchus xylophilus*

2000/183 - PCR diagnostic method for *Bursaphelenchus xylophilus*

Cacoecimorpha pronubana

2000/005 - News from the Diagnostic Centre of the Dutch NPPPO

2000/129 - New data on quarantine pests and pests of the EPPO Alert List

Cacopsylla pyri

2000/107 - *Cacopsylla pyri* is a vector of pear decline phytoplasma

Cameraria ohridella

2000/077 - Details on quarantine pests in Italy: 1999 situation

2000/091 - New data on quarantine pests and pests of the EPPO Alert List

2000/129 - New data on quarantine pests and pests of the EPPO Alert List

2000/174 - *Cameraria ohridella* continues to spread in Europe

2000/175 - Control measures against *Cameraria ohridella*

Cameroon

2000/091 - New data on quarantine pests and pests of the EPPO Alert List

2000/148 - New data on quarantine pests and pests of the EPPO Alert List

Canada

2000/022 - New data on quarantine pests

2000/131 - First report of plum pox potyvirus in Canada

2000/139 - Epidemiological studies on *Apiosporina morbosa* on sour cherry

2000/167 - *Synchytrium endobioticum* found on Prince Edward Island, Canada

Carpocapsa niponensis

2000/177 - *Carpocapsa niponensis* – nomenclature goes full circle

Carpocapsa sasakii

2000/177 - *Carpocapsa niponensis* – nomenclature goes full circle

Ceratitidis capitata

2000/006 - New records or new detailed records on quarantine pests in Argentina, Brazil and Chile

2000/087 - Possible use of insect growth regulators as chemosterilants against *Ceratitidis capitata*

Ceratocystis fagacearum

2000/004 - New data on quarantine pests or pests of the Alert List

Ceratocystis fimbriata* f.sp. *platani

2000/077 - Details on quarantine pests in Italy: 1999 situation

EPPO Reporting Service

Chile

- 2000/006 - New records or new detailed records on quarantine pests in Argentina, Brazil and Chile
- 2000/129 - New data on quarantine pests and pests of the EPPO Alert List

China

- 2000/004 - New data on quarantine pests or pests of the Alert List
- 2000/022 - New data on quarantine pests
- 2000/148 - New data on quarantine pests and pests of the EPPO Alert List

Chino del tomate begomovirus

- 2000/046 - Begomoviruses of solanaceous crops: Additions to the EPPO Alert List

Chrysodeixis eriosoma

- 2000/061 - Additions to the EPPO Alert List

Ciborinia camelliae

- 2000/009 - *Ciborinia camelliae* does not occur in Belgium
- 2000/116 - *Ciborinia camelliae* found in Portugal

Citrus leprosis ?rhabdovirus

- 2000/091 - New data on quarantine pests and pests of the EPPO Alert List

Citrus tristeza closterovirus

- 2000/004 - New data on quarantine pests or pests of the Alert List
- 2000/045 - Details on citrus tristeza closterovirus in Turkey
- 2000/098 - Phytosanitary status of stone fruits, citrus and olives in Palestine

Clavibacter michiganensis subsp. *michiganensis*

- 2000/041 - Surveys on *Clavibacter michiganensis* subsp. *michiganensis*, *Pseudomonas corrugata* and *Ralstonia solanacearum* in Tanzania

Clavibacter michiganensis subsp. *sepedonicus*

- 2000/056 - Elimination of *Clavibacter michiganensis* subsp. *sepedonicus* and *Ralstonia solanacearum* from contaminated waters
- 2000/057 - New detection method for *Clavibacter michiganensis* subsp. *sepedonicus*
- 2000/060 - Situation of several quarantine pests in Lithuania
- 2000/092 - *Clavibacter michiganensis* subsp. *sepedonicus* occurs in Belarus
- 2000/093 - *Clavibacter michiganensis* subsp. *sepedonicus* does not occur in Peru
- 2000/114 - Brown rot and ring rot of potato absent from Israel
- 2000/136 - Situation of several quarantine pests in Lithuania in 2000
- 2000/137 - Surveys on *Clavibacter michiganensis* subsp. *sepedonicus* and *Ralstonia solanacearum* in Germany
- 2000/138 - Situation of several quarantine pests in Germany in 1998
- 2000/165 - Outbreak of *Clavibacter michiganensis* subsp. *sepedonicus* in the Netherlands

Claviceps africana

- 2000/004 - New data on quarantine pests or pests of the Alert List
- 2000/017 - Ergot of sorghum in Japan caused by *Claviceps sorghicola*
- 2000/161 - Relations among sorghum ergot isolates from the Americas, Africa, India and Australia

EPPO *Reporting Service*

Coconut lethal disease phytoplasma

2000/160 - Potential vectors of coconut lethal disease phytoplasma

Colletotrichum acutatum

2000/148 - New data on quarantine pests and pests of the EPPO Alert List

Colombia

2000/018 - Further studies on rice stripe necrosis benyvirus in Colombia

2000/063 - New taxonomy of *Alternaria* species from citrus

2000/129 - New data on quarantine pests and pests of the EPPO Alert List

Conference

2000/021 - 52nd International Symposium on Crop Protection in Gent

2000/054 - Workshop on *Bactrocera zonata* for Mediterranean countries (2000-05-09/11, Alexandria, EG)

2000/128 - Forthcoming meetings

2000/145 - 3rd European Vertebrate Pest Management Conference

2000/146 - 5th Congress of the French Phytopathological Society (SFP)

Control

2000/030 - Transmission of tomato yellow leaf curl begomovirus by *Bemisia tabaci* to imidacloprid-treated and untreated tomato plants

2000/056 - Elimination of *Clavibacter michiganensis* subsp. *sepedonicus* and *Ralstonia solanacearum* from contaminated waters

2000/067 - Control methods against *Monosporascus cannonballus*

2000/086 - Studies on irradiation against *Anastrepha ludens* and *A. obliqua*

2000/087 - Possible use of insect growth regulators as chemosterilants against *Ceratitis capitata*

2000/108 - Irradiation as a quarantine treatment against *Rhagoletis mendax* and *R. pomonella*

2000/109 - Experiments on different types of traps to capture *Bactrocera dorsalis*

2000/175 - Control measures against *Cameraria ohridella*

Costa Rica

2000/024 - First report of potato spindle tuber viroid in Costa Rica

2000/101 - Details on Texas pepper begomovirus in Costa Rica

Côte d'Ivoire

2000/129 - New data on quarantine pests and pests of the EPPO Alert List

2000/129 - New data on quarantine pests and pests of the EPPO Alert List

Croatia

2000/031 - Situation of *Diabrotica virgifera* in the EPPO region

2000/099 - Detailed situation of *Erwinia amylovora* in Croatia in 1999

2000/148 - New data on quarantine pests and pests of the EPPO Alert List

Cryphonectria parasitica

2000/100 - Details on the situation of several quarantine pests in Hungary in 1999

Cuba

2000/129 - New data on quarantine pests and pests of the EPPO Alert List

EPPO Reporting Service

Cucurbit yellow stunting disorder closterovirus

- 2000/069 - Studies on the geographical distribution of lettuce infectious yellows crinivirus, cucurbit yellow stunting disorder crinivirus and beet pseudo-yellows closterovirus
- 2000/080 - First report of cucurbit yellow stunting disorder crinivirus in USA (Texas) and Mexico
- 2000/134 - First report of cucurbit yellow stunting disorder crinivirus in Lebanon
- 2000/156 - First report of cucurbit yellow stunting disorder closterovirus in Morocco
- 2000/173 - Whitefly-transmitted viruses and whitefly species in Islas Canarias, Spain

Cylindrocladium sp.

- 2000/123 - A new blight of Buxus in UK caused by *Cylindrocladium sp.*

Czech Republic

- 2000/032 - Details on glasshouse quarantine pests in EPPO countries

Denied records

- 2000/008 - Corrections to PQR 3.9, Quarantine Pests for Europe, Maps of Quarantine Pests for Europe
- 2000/051 - *Striga lutea* does not occur in Australia
- 2000/093 - *Clavibacter michiganensis* subsp. *sepedonicus* does not occur in Peru
- 2000/129 - New data on quarantine pests and pests of the EPPO Alert List

Denmark

- 2000/032 - Details on glasshouse quarantine pests in EPPO countries

Detailed records

- 2000/004 - New data on quarantine pests or pests of the Alert List
- 2000/005 - News from the Diagnostic Centre of the Dutch NPPO
- 2000/006 - New records or new detailed records on quarantine pests in Argentina, Brazil and Chile
- 2000/007 - Tospoviruses in Argentina
- 2000/013 - Distribution of *Exomala (Blitopertha) orientalis* in USA
- 2000/018 - Further studies on rice stripe necrosis benyvirus in Colombia
- 2000/022 - New data on quarantine pests
- 2000/029 - Situation of tomato yellow leaf curl begomovirus in Florida (US)
- 2000/031 - Situation of *Diabrotica virgifera* in the EPPO region
- 2000/032 - Details on glasshouse quarantine pests in EPPO countries
- 2000/034 - Serious outbreak of *Xanthomonas vesicatoria* on sweet pepper in Florida (US)
- 2000/035 - More findings of *Xanthomonas axonopodis* pv. *citri* in Florida (US)
- 2000/039 - Situation of *Erwinia amylovora* in Spain
- 2000/040 - Details on the situation of *Erwinia amylovora* in Albania
- 2000/041 - Surveys on *Clavibacter michiganensis* subsp. *michiganensis*, *Pseudomonas corrugata* and *Ralstonia solanacearum* in Tanzania
- 2000/044 - Virus diseases of almond in Western Anatolia (Turkey)
- 2000/045 - Details on citrus tristeza closterovirus in Turkey
- 2000/060 - Situation of several quarantine pests in Lithuania
- 2000/068 - *Lecanoides floccissimus* found on La Gomera, Canary Islands (ES)
- 2000/069 - Studies on the geographical distribution of lettuce infectious yellows crinivirus, cucurbit yellow stunting disorder crinivirus and beet pseudo-yellows closterovirus
- 2000/075 - Details on the situation of *Bactrocera zonata* in Egypt
- 2000/076 - Situation of glasshouse quarantine pests in Slovenia
- 2000/077 - Details on quarantine pests in Italy: 1999 situation
- 2000/089 - Present situation of the New Zealand flatworm (*Arthurdendyus triangulatus*) in UK
- 2000/091 - New data on quarantine pests and pests of the EPPO Alert List
- 2000/097 - Details on Bayoud disease in Mauritania
- 2000/098 - Phytosanitary status of stone fruits, citrus and olives in Palestine

EPPO Reporting Service

- 2000/099 - Detailed situation of *Erwinia amylovora* in Croatia in 1999
- 2000/100 - Details on the situation of several quarantine pests in Hungary in 1999
- 2000/101 - Details on Texas pepper begomovirus in Costa Rica
- 2000/103 - First report of oleander leaf scorch (*Xylella fastidiosa*) in Florida (US)
- 2000/105 - Relationships between Asian isolates of citrus greening bacterium
- 2000/118 - *Phytophthora cactorum* found and under eradication in Israel
- 2000/120 - Black sigatoka transient in Queensland (Australia)
- 2000/129 - New data on quarantine pests and pests of the EPPO Alert List
- 2000/136 - Situation of several quarantine pests in Lithuania in 2000
- 2000/137 - Surveys on *Clavibacter michiganensis* subsp. *sepedonicus* and *Ralstonia solanacearum* in Germany
- 2000/138 - Situation of several quarantine pests in Germany in 1998
- 2000/148 - New data on quarantine pests and pests of the EPPO Alert List
- 2000/152 - Details on the occurrence of beet necrotic yellow vein benyvirus in Sweden
- 2000/155 - Survey on tomato spotted wilt tospovirus on ornamentals in Greece
- 2000/165 - Outbreak of *Clavibacter michiganensis* subsp. *sepedonicus* in the Netherlands
- 2000/167 - *Synchytrium endobioticum* found on Prince Edward Island, Canada
- 2000/171 - Situation of several quarantine pests in Germany in 1999 and 2000
- 2000/173 - Whitefly-transmitted viruses and whitefly species in Islas Canarias, Spain
- 2000/176 - Details on *Thrips palmi* in Korea Republic
- 2000/179 - Studies on fungi associated with root rot and vine decline of melons in California (US)
- 2000/181 - Black sigatoka in the Torres Strait islands (Australia)

Diabrotica virgifera virgifera

- 2000/031 - Situation of *Diabrotica virgifera* in the EPPO region
- 2000/077 - Details on quarantine pests in Italy: 1999 situation
- 2000/088 - EU project on *Diabrotica virgifera virgifera*
- 2000/100 - Details on the situation of several quarantine pests in Hungary in 1999
- 2000/117 - *Diabrotica virgifera* found in Albania
- 2000/149 - First report of *Diabrotica virgifera virgifera* in Slovakia

Diagnostic

- 2000/019 - Identification method for *Meloidogyne hapla*, *M. chitwoodi* and *M. fallax*
- 2000/049 - Monoclonal antibodies to identify adults of *Trialeurodes vaporariorum* and *Bemisia tabaci*
- 2000/057 - New detection method for *Clavibacter michiganensis* subsp. *sepedonicus*
- 2000/084 - Differentiation between *Monilinia laxa*, *M. fructigena* and *M. fructicola* by using total mycelial protein SDS-PAGE
- 2000/106 - PCR technique to detect citrus greening bacterium (*Liberobacter asiaticum*)
- 2000/140 - New ELISA test to distinguish between Markus and Dideron strains of plum pox potyvirus
- 2000/143 - PCR identification of *Monilinia laxa*, *M. fructigena* and *M. fructicola*
- 2000/183 - PCR diagnostic method for *Bursaphelenchus xylophilus*
- 2000/185 - Telediagnostic methods used in Norway

Ditylenchus destructor

- 2000/136 - Situation of several quarantine pests in Lithuania in 2000

Echinothrips americanus

- 2000/048 - Deletions from the EPPO Alert List

Ecuador

- 2000/008 - Corrections to PQR 3.9, Quarantine Pests for Europe, Maps of Quarantine Pests for Europe
- 2000/148 - New data on quarantine pests and pests of the EPPO Alert List

EPPO Reporting Service

Egypt

- 2000/015 - *Ralstonia solanacearum* detected in surface water in Egypt
- 2000/022 - New data on quarantine pests
- 2000/054 - Workshop on *Bactrocera zonata* for Mediterranean countries (2000-05-09/11, Alexandria, EG)
- 2000/075 - Details on the situation of *Bactrocera zonata* in Egypt
- 2000/124 - *Ralstonia solanacearum* on artichoke in Egypt

Elm yellows

- 2000/085 - Relationships between phytoplasmas associated with elm yellows

Elsinoë australis

- 2000/008 - Corrections to PQR 3.9, Quarantine Pests for Europe, Maps of Quarantine Pests for Europe

Eotetranychus lewisi

- 2000/004 - New data on quarantine pests or pests of the Alert List

Epidemiology

- 2000/004 - New data on quarantine pests or pests of the Alert List
- 2000/015 - *Ralstonia solanacearum* detected in surface water in Egypt
- 2000/028 - Studies on the epidemiology of tomato yellow leaf curl begomovirus in Spain
- 2000/065 - Epidemiological studies on *Alternaria* brown spot
- 2000/104 - Epidemiological studies on grapevine Pierce's disease (*Xylella fastidiosa*) in California, US
- 2000/107 - *Cacopsylla pyri* is a vector of pear decline phytoplasma
- 2000/139 - Epidemiological studies on *Apiosporina morbosa* on sour cherry
- 2000/160 - Potential vectors of coconut lethal disease phytoplasma

EPPO

- 2000/073 - Kyrgyzstan is a new EPPO member country
- 2000/074 - The EPPO Plant Protection Thesaurus is now available

Eradication

- 2000/168 - Eradication of tomato yellow leaf curl begomovirus in France
- 2000/180 - Situation of Dutch elm disease in New Zealand

Erwinia amylovora

- 2000/011 - More details on *Erwinia pyrifoliae*
- 2000/022 - New data on quarantine pests
- 2000/039 - Situation of *Erwinia amylovora* in Spain
- 2000/040 - Details on the situation of *Erwinia amylovora* in Albania
- 2000/077 - Details on quarantine pests in Italy: 1999 situation
- 2000/099 - Detailed situation of *Erwinia amylovora* in Croatia in 1999
- 2000/100 - Details on the situation of several quarantine pests in Hungary in 1999
- 2000/135 - *Erwinia amylovora* found again in Norway
- 2000/141 - Susceptibility of several genotypes of *Sorbus* to *Erwinia amylovora*

Ethiopia

- 2000/008 - Corrections to PQR 3.9, Quarantine Pests for Europe, Maps of Quarantine Pests for Europe

Etiology

- 2000/085 - Relationships between phytoplasmas associated with elm yellows
- 2000/162 - Strawberry green petal and lethal yellows diseases are associated with *Phytoplasma australiense*

EPPO Reporting Service

EU

- 2000/078 - EU additional and temporary measures against the dissemination of *Bursaphelenchus xylophilus*
- 2000/088 - EU project on *Diabrotica virgifera virgifera*
- 2000/144 - New EC-funded Project on Karnal bunt (*Tilletia indica*)

Eutetranychus orientalis

- 2000/091 - New data on quarantine pests and pests of the EPPO Alert List
- 2000/148 - New data on quarantine pests and pests of the EPPO Alert List

Exomala orientalis

- 2000/013 - Distribution of *Exomala (Blitopertha) orientalis* in USA

France

- 2000/031 - Situation of *Diabrotica virgifera* in the EPPO region
- 2000/032 - Details on glasshouse quarantine pests in EPPO countries
- 2000/043 - Soilborne wheat mosaic diseases: new viruses are being described
- 2000/062 - Pepino mosaic potexvirus found in one tomato glasshouse in France
- 2000/081 - Two unusual ilarviruses found on tomatoes in France
- 2000/094 - First report of tomato yellow leaf curl begomovirus in France
- 2000/168 - Eradication of tomato yellow leaf curl begomovirus in France
- 2000/174 - *Cameraria ohridella* continues to spread in Europe

Frankliniella occidentalis

- 2000/032 - Details on glasshouse quarantine pests in EPPO countries
- 2000/060 - Situation of several quarantine pests in Lithuania
- 2000/076 - Situation of glasshouse quarantine pests in Slovenia
- 2000/091 - New data on quarantine pests and pests of the EPPO Alert List
- 2000/136 - Situation of several quarantine pests in Lithuania in 2000

Fusarium oxysporum f.sp. *albedinis*

- 2000/097 - Details on Bayoud disease in Mauritania

Fusarium proliferatum

- 2000/182 - *Fusarium proliferatum* reported on date palms in Saudi Arabia

Gambia

- 2000/095 - First report of *Bactrocera cucurbitae* in Gambia

Genetics

- 2000/064 - Studies on population genetic structure and host specificity of *Alternaria* species causing brown spot of *Minneola tangelo* and rough lemon
- 2000/105 - Relationships between Asian isolates of citrus greening bacterium
- 2000/121 - Genome of *Xylella fastidiosa* has been sequenced
- 2000/161 - Relations among sorghum ergot isolates from the Americas, Africa, India and Australia

Germany

- 2000/031 - Situation of *Diabrotica virgifera* in the EPPO region
- 2000/032 - Details on glasshouse quarantine pests in EPPO countries
- 2000/043 - Soilborne wheat mosaic diseases: new viruses are being described
- 2000/091 - New data on quarantine pests and pests of the EPPO Alert List

EPPO *Reporting Service*

- 2000/137 - Surveys on *Clavibacter michiganensis* subsp. *sepedonicus* and *Ralstonia solanacearum* in Germany
2000/138 - Situation of several quarantine pests in Germany in 1998
2000/171 - Situation of several quarantine pests in Germany in 1999 and 2000

Globodera pallida

- 2000/006 - New records or new detailed records on quarantine pests in Argentina, Brazil and Chile
2000/008 - Corrections to PQR 3.9, Quarantine Pests for Europe, Maps of Quarantine Pests for Europe
2000/077 - Details on quarantine pests in Italy: 1999 situation
2000/133 - First finding of *Globodera pallida* and *G. rostochiensis* in Turkey

Globodera rostochiensis

- 2000/006 - New records or new detailed records on quarantine pests in Argentina, Brazil and Chile
2000/008 - Corrections to PQR 3.9, Quarantine Pests for Europe, Maps of Quarantine Pests for Europe
2000/077 - Details on quarantine pests in Italy: 1999 situation
2000/100 - Details on the situation of several quarantine pests in Hungary in 1999
2000/115 - *Globodera rostochiensis* found in Slovenia
2000/133 - First finding of *Globodera pallida* and *G. rostochiensis* in Turkey
2000/170 - *Globodera pallida* found in Malta

Glomerella gossypii

- 2000/148 - New data on quarantine pests and pests of the EPPO Alert List

Gonipterus scutellatus

- 2000/006 - New records or new detailed records on quarantine pests in Argentina, Brazil and Chile

Grapevine bois noir phytoplasma

- 2000/148 - New data on quarantine pests and pests of the EPPO Alert List

Grapevine esca and decline diseases

- 2000/125 - New pathogens causing grapevine esca and decline
2000/126 - Special issue of Phytopathologia Mediterranea on esca and grapevine decline

Grapevine flavescence dorée phytoplasma

- 2000/077 - Details on quarantine pests in Italy: 1999 situation

Greece

- 2000/155 - Survey on tomato spotted wilt tospovirus on ornamentals in Greece

Grenada

- 2000/033 - *Xanthomonas vesicatoria* on *Capsicum chinense* in Grenada and Barbados

Gynaikothrips uzeli

- 2000/171 - Situation of several quarantine pests in Germany in 1999 and 2000

Helicoverpa armigera

- 2000/032 - Details on glasshouse quarantine pests in EPPO countries
2000/076 - Situation of glasshouse quarantine pests in Slovenia
2000/100 - Details on the situation of several quarantine pests in Hungary in 1999

EPPO *Reporting Service*

Heterodera glycines

2000/022 - New data on quarantine pests

Host plants

2000/042 - Host plants of *Anoplophora glabripennis*
2000/050 - Weed hosts of *Bemisia tabaci* biotype B in Italy
2000/141 - Susceptibility of several genotypes of *Sorbus* to *Erwinia amylovora*
2000/157 - Survey on viruses of cucurbits in São Paulo State, Brazil
2000/174 - *Cameraria ohridella* continues to spread in Europe
2000/178 - New disease of broccoli caused by *Pseudomonas syringae*
2000/182 - *Fusarium proliferatum* reported on date palms in Saudi Arabia

Hungary

2000/031 - Situation of *Diabrotica virgifera* in the EPPO region
2000/032 - Details on glasshouse quarantine pests in EPPO countries
2000/100 - Details on the situation of several quarantine pests in Hungary in 1999
2000/130 - *Ralstonia solanacearum* found in Hungary

Impatiens necrotic spot tospovirus

2000/005 - News from the Diagnostic Centre of the Dutch NPPO
2000/070 - New host plants for *impatiens necrotic spot* and tomato spotted wilt tospoviruses

India

2000/022 - New data on quarantine pests
2000/091 - New data on quarantine pests and pests of the EPPO Alert List
2000/129 - New data on quarantine pests and pests of the EPPO Alert List
2000/148 - New data on quarantine pests and pests of the EPPO Alert List

Interceptions

2000/038 - EPPO report on selected intercepted consignments
2000/052 - EPPO report on selected intercepted consignments
2000/071 - EPPO report on selected intercepted consignments
2000/090 - EPPO report on selected intercepted consignments
2000/111 - EPPO report on selected intercepted consignments
2000/119 - Identity of *Liriomyza* sp. intercepted on basil from Israel
2000/147 - EPPO report on selected intercepted consignments
2000/164 - EPPO report on selected intercepted consignments
2000/166 - Identification of *Liriomyza sativae* on imports from Israel
2000/186 - EPPO report on selected intercepted consignments

Iran

2000/004 - New data on quarantine pests or pests of the Alert List
2000/022 - New data on quarantine pests

Ireland

2000/059 - Beet necrotic yellow vein benyvirus was not found in Ireland in 1999

Israel

2000/001 - The situation of *Liriomyza sativae* is unconfirmed in Israel
2000/098 - Phytosanitary status of stone fruits, citrus and olives in Palestine
2000/114 - Brown rot and ring rot of potato absent from Israel
2000/118 - *Phytophthora cactorum* found and under eradication in Israel

EPPO Reporting Service

- 2000/119 - Identity of *Liriomyza* sp. intercepted on basil from Israel
2000/166 - Identification of *Liriomyza sativae* on imports from Israel

Italy

- 2000/022 - New data on quarantine pests
2000/023 - First report of *Xanthomonas axonopodis* pv. *dieffenbachiae* in Italy
2000/031 - Situation of *Diabrotica virgifera* in the EPPO region
2000/050 - Weed hosts of *Bemisia tabaci* biotype B in Italy
2000/077 - Details on quarantine pests in Italy: 1999 situation
2000/113 - *Ralstonia solanacearum* not found in Italy since the 1995 outbreak
2000/129 - New data on quarantine pests and pests of the EPPO Alert List
2000/169 - First report of *Mycosphaerella dearnessii* in Italy

Japan

- 2000/008 - Corrections to PQR 3.9, Quarantine Pests for Europe, Maps of Quarantine Pests for Europe
2000/017 - Ergot of sorghum in Japan caused by *Claviceps sorghicola*
2000/091 - New data on quarantine pests and pests of the EPPO Alert List
2000/105 - Relationships between Asian isolates of citrus greening bacterium
2000/158 - Melon yellow spot is a new tospovirus

Jordan

- 2000/150 - First report of plum pox potyvirus in Jordan

Korea, Rep.

- 2000/011 - More details on *Erwinia pyrifoliae*
2000/129 - New data on quarantine pests and pests of the EPPO Alert List
2000/176 - Details on *Thrips palmi* in Korea Republic

Kuwait

- 2000/148 - New data on quarantine pests and pests of the EPPO Alert List

Kyrgyzstan

- 2000/073 - Kyrgyzstan is a new EPPO member country

Lebanon

- 2000/134 - First report of cucurbit yellow stunting disorder crinivirus in Lebanon

Lecanoideus floccissimus

- 2000/068 - *Lecanoideus floccissimus* found on La Gomera, Canary Islands (ES)
2000/173 - Whitefly-transmitted viruses and whitefly species in Islas Canarias, Spain

Lettuce infectious yellows crinivirus

- 2000/069 - Studies on the geographical distribution of lettuce infectious yellows crinivirus, cucurbit yellow stunting disorder crinivirus and beet pseudo-yellows closterovirus

Liberobacter africanum

- 2000/105 - Relationships between Asian isolates of citrus greening bacterium

Liberobacter asiaticum

- 2000/105 - Relationships between Asian isolates of citrus greening bacterium
2000/106 - PCR technique to detect citrus greening bacterium (*Liberobacter asiaticum*)

EPPO *Reporting Service*

Liriomyza bryoniae

- 2000/032 - Details on glasshouse quarantine pests in EPPO countries
- 2000/060 - Situation of several quarantine pests in Lithuania
- 2000/076 - Situation of glasshouse quarantine pests in Slovenia
- 2000/138 - Situation of several quarantine pests in Germany in 1998

Liriomyza huidobrensis

- 2000/032 - Details on glasshouse quarantine pests in EPPO countries
- 2000/076 - Situation of glasshouse quarantine pests in Slovenia
- 2000/129 - New data on quarantine pests and pests of the EPPO Alert List
- 2000/138 - Situation of several quarantine pests in Germany in 1998

Liriomyza sativae

- 2000/001 - The situation of *Liriomyza sativae* is unconfirmed in Israel
- 2000/076 - Situation of glasshouse quarantine pests in Slovenia
- 2000/091 - New data on quarantine pests and pests of the EPPO Alert List
- 2000/119 - Identity of *Liriomyza* sp. intercepted on basil from Israel
- 2000/148 - New data on quarantine pests and pests of the EPPO Alert List
- 2000/166 - Identification of *Liriomyza sativae* on imports from Israel

Liriomyza trifolii

- 2000/032 - Details on glasshouse quarantine pests in EPPO countries
- 2000/076 - Situation of glasshouse quarantine pests in Slovenia
- 2000/119 - Identity of *Liriomyza* sp. intercepted on basil from Israel
- 2000/148 - New data on quarantine pests and pests of the EPPO Alert List

Lithuania

- 2000/032 - Details on glasshouse quarantine pests in EPPO countries
- 2000/060 - Situation of several quarantine pests in Lithuania
- 2000/136 - Situation of several quarantine pests in Lithuania in 2000

Macau

- 2000/014 - Insects in Macau: new records

Maconellicoccus hirsutus

- 2000/014 - Insects in Macau: new records

Maize Mal de Rio Cuarto fijivirus

- 2000/004 - New data on quarantine pests or pests of the Alert List

Malta

- 2000/170 - *Globodera pallida* found in Malta

Martinique

- 2000/004 - New data on quarantine pests or pests of the Alert List

Mauritania

- 2000/097 - Details on Bayoud disease in Mauritania

EPPO Reporting Service

Mauritius

2000/172 - First report of *Aleurodicus dispersus* in Mauritius

Melampsora medusae

2000/163 - Report of an interspecific hybrid of *Melampsora medusae* and *M. occidentalis* in USA

Meloidogyne chitwoodi

2000/019 - Identification method for *Meloidogyne hapla*, *M. chitwoodi* and *M. fallax*

2000/153 - Absence of *Meloidogyne chitwoodi* in England and Wales, UK

Meloidogyne fallax

2000/019 - Identification method for *Meloidogyne hapla*, *M. chitwoodi* and *M. fallax*

Melon yellow spot tospovirus

2000/158 - Melon yellow spot is a new tospovirus

Mexico

2000/026 - First report of tomato yellow leaf curl begomovirus in Mexico

2000/080 - First report of cucurbit yellow stunting disorder crinivirus in USA (Texas) and Mexico

2000/102 - Bean calico mosaic begomovirus is a distinct species

Monilinia fructicola

2000/084 - Differentiation between *Monilinia laxa*, *M. fructigena* and *M. fructicola* by using total mycelial protein SDS-PAGE

2000/143 - PCR identification of *Monilinia laxa*, *M. fructigena* and *M. fructicola*

Monosporascus cannonballus

2000/067 - Control methods against *Monosporascus cannonballus*

2000/179 - Studies on fungi associated with root rot and vine decline of melons in California (US)

Morocco

2000/025 - First report of tomato yellow leaf curl begomovirus in Morocco

2000/156 - First report of cucurbit yellow stunting disorder closterovirus in Morocco

Mycosphaerella dearnessii

2000/008 - Corrections to PQR 3.9, Quarantine Pests for Europe, Maps of Quarantine Pests for Europe

2000/169 - First report of *Mycosphaerella dearnessii* in Italy

2000/171 - Situation of several quarantine pests in Germany in 1999 and 2000

Mycosphaerella fijiensis

2000/120 - Black sigatoka transient in Queensland (Australia)

2000/181 - Black sigatoka in the Torres Strait islands (Australia)

Mycosphaerella linicola

2000/136 - Situation of several quarantine pests in Lithuania in 2000

Mycosphaerella pini

2000/148 - New data on quarantine pests and pests of the EPPO Alert List

EPPO Reporting Service

Neotoxoptera formosana

2000/061 - Additions to the EPPO Alert List

Netherlands

- 2000/003 - Addition of pepino mosaic potexvirus to the EPPO Alert List
- 2000/005 - News from the Diagnostic Centre of the Dutch NPPO
- 2000/032 - Details on glasshouse quarantine pests in EPPO countries
- 2000/165 - Outbreak of *Clavibacter michiganensis* subsp. *sepedonicus* in the Netherlands
- 2000/174 - *Cameraria ohridella* continues to spread in Europe

New host plants

- 2000/016 - *Urtica dioica* is a weed host of *Ralstonia solanacearum*
- 2000/027 - First report of tomato yellow leaf curl begomovirus on *Capsicum annuum* in Spain
- 2000/033 - *Xanthomonas vesicatoria* on *Capsicum chinense* in Grenada and Barbados
- 2000/070 - New host plants for impatiens necrotic spot and tomato spotted wilt tospoviruses
- 2000/124 - *Ralstonia solanacearum* on artichoke in Egypt
- 2000/129 - New data on quarantine pests and pests of the EPPO Alert List
- 2000/148 - New data on quarantine pests and pests of the EPPO Alert List

New pests

- 2000/017 - Ergot of sorghum in Japan caused by *Claviceps sorghicola*
- 2000/043 - Soilborne wheat mosaic diseases: new viruses are being described
- 2000/081 - Two unusual ilarviruses found on tomatoes in France
- 2000/122 - Phytoplasma diseases of date palm in Northern Sudan
- 2000/125 - New pathogens causing grapevine esca and decline
- 2000/158 - Melon yellow spot is a new tospovirus

New records

- 2000/004 - New data on quarantine pests or pests of the Alert List
- 2000/006 - New records or new detailed records on quarantine pests in Argentina, Brazil and Chile
- 2000/014 - Insects in Macau: new records
- 2000/022 - New data on quarantine pests
- 2000/023 - First report of *Xanthomonas axonopodis* pv. *dieffenbachiae* in Italy
- 2000/024 - First report of potato spindle tuber viroid in Costa Rica
- 2000/025 - First report of tomato yellow leaf curl begomovirus in Morocco
- 2000/026 - First report of tomato yellow leaf curl begomovirus in Mexico
- 2000/041 - Surveys on *Clavibacter michiganensis* subsp. *michiganensis*, *Pseudomonas corrugata* and *Ralstonia solanacearum* in Tanzania
- 2000/044 - Virus diseases of almond in Western Anatolia (Turkey)
- 2000/055 - *Ralstonia solanacearum* found again in Belgium
- 2000/058 - Present situation of beet necrotic yellow vein benyvirus in Sweden
- 2000/060 - Situation of several quarantine pests in Lithuania
- 2000/062 - Pepino mosaic potexvirus found in one tomato glasshouse in France
- 2000/063 - New taxonomy of *Alternaria* species from citrus
- 2000/069 - Studies on the geographical distribution of lettuce infectious yellows crinivirus, cucurbit yellow stunting disorder crinivirus and beet pseudo-yellows closterovirus
- 2000/076 - Situation of glasshouse quarantine pests in Slovenia
- 2000/079 - Tomato chlorosis crinivirus found in Spain
- 2000/080 - First report of cucurbit yellow stunting disorder crinivirus in USA (Texas) and Mexico
- 2000/091 - New data on quarantine pests and pests of the EPPO Alert List
- 2000/092 - *Clavibacter michiganensis* subsp. *sepedonicus* occurs in Belarus
- 2000/094 - First report of tomato yellow leaf curl begomovirus in France
- 2000/095 - First report of *Bactrocera cucurbitae* in Gambia

EPPO Reporting Service

- 2000/096 - *Rhynchophorus ferrugineus* occurs in Oman
- 2000/115 - *Globodera rostochiensis* found in Slovenia
- 2000/116 - *Ciborinia camelliae* found in Portugal
- 2000/117 - *Diabrotica virgifera* found in Albania
- 2000/129 - New data on quarantine pests and pests of the EPPO Alert List
- 2000/130 - *Ralstonia solanacearum* found in Hungary
- 2000/131 - First report of plum pox potyvirus in Canada
- 2000/132 - Pepino mosaic potyvirus found in Spain
- 2000/133 - First finding of *Globodera pallida* and *G. rostochiensis* in Turkey
- 2000/134 - First report of cucurbit yellow stunting disorder crinivirus in Lebanon
- 2000/135 - *Erwinia amylovora* found again in Norway
- 2000/148 - New data on quarantine pests and pests of the EPPO Alert List
- 2000/149 - First report of *Diabrotica virgifera virgifera* in Slovakia
- 2000/150 - First report of plum pox potyvirus in Jordan
- 2000/151 - Potato stolbur phytoplasma occurs in Poland
- 2000/154 - First report of tomato chlorosis crinivirus in Portugal
- 2000/156 - First report of cucurbit yellow stunting disorder closterovirus in Morocco
- 2000/169 - First report of *Mycosphaerella dearnessii* in Italy
- 2000/170 - *Globodera pallida* found in Malta
- 2000/171 - Situation of several quarantine pests in Germany in 1999 and 2000
- 2000/172 - First report of *Aleurodicus dispersus* in Mauritius
- 2000/174 - *Cameraria ohridella* continues to spread in Europe

New Zealand

- 2000/110 - Definition of Quarantine Risk Groups in New Zealand
- 2000/162 - Strawberry green petal and lethal yellows diseases are associated with *Phytoplasma australiense*
- 2000/180 - Situation of Dutch elm disease in New Zealand

Nicaragua

- 2000/148 - New data on quarantine pests and pests of the EPPO Alert List

Nigeria

- 2000/091 - New data on quarantine pests and pests of the EPPO Alert List

Norway

- 2000/032 - Details on glasshouse quarantine pests in EPPO countries
- 2000/135 - *Erwinia amylovora* found again in Norway
- 2000/185 - Telediagnostic methods used in Norway

Olive phytoplasma diseases

- 2000/048 - Deletions from the EPPO Alert List

Oman

- 2000/096 - *Rhynchophorus ferrugineus* occurs in Oman

Ophiostoma novo-ulmi

- 2000/100 - Details on the situation of several quarantine pests in Hungary in 1999
- 2000/180 - Situation of Dutch elm disease in New Zealand

Pakistan

- 2000/129 - New data on quarantine pests and pests of the EPPO Alert List

EPPO *Reporting Service*

Palm lethal yellowing phytoplasma

2000/160 - Potential vectors of coconut lethal disease phytoplasma

Peach rosette mosaic nepovirus

2000/044 - Virus diseases of almond in Western Anatolia (Turkey)

Pear decline phytoplasma

2000/107 - *Cacopsylla pyri* is a vector of pear decline phytoplasma

Pepino mosaic potexvirus

2000/003 - Addition of pepino mosaic potexvirus to the EPPO Alert List
2000/062 - Pepino mosaic potexvirus found in one tomato glasshouse in France
2000/132 - Pepino mosaic potexvirus found in Spain
2000/171 - Situation of several quarantine pests in Germany in 1999 and 2000

Pepper huasteco begomovirus

2000/046 - Begomoviruses of solanaceous crops: Additions to the EPPO Alert List

Pepper mild tigre begomovirus

2000/046 - Begomoviruses of solanaceous crops: Additions to the EPPO Alert List

Peru

2000/093 - *Clavibacter michiganensis* subsp. *sepedonicus* does not occur in Peru

Phoracantha semipunctata

2000/008 - Corrections to PQR 3.9, Quarantine Pests for Europe, Maps of Quarantine Pests for Europe

Phyllocnistis citrella

2000/014 - Insects in Macau: new records
2000/129 - New data on quarantine pests and pests of the EPPO Alert List

Phytophthora cactorum

2000/118 - *Phytophthora cactorum* found and under eradication in Israel

Phytophthora cambivora

2000/048 - Deletions from the EPPO Alert List
2000/082 - *Phytophthora cambivora* added again to the EPPO Alert List

Phytophthora quercina

2000/066 - Addition to the EPPO Alert List: *Phytophthora quercina*: a new species found on declining oaks

Phytoplasmas

2000/020 - Molecular classification of phytoplasmas

Phytoplasma diseases of date palm

2000/122 - Phytoplasma diseases of date palm in Northern Sudan

EPPO *Reporting Service*

Plasmopara halstedii

- 2000/022 - New data on quarantine pests
- 2000/129 - New data on quarantine pests and pests of the EPPO Alert List

Plum pox potyvirus

- 2000/005 - News from the Diagnostic Centre of the Dutch NPPO
- 2000/022 - New data on quarantine pests
- 2000/060 - Situation of several quarantine pests in Lithuania
- 2000/077 - Details on quarantine pests in Italy: 1999 situation
- 2000/098 - Phytosanitary status of stone fruits, citrus and olives in Palestine
- 2000/131 - First report of plum pox potyvirus in Canada
- 2000/136 - Situation of several quarantine pests in Lithuania in 2000
- 2000/140 - New ELISA test to distinguish between Markus and Dideron strains of plum pox potyvirus
- 2000/150 - First report of plum pox potyvirus in Jordan
- 2000/171 - Situation of several quarantine pests in Germany in 1999 and 2000

Poland

- 2000/032 - Details on glasshouse quarantine pests in EPPO countries
- 2000/129 - New data on quarantine pests and pests of the EPPO Alert List
- 2000/151 - Potato stolbur phytoplasma occurs in Poland
- 2000/174 - *Cameraria ohridella* continues to spread in Europe

Popillia japonica

- 2000/129 - New data on quarantine pests and pests of the EPPO Alert List

Portugal

- 2000/116 - *Ciborinia camelliae* found in Portugal
- 2000/154 - First report of tomato chlorosis crinivirus in Portugal

Potato latent carlavirus

- 2000/012 - More details on potato latent carlavirus

Potato spindle tuber viroid

- 2000/024 - First report of potato spindle tuber viroid in Costa Rica
- 2000/138 - Situation of several quarantine pests in Germany in 1998

Potato stolbur phytoplasma

- 2000/151 - Potato stolbur phytoplasma occurs in Poland

Potato yellow mosaic begomovirus

- 2000/046 - Begomoviruses of solanaceous crops: Additions to the EPPO Alert List

Premnotrypes latithorax

- 2000/006 - New records or new detailed records on quarantine pests in Argentina, Brazil and Chile

Pseudomonas syringae

- 2000/178 - New disease of broccoli caused by *Pseudomonas syringae*

Pseudomonas syringae pv. syringae

- 2000/048 - Deletions from the EPPO Alert List

EPPO *Reporting Service*

Publication

- 2000/053 - New book: Diseases of banana, abacá and enset
- 2000/072 - Phytoparasitica: Israel Journal of Plant Protection Sciences
- 2000/126 - Special issue of Phytopathologia Mediterranea on esca and grapevine decline
- 2000/127 - A new reporting service from BSPP

Puccinia distincta

- 2000/048 - Deletions from the EPPO Alert List

Puccinia horiana

- 2000/060 - Situation of several quarantine pests in Lithuania
- 2000/077 - Details on quarantine pests in Italy: 1999 situation
- 2000/100 - Details on the situation of several quarantine pests in Hungary in 1999
- 2000/136 - Situation of several quarantine pests in Lithuania in 2000
- 2000/138 - Situation of several quarantine pests in Germany in 1998

Puccinia pittieriana

- 2000/008 - Corrections to PQR 3.9, Quarantine Pests for Europe, Maps of Quarantine Pests for Europe

Quarantine

- 2000/110 - Definition of Quarantine Risk Groups in New Zealand

Radopholus citrophilus

- 2000/037 - *Radopholus citrophilus* considered again as a synonym of *R. similis*

Radopholus similis

- 2000/037 - *Radopholus citrophilus* considered again as a synonym of *R. similis*
- 2000/091 - New data on quarantine pests and pests of the EPPO Alert List
- 2000/129 - New data on quarantine pests and pests of the EPPO Alert List
- 2000/148 - New data on quarantine pests and pests of the EPPO Alert List

Ralstonia solanacearum

- 2000/006 - New records or new detailed records on quarantine pests in Argentina, Brazil and Chile
- 2000/008 - Corrections to PQR 3.9, Quarantine Pests for Europe, Maps of Quarantine Pests for Europe
- 2000/015 - *Ralstonia solanacearum* detected in surface water in Egypt
- 2000/016 - *Urtica dioica* is a weed host of *Ralstonia solanacearum*
- 2000/041 - Surveys on *Clavibacter michiganensis* subsp. *michiganensis*, *Pseudomonas corrugata* and *Ralstonia solanacearum* in Tanzania
- 2000/055 - *Ralstonia solanacearum* found again in Belgium
- 2000/056 - Elimination of *Clavibacter michiganensis* subsp. *sepedonicus* and *Ralstonia solanacearum* from contaminated waters
- 2000/077 - Details on quarantine pests in Italy: 1999 situation
- 2000/113 - *Ralstonia solanacearum* not found in Italy since the 1995 outbreak
- 2000/114 - Brown rot and ring rot of potato absent from Israel
- 2000/124 - *Ralstonia solanacearum* on artichoke in Egypt
- 2000/129 - New data on quarantine pests and pests of the EPPO Alert List
- 2000/130 - *Ralstonia solanacearum* found in Hungary
- 2000/137 - Surveys on *Clavibacter michiganensis* subsp. *sepedonicus* and *Ralstonia solanacearum* in Germany

EPPO *Reporting Service*

Regulations

2000/184 - EU Directive 77/93 passes away

Rhagoletis completa

2000/077 - Details on quarantine pests in Italy: 1999 situation

2000/129 - New data on quarantine pests and pests of the EPPO Alert List

Rhagoletis mendax

2000/022 - New data on quarantine pests

2000/108 - Irradiation as a quarantine treatment against *Rhagoletis mendax* and *R. pomonella*

Rhagoletis pomonella

2000/108 - Irradiation as a quarantine treatment against *Rhagoletis mendax* and *R. pomonella*

Rhynchophorus bilineatus

2000/048 - Deletions from the EPPO Alert List

Rhynchophorus ferrugineus

2000/096 - *Rhynchophorus ferrugineus* occurs in Oman

2000/148 - New data on quarantine pests and pests of the EPPO Alert List

Rhynchophorus phoenicis

2000/048 - Deletions from the EPPO Alert List

Rhynchophorus vulneratus

2000/048 - Deletions from the EPPO Alert List

Rhizopycnis vagum

2000/179 - Studies on fungi associated with root rot and vine decline of melons in California (US)

Rice stripe necrosis benyvirus

2000/018 - Further studies on rice stripe necrosis benyvirus in Colombia

Romania

2000/031 - Situation of *Diabrotica virgifera* in the EPPO region

2000/174 - *Cameraria ohridella* continues to spread in Europe

Saudi Arabia

2000/069 - Studies on the geographical distribution of lettuce infectious yellows crinivirus, cucurbit yellow stunting disorder crinivirus and beet pseudo-yellows closterovirus

2000/129 - New data on quarantine pests and pests of the EPPO Alert List

2000/182 - *Fusarium proliferatum* reported on date palms in Saudi Arabia

Scirtothrips citri

2000/148 - New data on quarantine pests and pests of the EPPO Alert List

Scirtothrips dorsalis

2000/022 - New data on quarantine pests

2000/129 - New data on quarantine pests and pests of the EPPO Alert List

EPPO *Reporting Service*

Serrano golden mosaic begomovirus

2000/046 - Begomoviruses of solanaceous crops: Additions to the EPPO Alert List

Sinaloa tomato leaf curl begomovirus

2000/046 - Begomoviruses of solanaceous crops: Additions to the EPPO Alert List

Slovakia

2000/031 - Situation of *Diabrotica virgifera* in the EPPO region
2000/032 - Details on glasshouse quarantine pests in EPPO countries
2000/149 - First report of *Diabrotica virgifera virgifera* in Slovakia

Slovenia

2000/031 - Situation of *Diabrotica virgifera* in the EPPO region
2000/076 - Situation of glasshouse quarantine pests in Slovenia
2000/115 - *Globodera rostochiensis* found in Slovenia
2000/129 - New data on quarantine pests and pests of the EPPO Alert List

Soilborne wheat mosaic diseases

2000/043 - Soilborne wheat mosaic diseases: new viruses are being described

South Africa

2000/004 - New data on quarantine pests or pests of the Alert List
2000/008 - Corrections to PQR 3.9, Quarantine Pests for Europe, Maps of Quarantine Pests for Europe

Spain

2000/027 - First report of tomato yellow leaf curl begomovirus on *Capsicum annuum* in Spain
2000/028 - Studies on the epidemiology of tomato yellow leaf curl begomovirus in Spain
2000/039 - Situation of *Erwinia amylovora* in Spain
2000/068 - *Lecanoides floccissimus* found on La Gomera, Canary Islands (ES)
2000/079 - Tomato chlorosis crinivirus found in Spain
2000/132 - Pepino mosaic potyvirus found in Spain
2000/173 - Whitefly-transmitted viruses and whitefly species in Islas Canarias, Spain

Spodoptera frugiperda

2000/171 - Situation of several quarantine pests in Germany in 1999 and 2000

Spodoptera littoralis

2000/076 - Situation of glasshouse quarantine pests in Slovenia
2000/077 - Details on quarantine pests in Italy: 1999 situation

Spodoptera litura

2000/014 - Insects in Macau: new records

Stegophora ulmea

2000/061 - Additions to the EPPO Alert List

Stenocarpella maydis

2000/022 - New data on quarantine pests
2000/091 - New data on quarantine pests and pests of the EPPO Alert List

EPPO Reporting Service

Stephanitis pyrioides

- 2000/005 - News from the Diagnostic Centre of the Dutch NPPO
- 2000/014 - Insects in Macau: new records

Stocky prune nepovirus

- 2000/048 - Deletions from the EPPO Alert List

Strawberry green petal phytoplasma

- 2000/162 - Strawberry green petal and lethal yellows diseases are associated with *Phytoplasma australiense*

Strawberry lethal yellows phytoplasma

- 2000/162 - Strawberry green petal and lethal yellows diseases are associated with *Phytoplasma australiense*

Striga gesnerioides

- 2000/002 - Weeds as potential quarantine pests
- 2000/048 - Deletions from the EPPO Alert List

Striga hermonthica

- 2000/002 - Weeds as potential quarantine pests
- 2000/048 - Deletions from the EPPO Alert List

Striga lutea

- 2000/002 - Weeds as potential quarantine pests
- 2000/048 - Deletions from the EPPO Alert List
- 2000/051 - *Striga lutea* does not occur in Australia

Sudan

- 2000/122 - Phytoplasma diseases of date palm in Northern Sudan

Sweden

- 2000/032 - Details on glasshouse quarantine pests in EPPO countries
- 2000/058 - Present situation of beet necrotic yellow vein benyvirus in Sweden
- 2000/152 - Details on the occurrence of beet necrotic yellow vein benyvirus in Sweden

Switzerland

- 2000/174 - *Cameraria ohridella* continues to spread in Europe

Synchytrium endobioticum

- 2000/005 - News from the Diagnostic Centre of the Dutch NPPO
- 2000/167 - *Synchytrium endobioticum* found on Prince Edward Island, Canada

Tanzania

- 2000/041 - Surveys on *Clavibacter michiganensis* subsp. *michiganensis*, *Pseudomonas corrugata* and *Ralstonia solanacearum* in Tanzania
- 2000/091 - New data on quarantine pests and pests of the EPPO Alert List

Taxonomy

- 2000/020 - Molecular classification of phytoplasmas
- 2000/037 - *Radopholus citrophilus* considered again as a synonym of *R. similis*
- 2000/063 - New taxonomy of *Alternaria* species from citrus

EPPO Reporting Service

- 2000/102 - Bean calico mosaic begomovirus is a distinct species
- 2000/142 - *Venturia nashicola* is a distinct species from *V. pirina*
- 2000/163 - Report of an interspecific hybrid of *Melampsora medusae* and *M. occidentalis* in USA
- 2000/177 - *Carposina niponensis* – nomenclature goes full circle

Texas pepper begomovirus

- 2000/046 - Begomoviruses of solanaceous crops: Additions to the EPPO Alert List
- 2000/101 - Details on Texas pepper begomovirus in Costa Rica

Thrips imaginis

- 2000/061 - Additions to the EPPO Alert List

Thrips palmi

- 2000/091 - New data on quarantine pests and pests of the EPPO Alert List
- 2000/129 - New data on quarantine pests and pests of the EPPO Alert List
- 2000/176 - Details on *Thrips palmi* in Korea Republic

Thrips parvispinus

- 2000/061 - Additions to the EPPO Alert List

Tilletia indica

- 2000/010 - *Tilletia indica* not found in Alabama and Tennessee
- 2000/129 - New data on quarantine pests and pests of the EPPO Alert List
- 2000/144 - New EC-funded Project on Karnal bunt (*Tilletia indica*)

Tomato chlorosis crinivirus

- 2000/079 - Tomato chlorosis crinivirus found in Spain
- 2000/154 - First report of tomato chlorosis crinivirus in Portugal
- 2000/173 - Whitefly-transmitted viruses and whitefly species in Islas Canarias, Spain

Tomato dwarf leaf curl begomovirus

- 2000/047 - Tomato dwarf leaf curl virus a new begomovirus of tomato and sweet pepper in Jamaica: Addition to the EPPO Alert List

Tomato golden mosaic begomovirus

- 2000/046 - Begomoviruses of solanaceous crops: Additions to the EPPO Alert List

Tomato ilarviruses

- 2000/081 - Two unusual ilarviruses found on tomatoes in France

Tomato ringspot nepovirus

- 2000/044 - Virus diseases of almond in Western Anatolia (Turkey)

Tomato spotted wilt tospovirus

- 2000/004 - New data on quarantine pests or pests of the Alert List
- 2000/005 - News from the Diagnostic Centre of the Dutch NPPO
- 2000/007 - Tospoviruses in Argentina
- 2000/032 - Details on glasshouse quarantine pests in EPPO countries
- 2000/070 - New host plants for impatiens necrotic spot and tomato spotted wilt tospoviruses
- 2000/077 - Details on quarantine pests in Italy: 1999 situation
- 2000/129 - New data on quarantine pests and pests of the EPPO Alert List

EPPO *Reporting Service*

- 2000/148 - New data on quarantine pests and pests of the EPPO Alert List
2000/155 - Survey on tomato spotted wilt tospovirus on ornamentals in Greece

Tomato yellow leaf curl begomovirus

- 2000/025 - First report of tomato yellow leaf curl begomovirus in Morocco
2000/026 - First report of tomato yellow leaf curl begomovirus in Mexico
2000/027 - First report of tomato yellow leaf curl begomovirus on *Capsicum annuum* in Spain
2000/028 - Studies on the epidemiology of tomato yellow leaf curl begomovirus in Spain
2000/029 - Situation of tomato yellow leaf curl begomovirus in Florida (US)
2000/030 - Transmission of tomato yellow leaf curl begomovirus by *Bemisia tabaci* to imidacloprid-treated and untreated tomato plants
2000/091 - New data on quarantine pests and pests of the EPPO Alert List
2000/094 - First report of tomato yellow leaf curl begomovirus in France
2000/129 - New data on quarantine pests and pests of the EPPO Alert List
2000/168 - Eradication of tomato yellow leaf curl begomovirus in France
2000/173 - Whitefly-transmitted viruses and whitefly species in Islas Canarias, Spain

Tomato yellow mosaic begomovirus

- 2000/046 - Begomoviruses of solanaceous crops: Additions to the EPPO Alert List

Tomato yellow vein streak begomovirus

- 2000/046 - Begomoviruses of solanaceous crops: Additions to the EPPO Alert List

Tospovirus

- 2000/005 - News from the Diagnostic Centre of the Dutch NPPO
2000/007 - Tospoviruses in Argentina
2000/032 - Details on glasshouse quarantine pests in EPPO countries
2000/070 - New host plants for impatiens necrotic spot and tomato spotted wilt tospoviruses
2000/077 - Details on quarantine pests in Italy: 1999 situation
2000/129 - New data on quarantine pests and pests of the EPPO Alert List
2000/148 - New data on quarantine pests and pests of the EPPO Alert List
2000/155 - Survey on tomato spotted wilt tospovirus on ornamentals in Greece
2000/158 - Melon yellow spot is a new tospovirus

Toxoptera citricida

- 2000/036 - Studies on the biology of *Toxoptera citricida*

Trialeurodes abutilonea

- 2000/048 - Deletions from the EPPO Alert List

Trialeurodes ricini

- 2000/061 - Additions to the EPPO Alert List

Trialeurodes vaporariorum

- 2000/049 - Monoclonal antibodies to identify adults of *Trialeurodes vaporariorum* and *Bemisia tabaci*

Trioza erytreae

- 2000/091 - New data on quarantine pests and pests of the EPPO Alert List

EPPO Reporting Service

Turkey

- 2000/044 - Virus diseases of almond in Western Anatolia (Turkey)
- 2000/045 - Details on citrus tristeza closterovirus in Turkey
- 2000/133 - First finding of *Globodera pallida* and *G. rostochiensis* in Turkey

Unconfirmed record

- 2000/001 - The situation of *Liriomyza sativae* is unconfirmed in Israel

United Kingdom

- 2000/003 - Addition of pepino mosaic potexvirus to the EPPO Alert List
- 2000/008 - Corrections to PQR 3.9, Quarantine Pests for Europe, Maps of Quarantine Pests for Europe
- 2000/032 - Details on glasshouse quarantine pests in EPPO countries
- 2000/043 - Soilborne wheat mosaic diseases: new viruses are being described
- 2000/089 - Present situation of the New Zealand flatworm (*Arthurdendyus triangulatus*) in UK
- 2000/123 - A new blight of Buxus in UK caused by *Cylindrocladium* sp.
- 2000/153 - Absence of *Meloidogyne chitwoodi* in England and Wales, UK

USA

- 2000/004 - New data on quarantine pests or pests of the Alert List
- 2000/010 - *Tilletia indica* not found in Alabama and Tennessee
- 2000/013 - Distribution of *Exomala (Blitopertha) orientalis* in USA
- 2000/029 - Situation of tomato yellow leaf curl begomovirus in Florida (US)
- 2000/034 - Serious outbreak of *Xanthomonas vesicatoria* on sweet pepper in Florida (US)
- 2000/035 - More findings of *Xanthomonas axonopodis* pv. *citri* in Florida (US)
- 2000/069 - Studies on the geographical distribution of lettuce infectious yellows crinivirus, cucurbit yellow stunting disorder crinivirus and beet pseudo-yellows closterovirus
- 2000/080 - First report of cucurbit yellow stunting disorder crinivirus in USA (Texas) and Mexico
- 2000/103 - First report of oleander leaf scorch (*Xylella fastidiosa*) in Florida (US)
- 2000/129 - New data on quarantine pests and pests of the EPPO Alert List
- 2000/148 - New data on quarantine pests and pests of the EPPO Alert List
- 2000/163 - Report of an interspecific hybrid of *Melampsora medusae* and *M. occidentalis* in USA
- 2000/178 - New disease of broccoli caused by *Pseudomonas syringae*
- 2000/179 - Studies on fungi associated with root rot and vine decline of melons in California (US)

Venezuela

- 2000/022 - New data on quarantine pests

Venturia nashicola

- 2000/142 - *Venturia nashicola* is a distinct species from *V. pirina*

Watermelon chlorotic stunt begomovirus

- 2000/159 - Watermelon chlorotic stunt begomovirus: addition to the EPPO Alert List

Xanthomonas axonopodis pv. *citri*

- 2000/035 - More findings of *Xanthomonas axonopodis* pv. *citri* in Florida (US)

Xanthomonas axonopodis pv. *dieffenbachiae*

- 2000/005 - News from the Diagnostic Centre of the Dutch NPPO
- 2000/006 - New records or new detailed records on quarantine pests in Argentina, Brazil and Chile
- 2000/023 - First report of *Xanthomonas axonopodis* pv. *dieffenbachiae* in Italy

EPPO *Reporting Service*

Xanthomonas vesicatoria

- 2000/022 - New data on quarantine pests
- 2000/033 - *Xanthomonas vesicatoria* on *Capsicum chinense* in Grenada and Barbados
- 2000/034 - Serious outbreak of *Xanthomonas vesicatoria* on sweet pepper in Florida (US)
- 2000/077 - Details on quarantine pests in Italy: 1999 situation
- 2000/100 - Details on the situation of several quarantine pests in Hungary in 1999

Xylella fastidiosa

- 2000/006 - New records or new detailed records on quarantine pests in Argentina, Brazil and Chile
- 2000/103 - First report of oleander leaf scorch (*Xylella fastidiosa*) in Florida (US)
- 2000/104 - Epidemiological studies on grapevine Pierce's disease (*Xylella fastidiosa*) in California, US
- 2000/121 - Genome of *Xylella fastidiosa* has been sequenced

Yugoslavia

- 2000/031 - Situation of *Diabrotica virgifera* in the EPPO region
- 2000/174 - *Cameraria ohridella* continues to spread in Europe

Zucchini lethal chlorosis tospovirus

- 2000/157 - Survey on viruses of cucurbits in São Paulo State, Brazil
