EPPO Reporting Service

No. 12 PARIS, 2025-12

2025/281 Index of the EPPO Reporting Service

2025/281 Index of the EPPO Reporting Service

The following index covers all Reporting Service articles published in 2025. You may consult it online in order to be able to click on (and thereby access) each article at the following link: <https://gd.eppo.int/reporting/article-8296>

A cumulative index (1967 to 2025) is also available from the EPPO website as an Excel file: https://www.eppo.int/RESOURCES/eppo_publications/eppo_reporting_service

Absence

- 2025/030 First report of *Spodoptera frugiperda* in Bulgaria
- 2025/039 *Ips hauseri* does not occur in Russia
- 2025/086 New data on quarantine pests and pests of the EPPO Alert List
- 2025/095 First reports of tomato fruit blotch virus in France and in Belgium
- 2025/102 Incursion of *Phytophthora lateralis* in Croatia
- 2025/107 *Phytophthora ramorum* is no longer present in Portugal
- 2025/113 New data on quarantine pests and pests of the EPPO Alert List
- 2025/124 *Trogoderma granarium* does not occur in the Republic of Korea
- 2025/129 *Clavibacter nebraskensis* does not occur in Mexico
- 2025/147 Eradication of *Thaumetopoea proccessionea* in Ireland
- 2025/187 New data on quarantine pests and pests of the EPPO Alert List
- 2025/193 Incursion of *Popillia japonica* in Belgium
- 2025/195 Update on the situation of *Scirtothrips aurantii* and *Scirtothrips dorsalis* in the Netherlands
- 2025/196 One beetle of *Anoplophora chinensis* found in Nordrhein-Westfalen, Germany
- 2025/207 Situation of several regulated pests in Serbia
- 2025/242 Eradication of *Aleurocanthus spiniferus* in Austria
- 2025/243 *Amasa parviseta*, *Euwallacea similis* and *Xyleborus bispinatus* are not established in Spain
- 2025/246 Eradication of ‘*Candidatus* Phytoplasma phoenicium’ and ‘*Candidatus* Phytoplasma aurantifolia’ in Jordan
- 2025/247 American plum line pattern virus does not occur in Albania
- 2025/255 Update on the situation of quarantine pests in the Russian Federation

Acacia dealbata

- 2025/137 Management of *Acacia dealbata* in Portugal
- 2025/227 Negative impacts of invasive *Acacia* species in fragmented forests

Acacia mearnsii

- 2025/280 *Acacia mearnsii* and *Broussonetia papyrifera* added to the EPPO List of Invasive Alien Plants
- 2025/226 Update of the list of invasive alien species of Union concern (European Union)

Acacia melanoxylon

- 2025/227 Negative impacts of invasive *Acacia* species in fragmented forests

Acacia pycnantha

- 2025/140 Recent updates in the EPPO Global Database
- 2025/185 Prioritization of alien plant taxa for EPPO Pest Risk Analysis

Acalypha australis

- 2025/023 First report of *Acalypha australis* in Albania
- 2025/184 *Acalypha australis* in the EPPO region: addition to the EPPO Alert List

Acer negundo

- 2025/026 Prioritizing management of invasive alien plant species

Acerophagus maculipennis

- 2025/131 Commercially available biological control agents in Germany

Acidovorax citrulli

- 2025/255 Update on the situation of quarantine pests in the Russian Federation

Aclees taiwanensis

- 2025/216 *Aclees taiwanensis*: first record of in the Russian Federation and incursion in Poland

Acorus calamus

2025/251 Global occurrences of alien aquatic plant species

Acroptilon repens

2025/255 Update on the situation of quarantine pests in the Russian Federation

Aculops lycopersici

2025/096 Confirmation of the role of tomato russet mite (*Aculops lycopersici*) as a vector of tomato fruit blotch virus

Adalia bipunctata

2025/131 Commercially available biological control agents in Germany

Aeolothrips intermedius

2025/182 New biological control agents added to PM 6/3(5) in 2025

Aetiology

2025/012 *Mesoptylus impictifrons*, new vector of *Xylella fastidiosa* in the EPPO region

2025/096 Confirmation of the role of tomato russet mite (*Aculops lycopersici*) as a vector of tomato fruit blotch virus

2025/100 Evidence of seed-transmission of watermelon crinkle leaf-associated virus 1 (WCLaV-1) and WCLaV-2

2025/199 New report of lettuce infectious yellows virus in Spain

Agasicles hygrophila

2025/224 Climate suitability of biological control agents and their hosts

Agave americana

2025/026 Prioritizing management of invasive alien plant species

2025/161 Alien plant species on the island of Menorca (Islas Baleares, Spain)

Agave fourcroydes

2025/185 Prioritization of alien plant taxa for EPPO Pest Risk Analysis

Ageratina altissima

2025/134 *Ageratina altissima* in Austria

2025/160 *Ageratina altissima* in the EPPO region: addition to the EPPO Alert List

Agrilus planipennis

2025/021 Pre-emptive biological control of *Agrilus planipennis* in Europe

2025/252 New data on quarantine pests and pests of the EPPO Alert List

2025/255 Update on the situation of quarantine pests in the Russian Federation

2025/261 Update on the situation of *Agrilus planipennis* in Belarus

2025/001 New data on quarantine pests and pests of the EPPO Alert List

2025/208 First report of *Agrilus planipennis* in Belarus

Ailanthus altissima

2025/084 Using satellite imagery to assess *Ailanthus altissima* in Sardinia (IT)

2025/249 Alien plant species in Algeria including new country records

2025/136 Management of *Ailanthus altissima* in Israel

Albania

2025/247 American plum line pattern virus does not occur in Albania

2025/001 New data on quarantine pests and pests of the EPPO Alert List

2025/023 First report of *Acalypha australis* in Albania

Alcea rosea

2025/249 Alien plant species in Algeria including new country records

Alert List

2025/008 *Euzophera semifuneralis* (Lepidoptera: Pyralidae): addition to the EPPO Alert List

2025/009 *Monema flavescens* (Lepidoptera: Limacodidae): addition to the EPPO Alert List

2025/047 *Clavibacter nebraskensis* causing Goss's wilt of maize: addition to the EPPO Alert List

2025/049 *Phyllostachys aurea* in the EPPO region: addition to the EPPO Alert List

2025/081 *Sasa palmata* in the EPPO region: addition to the EPPO Alert List

- 2025/127 *Pyricularia oryzae* *Triticum* lineage causing wheat blast: addition to the Alert List
 2025/160 *Ageratina altissima* in the EPPO region: addition to the EPPO Alert List
 2025/184 *Acalypha australis* in the EPPO region: addition to the EPPO Alert List
 2025/189 *Lagria villosa* (Coleoptera: Tenebrionidae): addition to the Alert List
 2025/235 *Amrasca biguttula* (Hemiptera: Cicadellidae, two-spot cotton leafhopper): addition to the EPPO Alert List

Aleurocanthus spiniferus

- 2025/036 Update on the situation of *Aleurocanthus spiniferus* in Croatia
 2025/242 Eradication of *Aleurocanthus spiniferus* in Austria
 2025/002 First report of *Aleurocanthus woglumi* and *Aleurocanthus spiniferus* in Georgia
 2025/117 First report of *Aleurocanthus spiniferus* in Austria
 2025/141 New EU Regulations
 2025/223 First report of the biological control agent *Encarsia smithi* in Italy

Aleurocanthus spiniferus

- 2025/055 New data on quarantine pests and pests of the EPPO Alert List

Aleurocanthus woglumi

- 2025/002 First report of *Aleurocanthus woglumi* and *Aleurocanthus spiniferus* in Georgia
 2025/223 First report of the biological control agent *Encarsia smithi* in Italy

Algeria

- 2025/028 New data on quarantine pests and pests of the EPPO Alert List
 2025/054 *Arctotheca calendula* in North Africa
 2025/113 New data on quarantine pests and pests of the EPPO Alert List
 2025/145 First report of *Zaprionus tuberculatus* in Algeria
 2025/164 New data on quarantine pests and pests of the EPPO Alert List
 2025/249 Alien plant species in Algeria including new country records

Alhagi maurorum

- 2025/020 Prioritizing invasive plants for biological control in in western USA

Allexivirus epsilon rubi

- 2025/130 Phantom disease agents of fruit crops and rose

Alternanthera philoxeroides

- 2025/251 Global occurrences of alien aquatic plant species
 2025/224 Climate suitability of biological control agents and their hosts
 2025/276 Invasive plants as contaminants of bonsai plants from China

Alternaria mali

- 2025/207 Situation of several regulated pests in Serbia

Amaranthus albus

- 2025/249 Alien plant species in Algeria including new country records

Amaranthus blitoides

- 2025/249 Alien plant species in Algeria including new country records

Amaranthus emarginatus

- 2025/026 Prioritizing management of invasive alien plant species

Amaranthus muricatus

- 2025/249 Alien plant species in Algeria including new country records

Amaranthus palmeri

- 2025/109 The impact of *Amaranthus palmeri* on *Gossypium hirsutum*
 2025/232 Update of the situation of regulated pests in Brazil

Amaranthus retroflexus

- 2025/026 Prioritizing management of invasive alien plant species
 2025/161 Alien plant species on the island of Menorca (Islas Baleares, Spain)
 2025/249 Alien plant species in Algeria including new country records

Amaranthus tuberculatus

2025/203 First report of *Amaranthus tuberculatus* in Portugal

Amasa parviseta

2025/211 First report of *Euwallacea similis* in Spain and new findings of alien *Scolytinae*

2025/243 *Amasa parviseta*, *Euwallacea similis* and *Xyleborus bispinatus* are not established in Spain

Amblydromalus limonicus

2025/131 Commercially available biological control agents in Germany

Amblyseius andersoni

2025/131 Commercially available biological control agents in Germany

Amblyseius swirskii

2025/131 Commercially available biological control agents in Germany

Ambrosia artemisiifolia

2025/255 Update on the situation of quarantine pests in the Russian Federation

Ambrosia grayi

2025/085 Efficacy of herbicides for the control of *Ambrosia grayi*

Ambrosia psilostachya

2025/026 Prioritizing management of invasive alien plant species

2025/255 Update on the situation of quarantine pests in the Russian Federation

Ambrosia trifida

2025/255 Update on the situation of quarantine pests in the Russian Federation

Amelanchier* × *lamarckii

2025/135 First report of *Amelanchier* × *lamarckii* in Lithuania

American plum line pattern virus (*Ilarvirus APLPV*)

2025/180 New reports of plum viruses and viroids in India

2025/247 American plum line pattern virus does not occur in Albania

Amrasca biguttula

2025/001 New data on quarantine pests and pests of the EPPO Alert List

2025/139 New data on quarantine pests and pests of the EPPO Alert List

2025/233 First report of *Amrasca biguttula* in North America (USA)

2025/234 First report of *Amrasca biguttula* in Central America (Honduras)

2025/235 *Amrasca biguttula* (Hemiptera: Cicadellidae, two-spot cotton leafhopper): addition to the EPPO Alert List

Anagyrus fusciventris

2025/131 Commercially available biological control agents in Germany

Anagyrus vladimiri

2025/131 Commercially available biological control agents in Germany

Anastrepha bahiensis

2025/165 Recent updates in the EPPO Global Database

Anastrepha coronilli

2025/165 Recent updates in the EPPO Global Database

Anastrepha curvicauda

2025/165 Recent updates in the EPPO Global Database

Anastrepha fuscicauda

2025/165 Recent updates in the EPPO Global Database

Anastrepha mucronata

2025/165 Recent updates in the EPPO Global Database

Anastrepha sororcula

2025/165 Recent updates in the EPPO Global Database

Anastrepha striata

2025/165 Recent updates in the EPPO Global Database

Anastrepha turpiniae

2025/165 Recent updates in the EPPO Global Database

Andropogon abyssinicus

2025/050 First report of *Andropogon abyssinicus* in the Canary Islands (Spain)

Anisandrus maiche

2025/116 First report of *Anisandrus maiche* in Poland

2025/175 First report of the *Cnestus mutilatus* in Slovenia and update on *Anisandrus maiche* and *Xylosandrus compactus*

Anoplophora chinensi

2025/262 Update on the situation of *Anoplophora chinensis* in Croatia

Anoplophora chinensis

2025/196 One beetle of *Anoplophora chinensis* found in Nordrhein-Westfalen, Germany

Anoplophora glabripennis

2025/011 Update on the situation of *Anoplophora glabripennis* in Switzerland

2025/028 New data on quarantine pests and pests of the EPPO Alert List

Anredera cordifolia

2025/026 Prioritizing management of invasive alien plant species

Anthocoris nemoralis

2025/131 Commercially available biological control agents in Germany

Aphelenchoides besseyi

2025/201 First report of *Aphelenchoides besseyi* in Portugal

Aphelinus abdominalis

2025/131 Commercially available biological control agents in Germany

Aphidius colemani

2025/131 Commercially available biological control agents in Germany

Aphidoletes aphidimyza

2025/131 Commercially available biological control agents in Germany

Aphytis melinus

2025/131 Commercially available biological control agents in Germany

apple bumpy fruit of Ben Davis

2025/130 Phantom disease agents of fruit crops and rose

apple chlorotic leaf spot virus (*Trichovirus mali*)

2025/180 New reports of plum viruses and viroids in India

apple flat limb agent

2025/130 Phantom disease agents of fruit crops and rose

apple mosaic virus (*Ilarvirus ApMV*)

2025/207 Situation of several regulated pests in Serbia

apple necrotic mosaic virus (*Ilarvirus ApNMV*)

2025/270 Recent changes in virus taxonomy

apple ringspot agent

2025/130 Phantom disease agents of fruit crops and rose

apple rosette agent

2025/130 Phantom disease agents of fruit crops and rose

apple rubbery wood agent

2025/130 Phantom disease agents of fruit crops and rose

apple russet wart

2025/130 Phantom disease agents of fruit crops and rose

apple star crack agent

2025/130 Phantom disease agents of fruit crops and rose

apple stem grooving virus (*Capillovirus mali*)

2025/139 New data on quarantine pests and pests of the EPPO Alert List

2025/207 Situation of several regulated pests in Serbia

apricot chlorotic leaf mottle agent

2025/130 Phantom disease agents of fruit crops and rose

apricot Moorpark mottle agent

2025/130 Phantom disease agents of fruit crops and rose

apricot pucker leaf agent

2025/130 Phantom disease agents of fruit crops and rose

Apriona rugicollis

2025/001 New data on quarantine pests and pests of the EPPO Alert List

Aprostocetus hagenowii

2025/131 Commercially available biological control agents in Germany

Araujia sericifera

2025/020 Prioritizing invasive plants for biological control in in western USA

Arboridia kakogawana

2025/001 New data on quarantine pests and pests of the EPPO Alert List

2025/252 New data on quarantine pests and pests of the EPPO Alert List

Arctotheca calendula

2025/054 *Arctotheca calendula* in North Africa

Argentina

2025/086 New data on quarantine pests and pests of the EPPO Alert List

2025/113 New data on quarantine pests and pests of the EPPO Alert List

2025/229 New data on quarantine pests and pests of the EPPO Alert List

2025/236 First reports of *Leptodelphax maculigera* in Argentina and Paraguay

2025/252 New data on quarantine pests and pests of the EPPO Alert List

Armenia

2025/076 First report of *Bursaphelenchus xylophilus* in Armenia

Aromia bungii

2025/171 Update on the situation of *Aromia bungii* in Italy

2025/064 Update on the situation of *Aromia bungii* in Germany

Artemisia annua

2025/026 Prioritizing management of invasive alien plant species

Artemisia verlotiorum

2025/185 Prioritization of alien plant taxa for EPPO Pest Risk Analysis

Arundo donax

2025/026 Prioritizing management of invasive alien plant species

2025/140 Recent updates in the EPPO Global Database

- 2025/161 Alien plant species on the island of Menorca (Islas Baleares, Spain)
 2025/185 Prioritization of alien plant taxa for EPPO Pest Risk Analysis

Asclepias speciosa

- 2025/083 First report of *Asclepias speciosa* in Greece
 2025/056 Recent updates in the EPPO Global Database

Atherigona orientalis

- 2025/206 New data on quarantine pests and pests of the EPPO Alert List

Atriplex canescens* var. *gigantea

- 2025/249 Alien plant species in Algeria including new country records

Atriplex semilunaris

- 2025/108 *Atriplex semilunaris* in the Canary Islands (ES)

Atriplex suberecta

- 2025/249 Alien plant species in Algeria including new country records

Aucuba mosaic

- 2025/130 Phantom disease agents of fruit crops and rose

Australia

- 2025/028 New data on quarantine pests and pests of the EPPO Alert List
 2025/055 New data on quarantine pests and pests of the EPPO Alert List
 2025/086 New data on quarantine pests and pests of the EPPO Alert List
 2025/139 New data on quarantine pests and pests of the EPPO Alert List
 2025/229 New data on quarantine pests and pests of the EPPO Alert List
 2025/252 New data on quarantine pests and pests of the EPPO Alert List
 2025/245 *Phytophthora mediterranea*: an emerging pest of woody trees

Australian grapevine viroid (*Apscaviroid austravitis*)

- 2025/159 Viruses, virus-like diseases and viroids of grapevine that should not be regulated

Austria

- 2025/006 First report of *Pochazia shantungensis* in Hungary
 2025/074 First report of 'Candidatus *Arsenophonus phytopathogenicus*' in Central Europe
 2025/117 First report of *Aleurocanthus spiniferus* in Austria
 2025/134 *Ageratina altissima* in Austria
 2025/162 Biogeographical studies of *Myriophyllum rubricaulis*
 2025/212 First report of *Cnестus mutilatus* in Austria
 2025/213 Incursion of *Popillia japonica* in Austria
 2025/242 Eradication of *Aleurocanthus spiniferus* in Austria
 2025/018 Update of the situation of *Ralstonia solanacearum* in the EPPO region
 2025/122 Update on the situation of the Asian hornet *Vespa velutina* in Europe

Austrocylindropuntia cylindrica

- 2025/249 Alien plant species in Algeria including new country records

Austrocylindropuntia subulata

- 2025/026 Prioritizing management of invasive alien plant species
 2025/185 Prioritization of alien plant taxa for EPPO Pest Risk Analysis

Austropuccinia psidii

- 2025/041 First report of *Austropuccinia psidii* in the EPPO region
 2025/197 First report of *Austropuccinia psidii* in Portugal
 2025/198 First report of *Austropuccinia psidii* in Taiwan

Azerbaijan

- 2025/114 Recent updates in the EPPO Global Database
 2025/139 New data on quarantine pests and pests of the EPPO Alert List
 2025/055 New data on quarantine pests and pests of the EPPO Alert List

Azolla filiculoides

- 2025/251 Global occurrences of alien aquatic plant species

Bactericera cockerelli

2025/055 New data on quarantine pests and pests of the EPPO Alert List

Bactrocera correcta

2025/062 Incursion of *Bactrocera zonata* and *Bactrocera correcta* in Italy

Bactrocera dorsalis

2025/241 Incursion of *Bactrocera dorsalis* in Slovakia

2025/055 New data on quarantine pests and pests of the EPPO Alert List

Bactrocera facialis

2025/252 New data on quarantine pests and pests of the EPPO Alert List

Bactrocera latifrons

2025/055 New data on quarantine pests and pests of the EPPO Alert List

Bactrocera zonata

2025/055 New data on quarantine pests and pests of the EPPO Alert List

2025/062 Incursion of *Bactrocera zonata* and *Bactrocera correcta* in Italy

barley yellow striate mosaic virus (*Betacytorhabdovirus hordei*)

2025/270 Recent changes in virus taxonomy

Bassia indica

2025/249 Alien plant species in Algeria including new country records

Bassia scoparia

2025/249 Alien plant species in Algeria including new country records

bean golden mosaic virus (*Begomovirus costai*)

2025/253 Recent updates in the EPPO Global Database

bean golden yellow mosaic virus (*Begomovirus birdi*)

2025/253 Recent updates in the EPPO Global Database

beet leaf curl virus

2025/029 Recent updates in the EPPO Global Database

Belarus

2025/208 First report of *Agrilus planipennis* in Belarus

2025/261 Update on the situation of *Agrilus planipennis* in Belarus

Belgium

2025/006 First report of *Pochazia shantungensis* in Hungary

2025/028 New data on quarantine pests and pests of the EPPO Alert List

2025/044 Update of the situation of *Curtobacterium flaccumfaciens* pv. *flaccumfaciens* in Belgium

2025/052 Seed production in European populations of *Ludwigia grandiflora*

2025/061 Incursion of *Dacus frontalis* in Belgium

2025/095 First reports of tomato fruit blotch virus in France and in Belgium

2025/162 Biogeographical studies of *Myriophyllum rubricaulis*

2025/174 First report of *Takahashia japonica* in Belgium

2025/193 Incursion of *Popillia japonica* in Belgium

2025/219 Update on the situation of *Phytophthora pluvialis* in Belgium

2025/238 First report of *Pochazia shantungensis* in Belgium

2025/121 Update on the situation of *Orientus ishidae* in the EPPO region

Bemisia tabaci

2025/255 Update on the situation of quarantine pests in the Russian Federation

Bidens aurea

2025/249 Alien plant species in Algeria including new country records

Bidens bipinnata

2025/255 Update on the situation of quarantine pests in the Russian Federation

bidens mottle virus (*Potyvirus bidenstessellati*)

2025/181 Bidens mottle virus, an emerging pest of sunflower in South Africa

Bidens pilosa

2025/186 Global changes in the distribution of *Bidens pilosa* as an effect of climate change

Bidens vulgata

2025/026 Prioritizing management of invasive alien plant species

Biocontrol

- 2025/019 Olfactory cues for host selection in *Ganaspis brasiliensis* G1
- 2025/020 Prioritizing invasive plants for biological control in in western USA
- 2025/021 Pre-emptive biological control of *Agrilus planipennis* in Europe
- 2025/022 Update of EPPO PM 6 Standard
- 2025/078 Pre-emptive and proactive biological control for invasive alien plants
- 2025/079 Utilization of biological control against regulated pests in the EPPO region
- 2025/080 Biological control in the context of Integrated Pest Management
- 2025/131 Commercially available biological control agents in Germany
- 2025/132 Interactions between parasitoids of *Drosophila suzukii*
- 2025/133 Post-release monitoring of two biological control agents in North America
- 2025/182 New biological control agents added to PM 6/3(5) in 2025
- 2025/183 XVII International Symposium on Biological Control of Weeds (Rotorua, NZ, 2026-03-8/13)
- 2025/210 Update on the situation of *Diaphorina citri* in Cyprus
- 2025/222 The potential for pre-emptive biological control of *Diaphorina citri* (EPPO A1 List) using *Tamarixia radiata*
- 2025/223 First report of the biological control agent *Encarsia smithi* in Italy
- 2025/224 Climate suitability of biological control agents and their hosts
- 2025/273 Stakeholder perception of biological control in Washington State (USA)
- 2025/274 Accidental introduction of a biological control agent of *Cydalima perspectalis* in the EPPO region
- 2025/275 Hyperparasitoids impact efficacy of biological control of *Metcalfa pruinosa* in Italy

Biology

2025/088 First report of *Grapholita inopinata* in the European part of the Russian Federation

Bipolaris zeicola*

2025/255 Update on the situation of quarantine pests in the Russian Federation

Blackcurrant yellows

2025/130 Phantom disease agents of fruit crops and rose

Blueberry leaf mottle virus (*Nepovirus myrtilli*)

2025/092 First report of *Nepovirus myrtilli* in the EPPO region

blueberry leaf mottle virus (*Nepovirus myrtilli*)

2025/154 First report of blueberry leaf mottle virus in France

Bosnia and Herzegovina

2025/126 First record of *Xiphinema rivesi* in Bosnia and Herzegovina

Bothriochloa barbinodis

- 2025/140 Recent updates in the EPPO Global Database
- 2025/185 Prioritization of alien plant taxa for EPPO Pest Risk Analysis

Bothriochloa ischaemum

2025/020 Prioritizing invasive plants for biological control in in western USA

Bracon brevicornis

2025/131 Commercially available biological control agents in Germany

Brassica napus

2025/249 Alien plant species in Algeria including new country records

Brazil

2025/048 Emergence of *Ceratobasidium theobromae* as a pest of cassava, and first report in the Americas

- 2025/059 First report of the African leafhopper *Leptodelphax maculigera* in South America, and its potential role as vector of corn stunt pathogens in Brazil
- 2025/068 First report of *Ralstonia syzygii* subsp. *syzygii* in Brazil on eucalyptus
- 2025/086 New data on quarantine pests and pests of the EPPO Alert List
- 2025/113 New data on quarantine pests and pests of the EPPO Alert List
- 2025/187 New data on quarantine pests and pests of the EPPO Alert List
- 2025/206 New data on quarantine pests and pests of the EPPO Alert List
- 2025/232 Update of the situation of regulated pests in Brazil
- 2025/252 New data on quarantine pests and pests of the EPPO Alert List

Brenneria goodwinii

- 2025/014 First report of *Brenneria goodwinii* and *Gibbsiella quercinecans* in Slovakia
- 2025/157 Recent studies and reviews involving bacteria associated with acute oak decline
- 2025/086 New data on quarantine pests and pests of the EPPO Alert List
- 2025/231 Recent updates in the EPPO Global Database

Brevipalpus phoenicis

- 2025/115 Update on the status of some regulated pests in Chile

Bromus catharticus

- 2025/249 Alien plant species in Algeria including new country records

Broussonetia papyrifera

- 2025/280 *Acacia mearnsii* and *Broussonetia papyrifera* added to the EPPO List of Invasive Alien Plants
- 2025/226 Update of the list of invasive alien species of Union concern (European Union)
- 2025/276 Invasive plants as contaminants of bonsai plants from China

Bryonia alba

- 2025/020 Prioritizing invasive plants for biological control in in western USA

Buddleia davidii

- 2025/020 Prioritizing invasive plants for biological control in in western USA

Bulgaria

- 2025/030 First report of *Spodoptera frugiperda* in Bulgaria
- 2025/055 New data on quarantine pests and pests of the EPPO Alert List
- 2025/075 New outbreak of *Meloidogyne chitwoodi* in Bulgaria
- 2025/121 Update on the situation of *Orientus ishidae* in the EPPO region

Bursaphelenchus xylophilus

- 2025/076 First report of *Bursaphelenchus xylophilus* in Armenia
- 2025/077 Update on the situation of *Bursaphelenchus xylophilus* in Spain
- 2025/263 First report of *Bursaphelenchus xylophilus* in France
- 2025/086 New data on quarantine pests and pests of the EPPO Alert List

Cabomba caroliniana

- 2025/020 Prioritizing invasive plants for biological control in in western USA

Calonectria pauciramosa

- 2025/028 New data on quarantine pests and pests of the EPPO Alert List

Cambodia

- 2025/048 Emergence of *Ceratobasidium theobromae* as a pest of cassava, and first report in the Americas

Canada

- 2025/267 New reports of plant diseases in Canada
- 2025/269 *Phytophthora abietivora*: an emerging pest of fir trees in North America

‘*Candidatus Arsenophonus phytopathogenicus*’

- 2025/072 First report of ‘*Candidatus Arsenophonus phytopathogenicus*’ on onion in Germany
- 2025/073 First report of ‘*Candidatus Arsenophonus phytopathogenicus*’ on potato in Switzerland
- 2025/074 First report of ‘*Candidatus Arsenophonus phytopathogenicus*’ in Central Europe

‘*Candidatus Liberibacter africanus*’

- 2025/254 New EU regulations

'Candidatus Liberibacter americanus'

- 2025/232 Update of the situation of regulated pests in Brazil
 2025/254 New EU regulations

'Candidatus Liberibacter asiaticus'

- 2025/057 Update on citrus quarantine pests in the USA
 2025/232 Update of the situation of regulated pests in Brazil
 2025/254 New EU regulations

'Candidatus Phytoplasma asteris'

- 2025/252 New data on quarantine pests and pests of the EPPO Alert List
 2025/272 First report '*Candidatus Phytoplasma fragariae*' and '*Candidatus Phytoplasma asteris*' in potato in the Netherlands

'Candidatus Phytoplasma aurantifolia'

- 2025/246 Eradication of '*Candidatus Phytoplasma phoenicium*' and '*Candidatus Phytoplasma aurantifolia*' in Jordan

'Candidatus Phytoplasma fragariae'

- 2025/272 First report '*Candidatus Phytoplasma fragariae*' and '*Candidatus Phytoplasma asteris*' in potato in the Netherlands

'Candidatus Phytoplasma mali'

- 2025/206 New data on quarantine pests and pests of the EPPO Alert List
 2025/255 Update on the situation of quarantine pests in the Russian Federation

'Candidatus Phytoplasma phoenicium'

- 2025/246 Eradication of '*Candidatus Phytoplasma phoenicium*' and '*Candidatus Phytoplasma aurantifolia*' in Jordan

'Candidatus Phytoplasma prunorum'

- 2025/252 New data on quarantine pests and pests of the EPPO Alert List

'Candidatus Phytoplasma pyri'

- 2025/206 New data on quarantine pests and pests of the EPPO Alert List
 2025/252 New data on quarantine pests and pests of the EPPO Alert List
 2025/255 Update on the situation of quarantine pests in the Russian Federation

'Candidatus Phytoplasma solani'

- 2025/074 First report of '*Candidatus Arsenophonus phytopathogenicus*' in Central Europe
 2025/207 Situation of several regulated pests in Serbia

'Candidatus Phytoplasma trifolii'

- 2025/252 New data on quarantine pests and pests of the EPPO Alert List

'Candidatus Phytoplasma ulmi'

- 2025/207 Situation of several regulated pests in Serbia
 2025/230 New additions to the EPPO A1 and A2 Lists

'Cardiospermum microcarpum'

- 2025/248 Distributions of four alien plants in Morocco including a new country record

Carposina sasakii

- 2025/255 Update on the situation of quarantine pests in the Russian Federation

Cenchrus clandestinus

- 2025/161 Alien plant species on the island of Menorca (Islas Baleares, Spain)

Cenchrus longisetus

- 2025/026 Prioritizing management of invasive alien plant species
 2025/140 Recent updates in the EPPO Global Database
 2025/185 Prioritization of alien plant taxa for EPPO Pest Risk Analysis

Cenchrus longispinus

2025/255 Update on the situation of quarantine pests in the Russian Federation

Cenchrus setaceus

2025/225 First report of *Cenchrus setaceus* in Crete (Greece)

Centaurea hyalolepis

2025/249 Alien plant species in Algeria including new country records

Cephalonomia tarsalis

2025/131 Commercially available biological control agents in Germany

Ceratitis anonae

2025/056 Recent updates in the EPPO Global Database

Ceratitis capitata

2025/207 Situation of several regulated pests in Serbia

Ceratitis quilicii

2025/056 Recent updates in the EPPO Global Database

Ceratitis quinaria

2025/055 New data on quarantine pests and pests of the EPPO Alert List

Ceratobasidium theobromae

2025/048 Emergence of *Ceratobasidium theobromae* as a pest of cassava, and first report in the Americas

2025/206 New data on quarantine pests and pests of the EPPO Alert List

Ceratocystis ficicola

2025/230 New additions to the EPPO A1 and A2 Lists

Ceratocystis platani

2025/043 Update on the situation of *Ceratocystis platani* in France

2025/178 Correction concerning the situation of *Ceratocystis platani* in France

2025/254 New EU regulations

Cercospora kikuchii

2025/255 Update on the situation of quarantine pests in the Russian Federation

Ceroplastes japonicus

2025/255 Update on the situation of quarantine pests in the Russian Federation

Chasmanthe floribunda

2025/026 Prioritizing management of invasive alien plant species

2025/140 Recent updates in the EPPO Global Database

2025/185 Prioritization of alien plant taxa for EPPO Pest Risk Analysis

Cheiloneurus swezeyi

2025/275 Hyperparasitoids impact efficacy of biological control of *Metcalfa pruinosa* in Italy

Cherry black canker agent

2025/130 Phantom disease agents of fruit crops and rose

cherry leaf roll virus (*Nepovirus avii*)

2025/207 Situation of several regulated pests in Serbia

cherry leafroll virus (*Nepovirus avii*)

2025/159 Viruses, virus-like diseases and viroids of grapevine that should not be regulated

cherry necrotic rusty mottle virus (*Robigovirus necroavii*)

2025/207 Situation of several regulated pests in Serbia

Cherry pink fruit agent

2025/130 Phantom disease agents of fruit crops and rose

Cherry rough fruit agent

2025/130 Phantom disease agents of fruit crops and rose

Cherry rusty spot agent

2025/130 Phantom disease agents of fruit crops and rose

Cherry short stem agent

2025/130 Phantom disease agents of fruit crops and rose

Cherry spur cherry agent

2025/130 Phantom disease agents of fruit crops and rose

Chile

2025/114 Recent updates in the EPPO Global Database

2025/115 Update on the status of some regulated pests in Chile

2025/162 Biogeographical studies of *Myriophyllum rubricaule*

2025/187 New data on quarantine pests and pests of the EPPO Alert List

Chilocorus nigritus

2025/131 Commercially available biological control agents in Germany

China

2025/001 New data on quarantine pests and pests of the EPPO Alert List

2025/028 New data on quarantine pests and pests of the EPPO Alert List

2025/056 Recent updates in the EPPO Global Database

2025/106 Potato Virus H found on tomato in China

2025/113 New data on quarantine pests and pests of the EPPO Alert List

2025/139 New data on quarantine pests and pests of the EPPO Alert List

2025/164 New data on quarantine pests and pests of the EPPO Alert List

2025/206 New data on quarantine pests and pests of the EPPO Alert List

2025/229 New data on quarantine pests and pests of the EPPO Alert List

2025/252 New data on quarantine pests and pests of the EPPO Alert List

2025/276 Invasive plants as contaminants of bonsai plants from China

Chloridea virescens

2025/114 Recent updates in the EPPO Global Database

Chrysobothris mali2025/259 First report on *Chrysobothris mali* infesting pear fruits***Chrysoperla carnea***

2025/131 Commercially available biological control agents in Germany

Ciborinia camelliae

2025/029 Recent updates in the EPPO Global Database

citrus bark cracking viroid (*Cocadviroid rimocitri*)

2025/086 New data on quarantine pests and pests of the EPPO Alert List

citrus exocortis viroid (*Pospiviroid exocortiscitri*)

2025/159 Viruses, virus-like diseases and viroids of grapevine that should not be regulated

citrus leprosis virus C2 (*Cilevirus colombiense*)

2025/055 New data on quarantine pests and pests of the EPPO Alert List

citrus mosaic virus (*Badnavirus tessellocitri*)

2025/056 Recent updates in the EPPO Global Database

citrus tatter leaf virus (*Capillovirus mali*)

2025/115 Update on the status of some regulated pests in Chile

citrus tristeza virus (*Closterovirus tristeza*)

2025/056 Recent updates in the EPPO Global Database

citrus yellow mottle-associated virus (*Potexvirus citriflavimaculae*)

2025/105 *Potexvirus citriflavimaculae*, a new Mandarivirus associated with vein yellowing and mottling of citrus

Clavibacter nebraskensis

2025/029 Recent updates in the EPPO Global Database

2025/046 First report of *Clavibacter nebraskensis* in South Africa

2025/047 *Clavibacter nebraskensis* causing Goss's wilt of maize: addition to the EPPO Alert List

2025/129 *Clavibacter nebraskensis* does not occur in Mexico

Claytonia perfoliata

2025/140 Recent updates in the EPPO Global Database

2025/185 Prioritization of alien plant taxa for EPPO Pest Risk Analysis

Clematis vitalba

2025/020 Prioritizing invasive plants for biological control in western USA

Climate change

2025/138 The potential spread of *Reynoutria japonica* in Europe under future climate conditions

2025/186 Global changes in the distribution of *Bidens pilosa* as an effect of climate change

2025/224 Climate suitability of biological control agents and their hosts

Cnestus mutilatus

2025/175 First report of the *Cnestus mutilatus* in Slovenia and update on *Anisandrus maiche* and *Xylosandrus compactus*

2025/176 First report of *Cnestus mutilatus* in Croatia

2025/212 First report of *Cnestus mutilatus* in Austria

Coccidoxenoides perminutus

2025/131 Commercially available biological control agents in Germany

Coccinella septempunctata

2025/131 Commercially available biological control agents in Germany

Coccophagus scutellaris

2025/131 Commercially available biological control agents in Germany

Colletotrichum acutatum

2025/255 Update on the situation of quarantine pests in the Russian Federation

Colletotrichum acutatum sensu lato

2025/001 New data on quarantine pests and pests of the EPPO Alert List

Colletotrichum acutatum sensu stricto

2025/001 New data on quarantine pests and pests of the EPPO Alert List

Colocasia bobone disease virus (*Betacytorhabdovirus colocasiae*)

2025/270 Recent changes in virus taxonomy

Colombia

2025/066 First report of *Xylella fastidiosa* in Colombia

2025/229 New data on quarantine pests and pests of the EPPO Alert List

Comstockaspis perniciosus

2025/255 Update on the situation of quarantine pests in the Russian Federation

Conference

2025/087 EPPO Workshop for Inspectors: Innovative Strategies for Phytosanitary Inspections (Den Haag, NL, 2025-11-18/20)

2025/183 XVII International Symposium on Biological Control of Weeds (Rotorua, NZ, 2026-03-8/13)

Containment

2025/036 Update on the situation of *Aleurocanthus spiniferus* in Croatia

2025/043 Update on the situation of *Ceratocystis platani* in France

2025/055 New data on quarantine pests and pests of the EPPO Alert List

2025/077 Update on the situation of *Bursaphelenchus xylophilus* in Spain
2025/254 New EU regulations

Control

2025/085 Efficacy of herbicides for the control of *Ambrosia grayi*

Corythucha arcuata

2025/255 Update on the situation of quarantine pests in the Russian Federation
2025/113 New data on quarantine pests and pests of the EPPO Alert List

Corythucha ciliata

2025/255 Update on the situation of quarantine pests in the Russian Federation

Corythucha ciliata

2025/113 New data on quarantine pests and pests of the EPPO Alert List

Costa Rica

2025/229 New data on quarantine pests and pests of the EPPO Alert List

cotton leaf curl Gezira virus (*Begomovirus gossypigeziraense*)

2025/028 New data on quarantine pests and pests of the EPPO Alert List

cowpea mild mottle virus (*Carlavirus vignae*)

2025/252 New data on quarantine pests and pests of the EPPO Alert List

Crassula helmsii

2025/226 Update of the list of invasive alien species of Union concern (European Union)

Croatia

2025/028 New data on quarantine pests and pests of the EPPO Alert List
2025/102 Incursion of *Phytophthora lateralis* in Croatia
2025/157 Recent studies and reviews involving bacteria associated with acute oak decline
2025/176 First report of *Cnestus mutilatus* in Croatia
2025/252 New data on quarantine pests and pests of the EPPO Alert List
2025/262 Update on the situation of *Anoplophora chinensis* in Croatia
2025/036 Update on the situation of *Aleurocanthus spiniferus* in Croatia
2025/101 First report of *Cryphonectria carpinicola* in Croatia

Cronartium himalayense

2025/029 Recent updates in the EPPO Global Database

Cryphonectria carpinicola

2025/040 First report of *Cryphonectria carpinicola* in the United Kingdom
2025/070 First report of *Cryphonectria carpinicola* in France
2025/101 First report of *Cryphonectria carpinicola* in Croatia

Cryptanusia aureiscutellum

2025/131 Commercially available biological control agents in Germany

Cryptolaemus montrouzieri

2025/131 Commercially available biological control agents in Germany

Cryptostroma corticale

2025/149 First report of *Cryptostroma corticale* in Ireland

Cucumber green mottle mosaic virus (*Tobamovirus viridimaculae*)

2025/097 First report of tomato brown rugose fruit virus and pepino mosaic virus in Iraq

cucurbit yellow stunting disorder virus (*Crinivirus cucurbitae*)

2025/206 New data on quarantine pests and pests of the EPPO Alert List

Curtobacterium aurantiacum

2025/045 Revision on the taxonomy on *Curtobacterium flaccumfaciens*

Curtobacterium flaccumfaciens

2025/045 Revision on the taxonomy on *Curtobacterium flaccumfaciens*

Curtobacterium flaccumfaciens* pv. *flaccumfaciens

2025/125 First report of *Curtobacterium flaccumfaciens* pv. *flaccumfaciens* in Hungary
 2025/221 New EU Regulation for *Curtobacterium flaccumfaciens* pv. *flaccumfacien*
 2025/044 Update of the situation of *Curtobacterium flaccumfaciens* pv. *flaccumfaciens* in Belgium
 2025/045 Revision on the taxonomy on *Curtobacterium flaccumfaciens*
 2025/164 New data on quarantine pests and pests of the EPPO Alert List

Curtobacterium poinsettiae

2025/045 Revision on the taxonomy on *Curtobacterium flaccumfaciens*

***Cuscuta* spp.**

2025/255 Update on the situation of quarantine pests in the Russian Federation

Cybocephalus nipponicus

2025/131 Commercially available biological control agents in Germany

Cydalima perspectalis

2025/001 New data on quarantine pests and pests of the EPPO Alert List
 2025/274 Accidental introduction of a biological control agent of *Cydalima perspectalis* in the EPPO region

Cylindrocopturus furnissi

2025/038 *Cylindrocopturus furnissi*: an emerging pest of Douglas fir in the USA

Cymbidium mosaic virus (Potexvirus cymbidii)

2025/097 First report of tomato brown rugose fruit virus and pepino mosaic virus in Iraq

Cyperus alternifolius* subsp. *flabelliformis

2025/026 Prioritizing management of invasive alien plant species

Cyperus eragrostis

2025/026 Prioritizing management of invasive alien plant species

Cyprus

2025/032 Update on the situation of *Dacus ciliatus* in Cyprus
 2025/055 New data on quarantine pests and pests of the EPPO Alert List
 2025/210 Update on the situation of *Diaphorina citri* in Cyprus

Czech Republic

2025/074 First report of '*Candidatus Arsenophonus phytopathogenicus*' in Central Europe

Czechia

2025/256 First report of a *Pochazia* species in Czechia
 2025/257 First report of a *Pochazia* species in Czechia
 2025/122 Update on the situation of the Asian hornet *Vespa velutina* in Europe

Dacnusa sibirica

2025/131 Commercially available biological control agents in Germany

Dactyloctenium aegyptium

2025/026 Prioritizing management of invasive alien plant species
 2025/140 Recent updates in the EPPO Global Database
 2025/185 Prioritization of alien plant taxa for EPPO Pest Risk Analysis

Dactylonectria novozelandica

2025/028 New data on quarantine pests and pests of the EPPO Alert List

Dacus ciliatus

2025/032 Update on the situation of *Dacus ciliatus* in Cyprus
 2025/142 First report of *Dacus ciliatus* in Tunisia
 2025/055 New data on quarantine pests and pests of the EPPO Alert List

Dacus ciliatus

2025/209 First report of *Dacus ciliatus* in Syria

Dacus frontalis

2025/060 Update on the distribution of *Dacus frontalis*, and first report from Islas Canarias (ES)

2025/061 Incursion of *Dacus frontalis* in Belgium

2025/056 Recent updates in the EPPO Global Database

Dacus frontalis

2025/142 First report of *Dacus ciliatus* in Tunisia

Daktulosphaira vitifoliae

2025/255 Update on the situation of quarantine pests in the Russian Federation

Daktulosphaira vitifoliae

2025/206 New data on quarantine pests and pests of the EPPO Alert List

Dalotia coriaria

2025/131 Commercially available biological control agents in Germany

Daphne laureola

2025/020 Prioritizing invasive plants for biological control in in western USA

Database

2025/029 Recent updates in the EPPO Global Database

2025/056 Recent updates in the EPPO Global Database

2025/114 Recent updates in the EPPO Global Database

2025/130 Phantom disease agents of fruit crops and rose

2025/140 Recent updates in the EPPO Global Database

2025/253 Recent updates in the EPPO Global Database

Datasheet

2025/029 Recent updates in the EPPO Global Database

2025/188 Recent updates in the EPPO Global Database

Datura ferox

2025/249 Alien plant species in Algeria including new country records

Datura innoxia

2025/249 Alien plant species in Algeria including new country records

Datura stramonium

2025/249 Alien plant species in Algeria including new country records

Davidsoniella virescens

2025/218 First report of *Davidsoniella virescens* in Poland

Delairea odorata

2025/226 Update of the list of invasive alien species of Union concern (European Union)

Delphastus catalinae

2025/131 Commercially available biological control agents in Germany

Delphastus pusillus

2025/131 Commercially available biological control agents in Germany

Dendroctonus ponderosae

2025/165 Recent updates in the EPPO Global Database

Dendrolimus sibiricus

2025/255 Update on the situation of quarantine pests in the Russian Federation

Denied record

- 2025/039 *Ips hauseri* does not occur in Russia
 2025/086 New data on quarantine pests and pests of the EPPO Alert List
 2025/124 *Trogoderma granarium* does not occur in the Republic of Korea
 2025/129 *Clavibacter nebraskensis* does not occur in Mexico
 2025/243 *Amasa parviseta*, *Euwallacea similis* and *Xyleborus bispinatus* are not established in Spain

Denmark

- 2025/162 Biogeographical studies of *Myriophyllum rubricaulis*

Detailed record

- 2025/001 New data on quarantine pests and pests of the EPPO Alert List
 2025/004 First finding of *Scirtothrips aurantii* and new finding of *Scirtothrips dorsalis* in the Netherlands
 2025/007 Update on the situation of *Pochazia shantungensis* in France
 2025/010 Update on the situation of *Euwallacea fornicatus sensu lato* in Spain
 2025/011 Update on the situation of *Anoplophora glabripennis* in Switzerland
 2025/016 Update on the situation of tomato brown rugose fruit virus in the Netherlands
 2025/018 Update of the situation of *Ralstonia solanacearum* in the EPPO region
 2025/028 New data on quarantine pests and pests of the EPPO Alert List
 2025/032 Update on the situation of *Dacus ciliatus* in Cyprus
 2025/033 Update on the situation of *Draeculacephala robinsoni* in France
 2025/034 Update on the situation of *Euwallacea fornicatus sensu lato* in Germany
 2025/035 Establishment of *Paysandisia archon* in Switzerland
 2025/036 Update on the situation of *Aleurocanthus spiniferus* in Croatia
 2025/042 *Ralstonia solanacearum* detected in surface water in France
 2025/043 Update on the situation of *Ceratocystis platani* in France
 2025/044 Update of the situation of *Curtobacterium flaccumfaciens* pv. *flaccumfaciens* in Belgium
 2025/053 The spread and impact of *Pinus contorta* in Iceland
 2025/054 *Arctotheca calendula* in North Africa
 2025/055 New data on quarantine pests and pests of the EPPO Alert List
 2025/057 Update on citrus quarantine pests in the USA
 2025/064 Update on the situation of *Aromia bungii* in Germany
 2025/065 Update on the situation of *Saperda candida* in Germany
 2025/071 Update on the situation of *Phyllosticta citricarpa* in Tunisia
 2025/072 First report of '*Candidatus* Arsenophonus phytopathogenicus' on onion in Germany
 2025/073 First report of '*Candidatus* Arsenophonus phytopathogenicus' on potato in Switzerland
 2025/074 First report of '*Candidatus* Arsenophonus phytopathogenicus' in Central Europe
 2025/077 Update on the situation of *Bursaphelenchus xylophilus* in Spain
 2025/082 Potential range expansion of *Senecio inaequidens* in Sardinia (IT)
 2025/085 Efficacy of herbicides for the control of *Ambrosia grayi*
 2025/086 New data on quarantine pests and pests of the EPPO Alert List
 2025/088 First report of *Grapholita inopinata* in the European part of the Russian Federation
 2025/090 Update on the situation of *Scirtothrips dorsalis* in Spain
 2025/091 Update of the situation of *Toumeyella parvicornis* in Italy
 2025/103 *Phytophthora cinnamomi* identified on avocado in Crete (GR)
 2025/111 *Trianthema portulacastrum* in the Hula Valley in Israel
 2025/112 The distribution of *Impatiens glandulifera* in the Southern Urals (Russian Federation)
 2025/113 New data on quarantine pests and pests of the EPPO Alert List
 2025/115 Update on the status of some regulated pests in Chile
 2025/128 Update on the situation of *Pityophthorus juglandis* and *Geosmithia morbida* in France
 2025/134 *Ageratina altissima* in Austria
 2025/139 New data on quarantine pests and pests of the EPPO Alert List
 2025/142 First report of *Dacus ciliatus* in Tunisia
 2025/145 First report of *Zaprionus tuberculatus* in Algeria
 2025/151 Update on the situation of *Pantoea stewartii* subsp. *stewartii* in Italy
 2025/152 Update on the situation of *Elsinoë fawcettii* in the Azores (Portugal)
 2025/153 Update on the situation of *Xylella fastidiosa* in Peru
 2025/157 Recent studies and reviews involving bacteria associated with acute oak decline
 2025/161 Alien plant species on the island of Menorca (Islas Baleares, Spain)
 2025/162 Biogeographical studies of *Myriophyllum rubricaulis*
 2025/164 New data on quarantine pests and pests of the EPPO Alert List
 2025/169 Update on the situation of *Popillia japonica* in Slovenia
 2025/170 Update on the situation of *Popillia japonica* in Switzerland
 2025/171 Update on the situation of *Aromia bungii* in Italy
 2025/172 Update on the situation of *Unaspis citri* in the Azores

- 2025/175 First report of the *Cnestus mutilatus* in Slovenia and update on *Anisandrus maiche* and *Xylosandrus compactus*
- 2025/178 Correction concerning the situation of *Ceratocystis platani* in France
- 2025/179 *Ralstonia solanacearum* identified on *Rosa* sp. in the Netherlands
- 2025/180 New reports of plum viruses and viroids in India
- 2025/187 New data on quarantine pests and pests of the EPPO Alert List
- 2025/194 Update on the situation of *Euwallacea fornicatus sensu lato* in Germany
- 2025/195 Update on the situation of *Scirtothrips aurantii* and *Scirtothrips dorsalis* in the Netherlands
- 2025/200 Tomato brown rugose fruit virus is officially confirmed in Egypt
- 2025/206 New data on quarantine pests and pests of the EPPO Alert List
- 2025/207 Situation of several regulated pests in Serbia
- 2025/210 Update on the situation of *Diaphorina citri* in Cyprus
- 2025/211 First report of *Euwallacea similis* in Spain and new findings of alien *Scolytinae*
- 2025/219 Update on the situation of *Phytophthora pluvialis* in Belgium
- 2025/220 Update on the situation of tomato brown rugose fruit virus in the United Kingdom
- 2025/229 New data on quarantine pests and pests of the EPPO Alert List
- 2025/232 Update of the situation of regulated pests in Brazil
- 2025/237 Update of the situation of *Scirtothrips citri* in Israel
- 2025/239 New records of *Pochazia shantungensis* in France
- 2025/243 *Amasa parviseta*, *Euwallacea similis* and *Xyleborus bispinatus* are not established in Spain
- 2025/248 Distributions of four alien plants in Morocco including a new country record
- 2025/252 New data on quarantine pests and pests of the EPPO Alert List
- 2025/255 Update on the situation of quarantine pests in the Russian Federation
- 2025/259 First report on *Chrysobothris mali* infesting pear fruits
- 2025/260 Update on the situation of *Scirtothrips aurantii* in Spain
- 2025/261 Update on the situation of *Agrilus planipennis* in Belarus
- 2025/262 Update on the situation of *Anoplophora chinensis* in Croatia
- 2025/264 New report of *Meloidogyne enterolobii* in the Netherlands
- 2025/265 New outbreak of *Meloidogyne chitwoodi* in Spain
- 2025/267 New reports of plant diseases in Canada
- 2025/269 *Phytophthora abietivora*: an emerging pest of fir trees in North America
- 2025/272 First report ‘*Candidatus* Phytoplasma fragariae’ and ‘*Candidatus* Phytoplasma asteris’ in potato in the Netherlands

Diabrotica virgifera virgifera

- 2025/255 Update on the situation of quarantine pests in the Russian Federation

Diagnostics

- 2025/100 Evidence of seed-transmission of watermelon crinkle leaf-associated virus 1 (WCLaV-1) and WCLaV-2

Diaphorina citri

- 2025/057 Update on citrus quarantine pests in the USA
- 2025/206 New data on quarantine pests and pests of the EPPO Alert List
- 2025/210 Update on the situation of *Diaphorina citri* in Cyprus
- 2025/222 The potential for pre-emptive biological control of *Diaphorina citri* (EPPO A1 List) using *Tamarixia radiata*
- 2025/254 New EU regulations

Diaporthe helianthi

- 2025/255 Update on the situation of quarantine pests in the Russian Federation

Diaspis boisduvalii

- 2025/115 Update on the status of some regulated pests in Chile

Dickeya dianthicola

- 2025/187 New data on quarantine pests and pests of the EPPO Alert List
- 2025/207 Situation of several regulated pests in Serbia

***Digitaria* spp.**

- 2025/161 Alien plant species on the island of Menorca (Islas Baleares, Spain)

Diglyphus isaea

- 2025/131 Commercially available biological control agents in Germany

Distribution

2025/029 Recent updates in the EPPO Global Database
 2025/056 Recent updates in the EPPO Global Database
 2025/140 Recent updates in the EPPO Global Database
 2025/165 Recent updates in the EPPO Global Database
 2025/231 Recent updates in the EPPO Global Database
 2025/253 Recent updates in the EPPO Global Database

Dominican Republic

2025/229 New data on quarantine pests and pests of the EPPO Alert List

Draeculacephala robinsoni

2025/033 Update on the situation of *Draeculacephala robinsoni* in France

Drosophila suzukii

2025/132 Interactions between parasitoids of *Drosophila suzukii*
 2025/255 Update on the situation of quarantine pests in the Russian Federation
 2025/019 Olfactory cues for host selection in *Ganaspis brasiliensis* G1
 2025/187 New data on quarantine pests and pests of the EPPO Alert List

Dryocosmus kuriphilus

2025/255 Update on the situation of quarantine pests in the Russian Federation

Dysphania atriplicifolia

2025/249 Alien plant species in Algeria including new country records

Echinothrips americanus

2025/255 Update on the situation of quarantine pests in the Russian Federation
 2025/191 First report of *Selenothrips rubrocinctus* in Madeira (PT)

Ecuador

2025/164 New data on quarantine pests and pests of the EPPO Alert List
 2025/268 First suspected outbreak of *Fusarium oxysporum* f. sp. *cubense* Tropical race 4 in Ecuador

Egeria densa

2025/251 Global occurrences of alien aquatic plant species

Egypt

2025/063 Interceptions of *Scirtothrips aurantii* and *S. dorsalis* from African countries
 2025/139 New data on quarantine pests and pests of the EPPO Alert List
 2025/200 Tomato brown rugose fruit virus is officially confirmed in Egypt

Elasmopalpus lignosellus

2025/115 Update on the status of some regulated pests in Chile

Eleocharis bonariensis

2025/140 Recent updates in the EPPO Global Database
 2025/185 Prioritization of alien plant taxa for EPPO Pest Risk Analysis

Eleocharis caduca

2025/205 First report of *Eleocharis caduca* in Montenegro

Eleusine indica

2025/249 Alien plant species in Algeria including new country records

Elodea canadensis

2025/251 Global occurrences of alien aquatic plant species

Elodea nuttallii

2025/251 Global occurrences of alien aquatic plant species

Elsinoë fawcettii

2025/152 Update on the situation of *Elsinoë fawcettii* in the Azores (Portugal)

Empoasca fabalis

2025/037 First report of *Empoasca fabalis* in mainland Europe

Encarsia citrina

2025/131 Commercially available biological control agents in Germany

Encarsia formosa

2025/131 Commercially available biological control agents in Germany

Encarsia smithi

2025/223 First report of the biological control agent *Encarsia smithi* in Italy

Ephedrus cerasicola

2025/131 Commercially available biological control agents in Germany

Epilachna vigintioctomaculata

2025/255 Update on the situation of quarantine pests in the Russian Federation

Episyrphus balteatus

2025/131 Commercially available biological control agents in Germany

Epitrix brevis

2025/031 First report of *Epitrix brevis* in Italy and in the EPPO region

EPPO

2025/087 EPPO Workshop for Inspectors: Innovative Strategies for Phytosanitary Inspections (Den Haag, NL, 2025-11-18/20)

EPPO Lists

2025/182 New biological control agents added to PM 6/3(5) in 2025

2025/230 New additions to the EPPO A1 and A2 Lists

2025/280 *Acacia mearnsii* and *Broussonetia papyrifera* added to the EPPO List of Invasive Alien Plants

Eradication

2025/028 New data on quarantine pests and pests of the EPPO Alert List

2025/044 Update of the situation of *Curtobacterium flaccumfaciens* pv. *flaccumfaciens* in Belgium

2025/086 New data on quarantine pests and pests of the EPPO Alert List

2025/107 *Phytophthora ramorum* is no longer present in Portugal

2025/147 Eradication of *Thaumetopoea processionea* in Ireland

2025/187 New data on quarantine pests and pests of the EPPO Alert List

2025/194 Update on the situation of *Euwallacea fornicatus sensu lato* in Germany

2025/195 Update on the situation of *Scirtothrips aurantii* and *Scirtothrips dorsalis* in the Netherlands

2025/220 Update on the situation of tomato brown rugose fruit virus in the United Kingdom

2025/242 Eradication of *Aleurocanthus spiniferus* in Austria

2025/246 Eradication of ‘*Candidatus* Phytoplasma phoenicium’ and ‘*Candidatus* Phytoplasma aurantifolia’ in Jordan

2025/252 New data on quarantine pests and pests of the EPPO Alert List

Erasmoneura vulnerata

2025/001 New data on quarantine pests and pests of the EPPO Alert List

Eretmocerus eremicus

2025/131 Commercially available biological control agents in Germany

Eretmocerus iulii

2025/223 First report of the biological control agent *Encarsia smithi* in Italy

Eretmocerus mundus

2025/131 Commercially available biological control agents in Germany

Eriborus

2025/274 Accidental introduction of a biological control agent of *Cydalima perspectalis* in the EPPO region

Erigeron bonariensis

2025/161 Alien plant species on the island of Menorca (Islas Baleares, Spain)

Erigeron canadensis

2025/249 Alien plant species in Algeria including new country records

Erigeron sumatrensis

2025/161 Alien plant species on the island of Menorca (Islas Baleares, Spain)

Erwinia amylovora

2025/255 Update on the situation of quarantine pests in the Russian Federation

2025/001 New data on quarantine pests and pests of the EPPO Alert List

Erwinia pyrifoliae

2025/001 New data on quarantine pests and pests of the EPPO Alert List

2025/267 New reports of plant diseases in Canada

Estonia

2025/271 Detection of pepino mosaic virus on imported tomato fruits in Estonia and Sweden

Ethiopia

2025/148 First report of *Meloidogyne luci* in Ethiopia

2025/240 First reports of *Oligonychus perseae* in western Africa

2025/001 New data on quarantine pests and pests of the EPPO Alert List

EU

2025/015 Tomato brown rugose fruit virus is now a Regulated Non-Quarantine Pest for the EU

2025/055 New data on quarantine pests and pests of the EPPO Alert List

2025/141 New EU Regulations

2025/221 New EU Regulation for *Curtobacterium flaccumfaciens* pv. *flaccumfacien*

2025/226 Update of the list of invasive alien species of Union concern (European Union)

2025/254 New EU regulations

Eupeodes corollae

2025/131 Commercially available biological control agents in Germany

Euphorbia davidii

2025/230 New additions to the EPPO A1 and A2 Lists

Euphorbia heterophylla

2025/248 Distributions of four alien plants in Morocco including a new country record

Euphorbia hypericifolia

2025/249 Alien plant species in Algeria including new country records

Euphorbia nutans

2025/248 Distributions of four alien plants in Morocco including a new country record

Eutetranychus africanus

2025/164 New data on quarantine pests and pests of the EPPO Alert List

2025/252 New data on quarantine pests and pests of the EPPO Alert List

Eutetranychus banksi

2025/115 Update on the status of some regulated pests in Chile

2025/229 New data on quarantine pests and pests of the EPPO Alert List

Eutetranychus orientalis

2025/003 First report of *Eutetranychus orientalis* in Italy

Eutypa lata

2025/115 Update on the status of some regulated pests in Chile

Euwallacea fornicatus

2025/010 Update on the situation of *Euwallacea fornicatus sensu lato* in Spain

2025/034 Update on the situation of *Euwallacea fornicatus sensu lato* in Germany

2025/118 First report of *Euwallacea fornicatus* in Uruguay

2025/211 First report of *Euwallacea similis* in Spain and new findings of alien *Scolytinae*

2025/256 First report of *Euwallacea fornicatus* in Türkiye

Euwallacea fornicatus sensu lato

2025/010 Update on the situation of *Euwallacea fornicatus sensu lato* in Spain
 2025/028 New data on quarantine pests and pests of the EPPO Alert List
 2025/034 Update on the situation of *Euwallacea fornicatus sensu lato* in Germany
 2025/118 First report of *Euwallacea fornicatus* in Uruguay
 2025/194 Update on the situation of *Euwallacea fornicatus sensu lato* in Germany
 2025/211 First report of *Euwallacea similis* in Spain and new findings of alien *Scolytinae*
 2025/256 First report of *Euwallacea fornicatus* in Türkiye

Euwallacea perbrevis

2025/028 New data on quarantine pests and pests of the EPPO Alert List

Euwallacea similis

2025/058 First report on *Euwallacea similis* in the EPPO region
 2025/086 New data on quarantine pests and pests of the EPPO Alert List
 2025/211 First report of *Euwallacea similis* in Spain and new findings of alien *Scolytinae*
 2025/243 *Amasa parviseta*, *Euwallacea similis* and *Xyleborus bispinatus* are not established in Spain

Euzophera semifuneralis

2025/008 *Euzophera semifuneralis* (Lepidoptera: Pyralidae): addition to the EPPO Alert List

Exochomus quadripustulatus

2025/131 Commercially available biological control agents in Germany

Feltiella acarisuga

2025/131 Commercially available biological control agents in Germany

Fiji

2025/139 New data on quarantine pests and pests of the EPPO Alert List
 2025/206 New data on quarantine pests and pests of the EPPO Alert List
 2025/252 New data on quarantine pests and pests of the EPPO Alert List

Finland

2025/113 New data on quarantine pests and pests of the EPPO Alert List

Floracarus perrepae

2025/133 Post-release monitoring of two biological control agents in North America

Foveavirus mali

2025/130 Phantom disease agents of fruit crops and rose

France

2025/005 First report of *Jacobiasca lybica* in France
 2025/007 Update on the situation of *Pochazia shantungensis* in France
 2025/028 New data on quarantine pests and pests of the EPPO Alert List
 2025/033 Update on the situation of *Draeculacephala robinsoni* in France
 2025/042 *Ralstonia solanacearum* detected in surface water in France
 2025/043 Update on the situation of *Ceratocystis platani* in France
 2025/055 New data on quarantine pests and pests of the EPPO Alert List
 2025/070 First report of *Cryphonectria carpnicola* in France
 2025/095 First reports of tomato fruit blotch virus in France and in Belgium
 2025/128 Update on the situation of *Pityophthorus juglandis* and *Geosmithia morbida* in France
 2025/154 First report of blueberry leaf mottle virus in France
 2025/168 Incursion of *Popillia japonica* in France
 2025/178 Correction concerning the situation of *Ceratocystis platani* in France
 2025/239 New records of *Pochazia shantungensis* in France
 2025/254 New EU regulations
 2025/263 First report of *Bursaphelenchus xylophilus* in France
 2025/277 First report of *Smilax rotundifolia* in France

Frankliniella occidentalis

2025/255 Update on the situation of quarantine pests in the Russian Federation

Frankliniella schultzei

2025/191 First report of *Selenothrips rubrocinctus* in Madeira (PT)

Franklinothrips vespiformis

2025/131 Commercially available biological control agents in Germany

French Guiana

2025/048 Emergence of *Ceratobasidium theobromae* as a pest of cassava, and first report in the Americas

Fusarium circinatum

2025/069 First report of *Fusarium circinatum* in Pakistan

Fusarium euwallaceae

2025/034 Update on the situation of *Euwallacea fornicatus sensu lato* in Germany

Fusarium nirenbergiae

2025/139 New data on quarantine pests and pests of the EPPO Alert List

Fusarium obliquiseptatum

2025/028 New data on quarantine pests and pests of the EPPO Alert List

Fusarium oxysporum f. sp. cubense Tropical race 4

2025/268 First suspected outbreak of *Fusarium oxysporum* f. sp. *cubense* Tropical race 4 in Ecuador

Gabon

2025/164 New data on quarantine pests and pests of the EPPO Alert List

Galinsoga parviflora

2025/249 Alien plant species in Algeria including new country records

Ganaspis brasiliensis G1

2025/019 Olfactory cues for host selection in *Ganaspis brasiliensis* G1

Ganaspis kimorum

2025/132 Interactions between parasitoids of *Drosophila suzukii*

Gazania × splendens

2025/249 Alien plant species in Algeria including new country records

Georgia

2025/002 First report of *Aleurocanthus woglumi* and *Aleurocanthus spiniferus* in Georgia

Geosmithia morbida

2025/128 Update on the situation of *Pityophthorus juglandis* and *Geosmithia morbida* in France

Germany

2025/006 First report of *Pochazia shantungensis* in Hungary
 2025/028 New data on quarantine pests and pests of the EPPO Alert List
 2025/034 Update on the situation of *Euwallacea fornicatus sensu lato* in Germany
 2025/064 Update on the situation of *Aromia bungii* in Germany
 2025/065 Update on the situation of *Saperda candida* in Germany
 2025/072 First report of 'Candidatus Arsenophonus phytopathogenicus' on onion in Germany
 2025/131 Commercially available biological control agents in Germany
 2025/139 New data on quarantine pests and pests of the EPPO Alert List
 2025/158 *Neopestalotiopsis rosae* is causing strawberry and blueberry diseases in the EPPO region
 2025/192 Update on the situation of *Popillia japonica* in Germany
 2025/194 Update on the situation of *Euwallacea fornicatus sensu lato* in Germany
 2025/196 One beetle of *Anoplophora chinensis* found in Nordrhein-Westfalen, Germany
 2025/274 Accidental introduction of a biological control agent of *Cydalima perspectalis* in the EPPO region

Ghana

2025/060 Update on the distribution of *Dacus frontalis*, and first report from Islas Canarias (ES)
 2025/063 Interceptions of *Scirtothrips aurantii* and *S. dorsalis* from African countries
 2025/055 New data on quarantine pests and pests of the EPPO Alert List

Gibbsiella quercinecans

- 2025/014 First report of *Brenneria goodwinii* and *Gibbsiella quercinecans* in Slovakia
 2025/086 New data on quarantine pests and pests of the EPPO Alert List
 2025/157 Recent studies and reviews involving bacteria associated with acute oak decline

Globodera pallida

- 2025/207 Situation of several regulated pests in Serbia

Globodera rostochiensis

- 2025/255 Update on the situation of quarantine pests in the Russian Federation
 2025/229 New data on quarantine pests and pests of the EPPO Alert List

Globodera vulgaris

- 2025/229 New data on quarantine pests and pests of the EPPO Alert List

Gnathotrichus sulcatus

- 2025/029 Recent updates in the EPPO Global Database

Gomphocarpus fruticosa

- 2025/026 Prioritizing management of invasive alien plant species

grapevine Ajinashika-associated virus

- 2025/159 Viruses, virus-like diseases and viroids of grapevine that should not be regulated

grapevine asteroid mosaic-associated virus (*Marafivirus asteroides*)

- 2025/159 Viruses, virus-like diseases and viroids of grapevine that should not be regulated

Grapevine bushy stunt agent

- 2025/130 Phantom disease agents of fruit crops and rose

Grapevine enation agent

- 2025/130 Phantom disease agents of fruit crops and rose

Grapevine flavescence dorée phytoplasma

- 2025/141 New EU Regulations

grapevine fleck virus (*Maculavirus vitis*)

- 2025/159 Viruses, virus-like diseases and viroids of grapevine that should not be regulated

Grapevine hammerhead viroid

- 2025/159 Viruses, virus-like diseases and viroids of grapevine that should not be regulated

Grapevine latent viroid

- 2025/159 Viruses, virus-like diseases and viroids of grapevine that should not be regulated

grapevine leafroll-associated virus 7 (*Velarivirus septemvitis*)

- 2025/159 Viruses, virus-like diseases and viroids of grapevine that should not be regulated

Grapevine little leaf agent

- 2025/130 Phantom disease agents of fruit crops and rose

grapevine Pinot gris virus (*Trichovirus pinovitis*)

- 2025/086 New data on quarantine pests and pests of the EPPO Alert List

grapevine red globe virus

- 2025/159 Viruses, virus-like diseases and viroids of grapevine that should not be regulated

grapevine rupestris stem pitting-associated virus (*Foveavirus rupestris*)

- 2025/159 Viruses, virus-like diseases and viroids of grapevine that should not be regulated

Grapevine rupestris vein feathering virus

- 2025/159 Viruses, virus-like diseases and viroids of grapevine that should not be regulated

Grapevine summer mottle agent

2025/130 Phantom disease agents of fruit crops and rose

grapevine Syrah virus 1 (*Marafivirus syrahense*)

2025/159 Viruses, virus-like diseases and viroids of grapevine that should not be regulated

grapevine yellow speckle viroid 1 (*Apscaviroid alphaflavivitis*)

2025/139 New data on quarantine pests and pests of the EPPO Alert List

2025/159 Viruses, virus-like diseases and viroids of grapevine that should not be regulated

grapevine yellow speckle viroid 2 (*Apscaviroid betaflavivitis*)

2025/139 New data on quarantine pests and pests of the EPPO Alert List

2025/159 Viruses, virus-like diseases and viroids of grapevine that should not be regulated

Grapevine yellow speckle viroid 3

2025/159 Viruses, virus-like diseases and viroids of grapevine that should not be regulated

Grapevine-associated marafivirus

2025/159 Viruses, virus-like diseases and viroids of grapevine that should not be regulated

Grapholita inopinata

2025/088 First report of *Grapholita inopinata* in the European part of the Russian Federation

2025/113 New data on quarantine pests and pests of the EPPO Alert List

Grapholita molesta

2025/255 Update on the situation of quarantine pests in the Russian Federation

Greece

2025/051 *Ipomoea* species in Greece, Iran and Türkiye

2025/083 First report of *Asclepias speciosa* in Greece

2025/103 *Phytophthora cinnamomi* identified on avocado in Crete (GR)

2025/113 New data on quarantine pests and pests of the EPPO Alert List

2025/187 New data on quarantine pests and pests of the EPPO Alert List

2025/217 *Polydrusus tibialis*: a new pest of peach in Greece

2025/225 First report of *Cenchrus setaceus* in Crete (Greece)

2025/245 *Phytophthora mediterranea*: an emerging pest of woody trees

2025/254 New EU regulations

Greenidea ficicola

2025/187 New data on quarantine pests and pests of the EPPO Alert List

Greenidea psidii

2025/187 New data on quarantine pests and pests of the EPPO Alert List

Guizotia abyssinica

2025/249 Alien plant species in Algeria including new country records

Gymnosporangium juniperi-virginianae

2025/029 Recent updates in the EPPO Global Database

Gypsophila pilosa

2025/249 Alien plant species in Algeria including new country records

Halyomorpha halys

2025/255 Update on the situation of quarantine pests in the Russian Federation

2025/086 New data on quarantine pests and pests of the EPPO Alert List

Harringtonia lauricola

2025/229 New data on quarantine pests and pests of the EPPO Alert List

2025/188 Recent updates in the EPPO Global Database

Heterobasidion irregulare

2025/166 Changes made to the list of regulated pests of Great Britain

Heterodera glycines

2025/255 Update on the situation of quarantine pests in the Russian Federation

Heterorhabditis bacteriophora

2025/131 Commercially available biological control agents in Germany

Heterorhabditis downesi

2025/131 Commercially available biological control agents in Germany

High Plains wheat mosaic virus (Emaravirus tritici)

2025/115 Update on the status of some regulated pests in Chile

Hirschmanniella oryzae

2025/164 New data on quarantine pests and pests of the EPPO Alert List

Hishimonus hamatus

2025/001 New data on quarantine pests and pests of the EPPO Alert List

2025/215 First report of *Hishimonus sellatus* and *H. hamatus* in the Netherlands

Hishimonus sellatus

2025/215 First report of *Hishimonus sellatus* and *H. hamatus* in the Netherlands

Honduras

2025/187 New data on quarantine pests and pests of the EPPO Alert List

2025/234 First report of *Amrasca biguttula* in Central America (Honduras)

honeysuckle yellow vein virus (*Begomovirus macrotylomae*)

2025/244 First finding of honeysuckle yellow vein virus in the Netherlands

hop stunt viroid (*Hostuviroid impedihumuli*)

2025/139 New data on quarantine pests and pests of the EPPO Alert List

2025/159 Viruses, virus-like diseases and viroids of grapevine that should not be regulated

2025/180 New reports of plum viruses and viroids in India

Host plant

2025/001 New data on quarantine pests and pests of the EPPO Alert List

2025/038 *Cylindroopturus furnissi*: an emerging pest of Douglas fir in the USA

2025/041 First report of *Austropuccinia psidii* in the EPPO region

2025/048 Emergence of *Ceratobasidium theobromae* as a pest of cassava, and first report in the Americas

2025/055 New data on quarantine pests and pests of the EPPO Alert List

2025/056 Recent updates in the EPPO Global Database

2025/068 First report of *Ralstonia syzygii* subsp. *syzygii* in Brazil on eucalyptus

2025/069 First report of *Fusarium circinatum* in Pakistan

2025/072 First report of '*Candidatus Arsenophonus phytopathogenicus*' on onion in Germany

2025/086 New data on quarantine pests and pests of the EPPO Alert List

2025/104 First report of *Pantoea stewartii* subsp. *indologenes* causing maize leaf blight disease in Iran

2025/106 Potato Virus H found on tomato in China

2025/113 New data on quarantine pests and pests of the EPPO Alert List

2025/118 First report of *Euwallacea fornicatus* in Uruguay

2025/139 New data on quarantine pests and pests of the EPPO Alert List

2025/142 First report of *Dacus ciliatus* in Tunisia

2025/148 First report of *Meloidogyne luci* in Ethiopia

2025/157 Recent studies and reviews involving bacteria associated with acute oak decline

2025/164 New data on quarantine pests and pests of the EPPO Alert List

2025/165 Recent updates in the EPPO Global Database

2025/176 First report of *Cnestus mutilatus* in Croatia

2025/179 *Ralstonia solanacearum* identified on *Rosa* sp. in the Netherlands

2025/181 Bidens mottle virus, an emerging pest of sunflower in South Africa

2025/187 New data on quarantine pests and pests of the EPPO Alert List

2025/206 New data on quarantine pests and pests of the EPPO Alert List

2025/218 First report of *Davidsoniella virescens* in Poland

2025/221 New EU Regulation for *Curtobacterium flaccumfaciens* pv. *flaccumfacien*

2025/229 New data on quarantine pests and pests of the EPPO Alert List

2025/238 First report of *Pochazia shantungensis* in Belgium

2025/245 *Phytophthora mediterranea*: an emerging pest of woody trees

- 2025/252 New data on quarantine pests and pests of the EPPO Alert List
 2025/256 First report of *Euwallacea fornicatus* in Türkiye
 2025/258 First report of *Spodoptera littoralis* in India
 2025/269 *Phytophthora abietivora*: an emerging pest of fir trees in North America
 2025/272 First report ‘*Candidatus* Phytoplasma fragariae’ and ‘*Candidatus* Phytoplasma asteris’ in potato in the Netherlands

Humulus scandens

- 2025/276 Invasive plants as contaminants of bonsai plants from China

Hungary

- 2025/074 First report of ‘*Candidatus* Arsenophonus phytopathogenicus’ in Central Europe
 2025/144 First report of *Zaprionus indianus* in Hungary
 2025/162 Biogeographical studies of *Myriophyllum rubricaulis*
 2025/206 New data on quarantine pests and pests of the EPPO Alert List
 2025/001 New data on quarantine pests and pests of the EPPO Alert List
 2025/006 First report of *Pochazia shantungensis* in Hungary
 2025/122 Update on the situation of the Asian hornet *Vespa velutina* in Europe
 2025/125 First report of *Curtobacterium flaccumfaciens* pv. *flaccumfaciens* in Hungary

Hydrilla verticillata

- 2025/251 Global occurrences of alien aquatic plant species

Hyphantria cunea

- 2025/255 Update on the situation of quarantine pests in the Russian Federation
 2025/252 New data on quarantine pests and pests of the EPPO Alert List

Hypoaspis aculeifer

- 2025/131 Commercially available biological control agents in Germany

Iceland

- 2025/053 The spread and impact of *Pinus contorta* in Iceland

Ilyonectria charruensis

- 2025/028 New data on quarantine pests and pests of the EPPO Alert List

Impact

- 2025/109 The impact of *Amaranthus palmeri* on *Gossypium hirsutum*
 2025/227 Negative impacts of invasive *Acacia* species in fragmented forests
 2025/278 Negative impact of *Opuntia stricta* in Italy

Impatiens glandulifera

- 2025/112 The distribution of *Impatiens glandulifera* in the Southern Urals (Russian Federation)
 2025/279 Genetic studies on *Impatiens glandulifera* populations in Ukraine

Impatiens necrotic spot tospovirus (Orthotospovirus impatiensnecromaculae)

- 2025/255 Update on the situation of quarantine pests in the Russian Federation

Incursion

- 2025/030 First report of *Spodoptera frugiperda* in Bulgaria
 2025/041 First report of *Austropuccinia psidii* in the EPPO region
 2025/061 Incursion of *Dacus frontalis* in Belgium
 2025/062 Incursion of *Bactrocera zonata* and *Bactrocera correcta* in Italy
 2025/102 Incursion of *Phytophthora lateralis* in Croatia
 2025/143 First report of *Zeugodacus tau* in Italy
 2025/167 Incursion of *Popillia japonica* in Spain
 2025/168 Incursion of *Popillia japonica* in France
 2025/193 Incursion of *Popillia japonica* in Belgium
 2025/196 One beetle of *Anoplophora chinensis* found in Nordrhein-Westfalen, Germany
 2025/213 Incursion of *Popillia japonica* in Austria
 2025/216 *Aclees taiwanensis*: first record of in the Russian Federation and incursion in Poland
 2025/239 New records of *Pochazia shantungensis* in France
 2025/241 Incursion of *Bactrocera dorsalis* in Slovakia
 2025/271 Detection of pepino mosaic virus on imported tomato fruits in Estonia and Sweden

India

- 2025/028 New data on quarantine pests and pests of the EPPO Alert List
 2025/105 *Potexvirus citriflavimaculae*, a new Mandarivirus associated with vein yellowing and mottling of citrus
 2025/180 New reports of plum viruses and viroids in India
 2025/206 New data on quarantine pests and pests of the EPPO Alert List
 2025/229 New data on quarantine pests and pests of the EPPO Alert List
 2025/252 New data on quarantine pests and pests of the EPPO Alert List
 2025/258 First report of *Spodoptera littoralis* in India

Indonesia

- 2025/206 New data on quarantine pests and pests of the EPPO Alert List

Interception

- 2025/063 Interceptions of *Scirtothrips aurantii* and *S. dorsalis* from African countries

Invasive alien plant

- 2025/020 Prioritizing invasive plants for biological control in western USA
 2025/023 First report of *Acalypha australis* in Albania
 2025/024 First report of *Panicum miliaceum* (Poaceae) in Tunisia
 2025/025 First report of three *Solanum* species in Morocco
 2025/026 Prioritizing management of invasive alien plant species
 2025/027 New EPPO PM 3 Standard on invasive alien plants
 2025/049 *Phyllostachys aurea* in the EPPO region: addition to the EPPO Alert List
 2025/050 First report of *Andropogon abyssinicus* in the Canary Islands (Spain)
 2025/051 *Ipomoea* species in Greece, Iran and Türkiye
 2025/052 Seed production in European populations of *Ludwigia grandiflora*
 2025/053 The spread and impact of *Pinus contorta* in Iceland
 2025/054 *Arctotheca calendula* in North Africa
 2025/078 Pre-emptive and proactive biological control for invasive alien plants
 2025/081 *Sasa palmata* in the EPPO region: addition to the EPPO Alert List
 2025/082 Potential range expansion of *Senecio inaequidens* in Sardinia (IT)
 2025/083 First report of *Asclepias speciosa* in Greece
 2025/084 Using satellite imagery to assess *Ailanthus altissima* in Sardinia (IT)
 2025/085 Efficacy of herbicides for the control of *Ambrosia grayi*
 2025/108 *Atriplex semilunaris* in the Canary Islands (ES)
 2025/109 The impact of *Amaranthus palmeri* on *Gossypium hirsutum*
 2025/110 First reports of alien plants in natural areas in Poland
 2025/111 *Trianthema portulacastrum* in the Hula Valley in Israel
 2025/112 The distribution of *Impatiens glandulifera* in the Southern Urals (Russian Federation)
 2025/133 Post-release monitoring of two biological control agents in North America
 2025/134 *Ageratina altissima* in Austria
 2025/135 First report of *Amelanchier × lamarckii* in Lithuania
 2025/136 Management of *Ailanthus altissima* in Israel
 2025/137 Management of *Acacia dealbata* in Portugal
 2025/138 The potential spread of *Reynoutria japonica* in Europe under future climate conditions
 2025/140 Recent updates in the EPPO Global Database
 2025/161 Alien plant species on the island of Menorca (Islas Baleares, Spain)
 2025/162 Biogeographical studies of *Myriophyllum rubricaulis*
 2025/163 Impacts of *Senecio inaequidens* at a local and global level
 2025/185 Prioritization of alien plant taxa for EPPO Pest Risk Analysis
 2025/186 Global changes in the distribution of *Bidens pilosa* as an effect of climate change
 2025/203 First report of *Amaranthus tuberculatus* in Portugal
 2025/204 First report of *Phacelia tanacetifolia* in Tunisia
 2025/205 First report of *Eleocharis caduca* in Montenegro
 2025/225 First report of *Cenchrus setaceus* in Crete (Greece)
 2025/226 Update of the list of invasive alien species of Union concern (European Union)
 2025/227 Negative impacts of invasive *Acacia* species in fragmented forests
 2025/228 Common plant species in their native range may have tendencies to naturalise in other regions
 2025/248 Distributions of four alien plants in Morocco including a new country record
 2025/249 Alien plant species in Algeria including new country records
 2025/250 Aquatic alien plants can promote proliferation of mosquitoes
 2025/251 Global occurrences of alien aquatic plant species
 2025/276 Invasive plants as contaminants of bonsai plants from China
 2025/277 First report of *Smilax rotundifolia* in France

- 2025/278 Negative impact of *Opuntia stricta* in Italy
 2025/279 Genetic studies on *Impatiens glandulifera* populations in Ukraine
 2025/280 *Acacia mearnsii* and *Broussonetia papyrifera* added to the EPPO List of Invasive Alien Plants

Iphiseius degenerans

- 2025/131 Commercially available biological control agents in Germany

Ipomoea

- 2025/051 *Ipomoea* species in Greece, Iran and Türkiye

Ips calligraphus

- 2025/229 New data on quarantine pests and pests of the EPPO Alert List

Ips hauseri

- 2025/039 *Ips hauseri* does not occur in Russia

Iran

- 2025/013 *Paecilomyces formosus*: a new pathogen of trees
 2025/028 New data on quarantine pests and pests of the EPPO Alert List
 2025/051 *Ipomoea* species in Greece, Iran and Türkiye
 2025/104 First report *Pantoea stewartii* subsp. *indologenes* causing maize leaf blight disease in Iran
 2025/150 First report of *Pantoea stewartii* subsp. *stewartii* in Iran
 2025/157 Recent studies and reviews involving bacteria associated with acute oak decline
 2025/252 New data on quarantine pests and pests of the EPPO Alert List

Iraq

- 2025/067 First report of *Xylella fastidiosa* in Iraq
 2025/097 First report of tomato brown rugose fruit virus and pepino mosaic virus in Iraq
 2025/229 New data on quarantine pests and pests of the EPPO Alert List

Ireland

- 2025/147 Eradication of *Thaumetopoea processionea* in Ireland
 2025/149 First report of *Cryptostroma corticale* in Ireland
 2025/122 Update on the situation of the Asian hornet *Vespa velutina* in Europe

Iris pseudacorus

- 2025/020 Prioritizing invasive plants for biological control in in western USA

iris yellow spot virus (*Orthotospovirus iridimaculaflavi*)

- 2025/229 New data on quarantine pests and pests of the EPPO Alert List

Irpex rosettiformis

- 2025/001 New data on quarantine pests and pests of the EPPO Alert List

Israel

- 2025/237 Update of the situation of *Scirtothrips citri* in Israel
 2025/012 *Mesoptylus impictifrons*, new vector of *Xylella fastidiosa* in the EPPO region
 2025/085 Efficacy of herbicides for the control of *Ambrosia grayi*
 2025/111 *Trianthema portulacastrum* in the Hula Valley in Israel
 2025/136 Management of *Ailanthus altissima* in Israel

Italy

- 2025/003 First report of *Eutetranychus orientalis* in Italy
 2025/006 First report of *Pochazia shantungensis* in Hungary
 2025/018 Update of the situation of *Ralstonia solanacearum* in the EPPO region
 2025/143 First report of *Zeugodacus tau* in Italy
 2025/151 Update on the situation of *Pantoea stewartii* subsp. *stewartii* in Italy
 2025/157 Recent studies and reviews involving bacteria associated with acute oak decline
 2025/158 *Neopestalotiopsis rosae* is causing strawberry and blueberry diseases in the EPPO region
 2025/163 Impacts of *Senecio inaequidens* at a local and global level
 2025/171 Update on the situation of *Aromia bungii* in Italy
 2025/206 New data on quarantine pests and pests of the EPPO Alert List
 2025/223 First report of the biological control agent *Encarsia smithi* in Italy
 2025/245 *Phytophthora mediterranea*: an emerging pest of woody trees
 2025/252 New data on quarantine pests and pests of the EPPO Alert List

- 2025/254 New EU regulations
 2025/275 Hyperparasitoids impact efficacy of biological control of *Metcalfa pruinosa* in Italy
 2025/278 Negative impact of *Opuntia stricta* in Italy
 2025/026 Prioritizing management of invasive alien plant species
 2025/031 First report of *Epitrix brevis* in Italy and in the EPPO region
 2025/055 New data on quarantine pests and pests of the EPPO Alert List
 2025/058 First report on *Euwallacea similis* in the EPPO region
 2025/062 Incursion of *Bactrocera zonata* and *Bactrocera correcta* in Italy
 2025/082 Potential range expansion of *Senecio inaequidens* in Sardinia (IT)
 2025/084 Using satellite imagery to assess *Ailanthus altissima* in Sardinia (IT)
 2025/086 New data on quarantine pests and pests of the EPPO Alert List
 2025/091 Update of the situation of *Toumeyella parvicornis* in Italy
 2025/098 First record of watermelon crinkle leaf-associated virus 2 in Italy

Jacobaea maritima

- 2025/161 Alien plant species on the island of Menorca (Islas Baleares, Spain)

Jacobiasca lybica

- 2025/005 First report of *Jacobiasca lybica* in France

Japan

- 2025/028 New data on quarantine pests and pests of the EPPO Alert List
 2025/055 New data on quarantine pests and pests of the EPPO Alert List
 2025/086 New data on quarantine pests and pests of the EPPO Alert List
 2025/187 New data on quarantine pests and pests of the EPPO Alert List
 2025/229 New data on quarantine pests and pests of the EPPO Alert List
 2025/252 New data on quarantine pests and pests of the EPPO Alert List

Japanese grapevine viroid

- 2025/159 Viruses, virus-like diseases and viroids of grapevine that should not be regulated

Jersey

- 2025/017 First report of tomato brown rugose fruit virus in Jersey
 2025/266 First report of *Phytophthora ramorum* in Jersey

Jordan

- 2025/246 Eradication of ‘*Candidatus* Phytoplasma phoenicium’ and ‘*Candidatus* Phytoplasma aurantifolia’ in Jordan
 2025/055 New data on quarantine pests and pests of the EPPO Alert List

Kalanchoe daigremontiana

- 2025/249 Alien plant species in Algeria including new country records

Karnyothrips melaleucus

- 2025/131 Commercially available biological control agents in Germany

Kazakhstan

- 2025/139 New data on quarantine pests and pests of the EPPO Alert List
 2025/190 *Proagopertha lucidula*, an invasive pest spreading westward in the EPPO region

Kenya

- 2025/164 New data on quarantine pests and pests of the EPPO Alert List
 2025/187 New data on quarantine pests and pests of the EPPO Alert List
 2025/240 First reports of *Oligonychus perseae* in western Africa

Koenigia polystachya

- 2025/020 Prioritizing invasive plants for biological control in in western USA

Korea Republic

- 2025/124 *Trogoderma granarium* does not occur in the Republic of Korea
 2025/252 New data on quarantine pests and pests of the EPPO Alert List

Kyrgyzstan

- 2025/001 New data on quarantine pests and pests of the EPPO Alert List

Lagria villosa

2025/189 *Lagria villosa* (Coleoptera: Tenebrionidae): addition to the Alert List

Lantana × strigocamara

2025/161 Alien plant species on the island of Menorca (Islas Baleares, Spain)

Laos

2025/048 Emergence of *Ceratobasidium theobromae* as a pest of cassava, and first report in the Americas

Lecanosticta acicola

2025/055 New data on quarantine pests and pests of the EPPO Alert List

Lemna minuta

2025/251 Global occurrences of alien aquatic plant species

Lepidium didymum

2025/249 Alien plant species in Algeria including new country records

Lepidium sativum

2025/249 Alien plant species in Algeria including new country records

Leptodelphax maculigera

2025/059 First report of the African leafhopper *Leptodelphax maculigera* in South America, and its potential role as vector of corn stunt pathogens in Brazil

2025/236 First reports of *Leptodelphax maculigera* in Argentina and Paraguay

Leptoglossus occidentalis

2025/255 Update on the situation of quarantine pests in the Russian Federation

2025/001 New data on quarantine pests and pests of the EPPO Alert List

Leptographium manifestum

2025/229 New data on quarantine pests and pests of the EPPO Alert List

Leptomastidea abnormis

2025/131 Commercially available biological control agents in Germany

Leptomastix dactylopii

2025/131 Commercially available biological control agents in Germany

Leptomastix epona

2025/131 Commercially available biological control agents in Germany

lettuce chlorosis virus (Crinivirus lactucachlorosi)

2025/139 New data on quarantine pests and pests of the EPPO Alert List

lettuce infectious yellows virus (Crinivirus lactucaflavi)

2025/199 New report of lettuce infectious yellows virus in Spain

lettuce necrotic yellows virus (Alphacytorhabdovirus lactucanecante)

2025/270 Recent changes in virus taxonomy

Leucaena leucocephala subsp. glabrata

2025/026 Prioritizing management of invasive alien plant species

2025/140 Recent updates in the EPPO Global Database

Leucaena leucocephala subsp. glabrata

2025/185 Prioritization of alien plant taxa for EPPO Pest Risk Analysis

Leucinodes orbonalis

2025/029 Recent updates in the EPPO Global Database

Leucinodes pseudorbonalis

2025/141 New EU Regulations

Linum usitatissimum

2025/249 Alien plant species in Algeria including new country records

Liriomyza huidobrensis

2025/207 Situation of several regulated pests in Serbia

Liriomyza sativae

2025/139 New data on quarantine pests and pests of the EPPO Alert List

Liriomyza trifolii

2025/229 New data on quarantine pests and pests of the EPPO Alert List

Liriomyza trifolii

2025/229 New data on quarantine pests and pests of the EPPO Alert List

Lithuania

2025/135 First report of *Amelanchier* × *lamarckii* in Lithuania

little cherry virus 1 (*Velarivirus nanoavii*)

2025/180 New reports of plum viruses and viroids in India

Lonicera japonica

2025/140 Recent updates in the EPPO Global Database

2025/185 Prioritization of alien plant taxa for EPPO Pest Risk Analysis

Lopholeucaspis japonica

2025/255 Update on the situation of quarantine pests in the Russian Federation

Ludwigia grandiflora

2025/052 Seed production in European populations of *Ludwigia grandiflora*

Ludwigia peploides

2025/162 Biogeographical studies of *Myriophyllum rubricaulis*

Luxembourg

2025/206 New data on quarantine pests and pests of the EPPO Alert List

2025/122 Update on the situation of the Asian hornet *Vespa velutina* in Europe

Lycorma delicatula

2025/252 New data on quarantine pests and pests of the EPPO Alert List

Lygodium japonicum

2025/276 Invasive plants as contaminants of bonsai plants from China

Lygodium microphyllum

2025/133 Post-release monitoring of two biological control agents in North America

Lymantria dispar

2025/252 New data on quarantine pests and pests of the EPPO Alert List

Lymantria dispar asiatica*

2025/255 Update on the situation of quarantine pests in the Russian Federation

Lymantria mathura

2025/252 New data on quarantine pests and pests of the EPPO Alert List

***Lysiphlebus testaceipes*†**

2025/131 Commercially available biological control agents in Germany

Maconellicoccus hirsutus

2025/113 New data on quarantine pests and pests of the EPPO Alert List

2025/164 New data on quarantine pests and pests of the EPPO Alert List

Macrocheles robustulus

2025/131 Commercially available biological control agents in Germany

Macrolophus pygmaeus

2025/131 Commercially available biological control agents in Germany

Malacosoma americanum

2025/056 Recent updates in the EPPO Global Database

Malacosoma disstria

2025/255 Update on the situation of quarantine pests in the Russian Federation

Malacosoma parallela

2025/165 Recent updates in the EPPO Global Database

Malta

2025/094 First report of tomato fruit blotch virus in Malta

2025/119 First record of *Platynota stultana* in Malta

Malvastrum coromandelianum

2025/248 Distributions of four alien plants in Morocco including a new country record

Management

2025/136 Management of *Ailanthus altissima* in Israel

2025/137 Management of *Acacia dealbata* in Portugal

Martinique

2025/139 New data on quarantine pests and pests of the EPPO Alert List

Melanotus communis

2025/165 Recent updates in the EPPO Global Database

Melia azedarach

2025/026 Prioritizing management of invasive alien plant species

2025/140 Recent updates in the EPPO Global Database

2025/249 Alien plant species in Algeria including new country records

2025/185 Prioritization of alien plant taxa for EPPO Pest Risk Analysis

Meloidogyne chitwoodi

2025/177 First report of *Meloidogyne chitwoodi* in the United Kingdom

2025/265 New outbreak of *Meloidogyne chitwoodi* in Spain

Meloidogyne chitwoodii

2025/075 New outbreak of *Meloidogyne chitwoodi* in Bulgaria

Meloidogyne enterolobii

2025/202 First report of *Meloidogyne enterolobii* in Saudi Arabia

2025/264 New report of *Meloidogyne enterolobii* in the Netherlands

2025/164 New data on quarantine pests and pests of the EPPO Alert List

2025/252 New data on quarantine pests and pests of the EPPO Alert List

Meloidogyne fallax

2025/139 New data on quarantine pests and pests of the EPPO Alert List

Meloidogyne graminicola

2025/141 New EU Regulations

2025/188 Recent updates in the EPPO Global Database

Meloidogyne luci

2025/148 First report of *Meloidogyne luci* in Ethiopia

Melon yellow spot virus (*Orthotospovirus meloelavi*)

2025/231 Recent updates in the EPPO Global Database

Mesoptylus impictifrons

2025/012 *Mesoptylus impictifrons*, new vector of *Xylella fastidiosa* in the EPPO region

Metaphycus flavus

2025/131 Commercially available biological control agents in Germany

Metaphycus helvolus

2025/131 Commercially available biological control agents in Germany

Metaphycus stanleyi

2025/131 Commercially available biological control agents in Germany

Metcalfa pruinosa

2025/275 Hyperparasitoids impact efficacy of biological control of *Metcalfa pruinosa* in Italy

Metcalfa pruinosa

2025/229 New data on quarantine pests and pests of the EPPO Alert List

Mexico

2025/129 *Clavibacter nebraskensis* does not occur in Mexico

2025/187 New data on quarantine pests and pests of the EPPO Alert List

2025/206 New data on quarantine pests and pests of the EPPO Alert List

2025/229 New data on quarantine pests and pests of the EPPO Alert List

Micromus angulatus

2025/131 Commercially available biological control agents in Germany

Microterys nietneri

2025/131 Commercially available biological control agents in Germany

Mirabilis jalapa

2025/026 Prioritizing management of invasive alien plant species

2025/249 Alien plant species in Algeria including new country records

Miscanthus x giganteus

2025/110 First reports of alien plants in natural areas in Poland

Moldova

2025/121 Update on the situation of *Orientus ishidae* in the EPPO region

Monema flavescens

2025/009 *Monema flavescens* (Lepidoptera: Limacodidae): addition to the EPPO Alert List

2025/252 New data on quarantine pests and pests of the EPPO Alert List

Monochamus galloprovincialis

2025/255 Update on the situation of quarantine pests in the Russian Federation

Monochamus impluviatus

2025/255 Update on the situation of quarantine pests in the Russian Federation

Monochamus saltuarius

2025/255 Update on the situation of quarantine pests in the Russian Federation

Monochamus sutor

2025/255 Update on the situation of quarantine pests in the Russian Federation

Monochamus urussovii

2025/255 Update on the situation of quarantine pests in the Russian Federation

Montenegro

2025/089 First report of *Xylosandrus compactus* in Montenegro

2025/205 First report of *Eleocharis caduca* in Montenegro

Morocco

2025/013 *Paecilomyces formosus*: a new pathogen of trees

2025/025 First report of three *Solanum* species in Morocco

2025/026 Prioritizing management of invasive alien plant species

2025/063 Interceptions of *Scirtothrips aurantii* and *S. dorsalis* from African countries

- 2025/187 New data on quarantine pests and pests of the EPPO Alert List
 2025/248 Distributions of four alien plants in Morocco including a new country record
- Morocco**
 2025/055 New data on quarantine pests and pests of the EPPO Alert List
- Morus alba**
 2025/249 Alien plant species in Algeria including new country records
- Mozambique**
 2025/060 Update on the distribution of *Dacus frontalis*, and first report from Islas Canarias (ES)
- Myriophyllum aquaticum**
 2025/251 Global occurrences of alien aquatic plant species
- Myriophyllum rubricaula**
 2025/162 Biogeographical studies of *Myriophyllum rubricaula*
- Myriophyllum spicatum**
 2025/020 Prioritizing invasive plants for biological control in in western USA
 2025/251 Global occurrences of alien aquatic plant species
- Nardus stricta**
 2025/020 Prioritizing invasive plants for biological control in in western USA
- Nasturtium officinale**
 2025/251 Global occurrences of alien aquatic plant species
- Nelumbo nucifera**
 2025/026 Prioritizing management of invasive alien plant species
 2025/251 Global occurrences of alien aquatic plant species
- Neocerambyx raddei**
 2025/252 New data on quarantine pests and pests of the EPPO Alert List
- Neodiprion abietis**
 2025/166 Changes made to the list of regulated pests of Great Britain
- Neomusotima conspurcatalis**
 2025/133 Post-release monitoring of two biological control agents in North America
- Neopestalotiopsis rosae**
 2025/001 New data on quarantine pests and pests of the EPPO Alert List
 2025/158 *Neopestalotiopsis rosae* is causing strawberry and blueberry diseases in the EPPO region
 2025/267 New reports of plant diseases in Canada
- Neoseiulus barkeri**
 2025/131 Commercially available biological control agents in Germany
- Neoseiulus californicus**
 2025/131 Commercially available biological control agents in Germany
- Neoseiulus cucumeris**
 2025/131 Commercially available biological control agents in Germany
- Nephus includens**
 2025/182 New biological control agents added to PM 6/3(5) in 2025
- Netherlands**
 2025/004 First finding of *Scirtothrips aurantii* and new finding of *Scirtothrips dorsalis* in the Netherlands
 2025/006 First report of *Pochazia shantungensis* in Hungary
 2025/016 Update on the situation of tomato brown rugose fruit virus in the Netherlands
 2025/058 First report on *Euwallacea similis* in the EPPO region
 2025/087 EPPO Workshop for Inspectors: Innovative Strategies for Phytosanitary Inspections (Den Haag, NL, 2025-11-18/20)

2025/114	Recent updates in the EPPO Global Database
2025/162	Biogeographical studies of <i>Myriophyllum rubricaulis</i>
2025/179	<i>Ralstonia solanacearum</i> identified on <i>Rosa</i> sp. in the Netherlands
2025/195	Update on the situation of <i>Scirtothrips aurantii</i> and <i>Scirtothrips dorsalis</i> in the Netherlands
2025/215	First report of <i>Hishimonus sellatus</i> and <i>H. hamatus</i> in the Netherlands
2025/231	Recent updates in the EPPO Global Database
2025/244	First finding of honeysuckle yellow vein virus in the Netherlands
2025/264	New report of <i>Meloidogyne enterolobii</i> in the Netherlands
2025/272	First report 'Candidatus Phytoplasma fragariae' and 'Candidatus Phytoplasma asteris' in potato in the Netherlands
2025/276	Invasive plants as contaminants of bonsai plants from China
2025/121	Update on the situation of <i>Orientus ishidae</i> in the EPPO region
2025/122	Update on the situation of the Asian hornet <i>Vespa velutina</i> in Europe

New Caledonia

2025/164	New data on quarantine pests and pests of the EPPO Alert List
----------	---

New pest

2025/001	New data on quarantine pests and pests of the EPPO Alert List
2025/013	<i>Paecilomyces formosus</i> : a new pathogen of trees
2025/028	New data on quarantine pests and pests of the EPPO Alert List
2025/105	<i>Potexvirus citriflavimaculae</i> , a new Mandarivirus associated with vein yellowing and mottling of citrus
2025/146	An emerging <i>Platynota</i> sp. (Lepidoptera: Tortricidae) on blueberry in Peru

New record

2025/001	New data on quarantine pests and pests of the EPPO Alert List
2025/002	First report of <i>Aleurocanthus woglumi</i> and <i>Aleurocanthus spiniferus</i> in Georgia
2025/003	First report of <i>Eutetranychus orientalis</i> in Italy
2025/004	First finding of <i>Scirtothrips aurantii</i> and new finding of <i>Scirtothrips dorsalis</i> in the Netherlands
2025/005	First report of <i>Jacobiasca lybica</i> in France
2025/006	First report of <i>Pochazia shantungensis</i> in Hungary
2025/014	First report of <i>Brenneria goodwinii</i> and <i>Gibbsiella quercinecans</i> in Slovakia
2025/017	First report of tomato brown rugose fruit virus in Jersey
2025/023	First report of <i>Acalypha australis</i> in Albania
2025/024	First report of <i>Panicum miliaceum</i> (Poaceae) in Tunisia
2025/025	First report of three <i>Solanum</i> species in Morocco
2025/028	New data on quarantine pests and pests of the EPPO Alert List
2025/030	First report of <i>Spodoptera frugiperda</i> in Bulgaria
2025/031	First report of <i>Epitrix brevis</i> in Italy and in the EPPO region
2025/037	First report of <i>Empoasca fabalis</i> in mainland Europe
2025/038	<i>Cylindrocopturus furnissi</i> : an emerging pest of Douglas fir in the USA
2025/040	First report of <i>Cryphonectria carpinicola</i> in the United Kingdom
2025/041	First report of <i>Austropuccinia psidii</i> in the EPPO region
2025/046	First report of <i>Clavibacter nebraskensis</i> in South Africa
2025/048	Emergence of <i>Ceratobasidium theobromae</i> as a pest of cassava, and first report in the Americas
2025/050	First report of <i>Andropogon abyssinicus</i> in the Canary Islands (Spain)
2025/055	New data on quarantine pests and pests of the EPPO Alert List
2025/058	First report on <i>Euwallacea similis</i> in the EPPO region
2025/059	First report of the African leafhopper <i>Leptodelphax maculigera</i> in South America, and its potential role as vector of corn stunt pathogens in Brazil
2025/060	Update on the distribution of <i>Dacus frontalis</i> , and first report from Islas Canarias (ES)
2025/063	Interceptions of <i>Scirtothrips aurantii</i> and <i>S. dorsalis</i> from African countries
2025/066	First report of <i>Xylella fastidiosa</i> in Colombia
2025/067	First report of <i>Xylella fastidiosa</i> in Iraq
2025/068	First report of <i>Ralstonia syzygii</i> subsp. <i>syzygii</i> in Brazil on eucalyptus
2025/069	First report of <i>Fusarium circinatum</i> in Pakistan
2025/070	First report of <i>Cryphonectria carpinicola</i> in France
2025/074	First report of 'Candidatus Arsenophonus phytopathogenicus' in Central Europe
2025/075	New outbreak of <i>Meloidogyne chitwoodi</i> in Bulgaria
2025/076	First report of <i>Bursaphelenchus xylophilus</i> in Armenia
2025/083	First report of <i>Asclepias speciosa</i> in Greece
2025/086	New data on quarantine pests and pests of the EPPO Alert List
2025/089	First report of <i>Xylosandrus compactus</i> in Montenegro
2025/092	First report of <i>Nepovirus myrtilli</i> in the EPPO region

2025/093	First report of pepper whitefly-borne vein yellows virus in Spain and in Europe
2025/094	First report of tomato fruit blotch virus in Malta
2025/095	First reports of tomato fruit blotch virus in France and in Belgium
2025/097	First report of tomato brown rugose fruit virus and pepino mosaic virus in Iraq
2025/098	First record of watermelon crinkle leaf-associated virus 2 in Italy
2025/099	First record of watermelon crinkle leaf-associated virus 1 (WCLaV-1) and WCLaV-2 in Slovenia
2025/101	First report of <i>Cryphonectria carpinicola</i> in Croatia
2025/104	First report <i>Pantoea stewartii</i> subsp. <i>indologenes</i> causing maize leaf blight disease in Iran
2025/105	<i>Potexvirus citriflavimaculae</i> , a new Mandarivirus associated with vein yellowing and mottling of citrus
2025/108	<i>Atriplex semilunaris</i> in the Canary Islands (ES)
2025/110	First reports of alien plants in natural areas in Poland
2025/113	New data on quarantine pests and pests of the EPPO Alert List
2025/115	Update on the status of some regulated pests in Chile
2025/116	First report of <i>Anisandrus maiche</i> in Poland
2025/117	First report of <i>Aleurocanthus spiniferus</i> in Austria
2025/118	First report of <i>Euwallacea fornicatus</i> in Uruguay
2025/119	First record of <i>Platynota stultana</i> in Malta
2025/120	<i>Rhagoletis cingulata</i> occurs in Poland
2025/121	Update on the situation of <i>Orientus ishidae</i> in the EPPO region
2025/122	Update on the situation of the Asian hornet <i>Vespa velutina</i> in Europe
2025/123	Update on the situation of the Asian hornet <i>Vespa velutina</i> in Europe
2025/125	First report of <i>Curtobacterium flaccumfaciens</i> pv. <i>flaccumfaciens</i> in Hungary
2025/126	First record of <i>Xiphinema rivesi</i> in Bosnia and Herzegovina
2025/135	First report of <i>Amelanchier</i> × <i>lamarckii</i> in Lithuania
2025/139	New data on quarantine pests and pests of the EPPO Alert List
2025/142	First report of <i>Dacus ciliatus</i> in Tunisia
2025/143	First report of <i>Zeugodacus tau</i> in Italy
2025/144	First report of <i>Zaprionus indianus</i> in Hungary
2025/145	First report of <i>Zaprionus tuberculatus</i> in Algeria
2025/146	An emerging <i>Platynota</i> sp. (Lepidoptera: Tortricidae) on blueberry in Peru
2025/148	First report of <i>Meloidogyne luci</i> in Ethiopia
2025/149	First report of <i>Cryptostroma corticale</i> in Ireland
2025/150	First report of <i>Pantoea stewartii</i> subsp. <i>stewartii</i> in Iran
2025/154	First report of blueberry leaf mottle virus in France
2025/155	First record of pepper chat fruit viroid in Türkiye
2025/156	First report of watermelon crinkle leaf-associated virus 1 (WCLaV-1) and WCLaV-2 in Spain
2025/157	Recent studies and reviews involving bacteria associated with acute oak decline
2025/158	<i>Neopestalotopsis rosae</i> is causing strawberry and blueberry diseases in the EPPO region
2025/162	Biogeographical studies of <i>Myriophyllum rubricaulis</i>
2025/164	New data on quarantine pests and pests of the EPPO Alert List
2025/167	Incursion of <i>Popillia japonica</i> in Spain
2025/168	Incursion of <i>Popillia japonica</i> in France
2025/173	First report of <i>Nipaecoccus viridis</i> on citrus in Türkiye
2025/174	First report of <i>Takahashia japonica</i> in Belgium
2025/175	First report of the <i>Cnestus mutilatus</i> in Slovenia and update on <i>Anisandrus maiche</i> and <i>Xylosandrus compactus</i>
2025/176	First report of <i>Cnestus mutilatus</i> in Croatia
2025/177	First report of <i>Meloidogyne chitwoodi</i> in the United Kingdom
2025/181	Bidens mottle virus, an emerging pest of sunflower in South Africa
2025/187	New data on quarantine pests and pests of the EPPO Alert List
2025/190	<i>Proagopertha lucidula</i> , an invasive pest spreading westward in the EPPO region
2025/191	First report of <i>Selenothrips rubrocinctus</i> in Madeira (PT)
2025/192	Update on the situation of <i>Popillia japonica</i> in Germany
2025/197	First report of <i>Austropuccinia psidii</i> in Portugal
2025/198	First report of <i>Austropuccinia psidii</i> in Taiwan
2025/199	New report of lettuce infectious yellows virus in Spain
2025/201	First report of <i>Aphelenchoides besseyi</i> in Portugal
2025/202	First report of <i>Meloidogyne enterolobii</i> in Saudi Arabia
2025/203	First report of <i>Amaranthus tuberculatus</i> in Portugal
2025/204	First report of <i>Phacelia tanacetifolia</i> in Tunisia
2025/205	First report of <i>Eleocharis caduca</i> in Montenegro
2025/206	New data on quarantine pests and pests of the EPPO Alert List
2025/208	First report of <i>Agilus planipennis</i> in Belarus
2025/209	First report of <i>Dacus ciliatus</i> in Syria

2025/211	First report of <i>Euwallacea similis</i> in Spain and new findings of alien <i>Scolytinae</i>
2025/212	First report of <i>Cnestus mutilatus</i> in Austria
2025/213	Incursion of <i>Popillia japonica</i> in Austria
2025/214	<i>Semanotus bifasciatus</i> : first finding in Europe
2025/215	First report of <i>Hishimonus sellatus</i> and <i>H. hamatus</i> in the Netherlands
2025/216	<i>Aclees taiwanensis</i> : first record of in the Russian Federation and incursion in Poland
2025/217	<i>Polydrusus tibialis</i> : a new pest of peach in Greece
2025/218	First report of <i>Davidsoniella virescens</i> in Poland
2025/225	First report of <i>Cenchrus setaceus</i> in Crete (Greece)
2025/229	New data on quarantine pests and pests of the EPPO Alert List
2025/233	First report of <i>Amrasca biguttula</i> in North America (USA)
2025/234	First report of <i>Amrasca biguttula</i> in Central America (Honduras)
2025/236	First reports of <i>Leptodelphax maculigera</i> in Argentina and Paraguay
2025/238	First report of <i>Pochazia shantungensis</i> in Belgium
2025/240	First reports of <i>Oligonychus perseae</i> in western Africa
2025/241	Incursion of <i>Bactrocera dorsalis</i> in Slovakia
2025/244	First finding of honeysuckle yellow vein virus in the Netherlands
2025/245	<i>Phytophthora mediterranea</i> : an emerging pest of woody trees
2025/248	Distributions of four alien plants in Morocco including a new country record
2025/249	Alien plant species in Algeria including new country records
2025/252	New data on quarantine pests and pests of the EPPO Alert List
2025/256	First report of a <i>Pochazia</i> species in Czechia
2025/256	First report of <i>Euwallacea fornicatus</i> in Türkiye
2025/257	First report of a <i>Pochazia</i> species in Czechia
2025/258	First report of <i>Spodoptera littoralis</i> in India
2025/263	First report of <i>Bursaphelenchus xylophilus</i> in France
2025/266	First report of <i>Phytophthora ramorum</i> in Jersey
2025/267	New reports of plant diseases in Canada
2025/268	First suspected outbreak of <i>Fusarium oxysporum</i> f. sp. <i>cubense</i> Tropical race 4 in Ecuador
2025/269	<i>Phytophthora abietivora</i> : an emerging pest of fir trees in North America
2025/277	First report of <i>Smilax rotundifolia</i> in France

New species

2025/045	Revision on the taxonomy on <i>Curtobacterium flaccumfaciens</i>
----------	--

New Zealand

2025/252	New data on quarantine pests and pests of the EPPO Alert List
----------	---

Nicotiana glauca

2025/249	Alien plant species in Algeria including new country records
----------	--

Nigella sativa

2025/249	Alien plant species in Algeria including new country records
----------	--

Niger

2025/001	New data on quarantine pests and pests of the EPPO Alert List
----------	---

Nipaecoccus viridis

2025/173	First report of <i>Nipaecoccus viridis</i> on citrus in Türkiye
----------	---

Nymphoides peltata

2025/251	Global occurrences of alien aquatic plant species
----------	---

Oligonychus perseae

2025/240	First reports of <i>Oligonychus perseae</i> in western Africa
----------	---

One health

2025/104	First report of <i>Pantoea stewartii</i> subsp. <i>indologenes</i> causing maize leaf blight disease in Iran
----------	--

Oobius agrili

2025/021	Pre-emptive biological control of <i>Agilus planipennis</i> in Europe
----------	---

Ophiostoma ips

2025/229	New data on quarantine pests and pests of the EPPO Alert List
----------	---

Opuntia ficus-indica

2025/161 Alien plant species on the island of Menorca (Islas Baleares, Spain)

Opuntia stricta

2025/026 Prioritizing management of invasive alien plant species

2025/278 Negative impact of *Opuntia stricta* in Italy

orchid fleck virus (*Dichorhavirus orchidaceae*)

2025/001 New data on quarantine pests and pests of the EPPO Alert List

Orgyia leucostigma

2025/188 Recent updates in the EPPO Global Database

Orientus ishidae

2025/121 Update on the situation of *Orientus ishidae* in the EPPO region

2025/252 New data on quarantine pests and pests of the EPPO Alert List

Orius laevigatus

2025/131 Commercially available biological control agents in Germany

Orius majusculus

2025/131 Commercially available biological control agents in Germany

Otiorhynchus ovatus

2025/115 Update on the status of some regulated pests in Chile

Oxalis corniculata

2025/249 Alien plant species in Algeria including new country records

Oxalis pes-caprae

2025/249 Alien plant species in Algeria including new country records

Oxalis pes-caprae*

2025/161 Alien plant species on the island of Menorca (Islas Baleares, Spain)

Oxybasis glauca

2025/249 Alien plant species in Algeria including new country records

Pachycrepoideus vindemiae

2025/132 Interactions between parasitoids of *Drosophila suzukii*

Pachyneuron muscarum

2025/275 Hyperparasitoids impact efficacy of biological control of *Metcalfa pruinosa* in Italy

Paecilomyces formosus

2025/013 *Paecilomyces formosus*: a new pathogen of trees

Pakistan

2025/069 First report of *Fusarium circinatum* in Pakistan

2025/105 *Potexvirus citriflavimaculae*, a new Mandarivirus associated with vein yellowing and mottling of citrus

Panicum miliaceum

2025/024 First report of *Panicum miliaceum* (Poaceae) in Tunisia

2025/249 Alien plant species in Algeria including new country records

Pantoea ananatis

2025/139 New data on quarantine pests and pests of the EPPO Alert List

Pantoea stewartii* subsp. *indologenes

2025/104 First report *Pantoea stewartii* subsp. *indologenes* causing maize leaf blight disease in Iran

Pantoea stewartii* subsp. *stewartii

2025/150 First report of *Pantoea stewartii* subsp. *stewartii* in Iran

2025/151 Update on the situation of *Pantoea stewartii* subsp. *stewartii* in Italy

2025/255 Update on the situation of quarantine pests in the Russian Federation

Paraburkholderia caryophylli

2025/056 Recent updates in the EPPO Global Database

Paraburkholderia caryophylli

2025/207 Situation of several regulated pests in Serbia

Paraguay

2025/236 First reports of *Leptodelphax maculigera* in Argentina and Paraguay

Parasaissetia nigra

2025/055 New data on quarantine pests and pests of the EPPO Alert List

Paraserianthes lophantha* subsp. *lophantha

2025/026 Prioritizing management of invasive alien plant species

2025/140 Recent updates in the EPPO Global Database

2025/185 Prioritization of alien plant taxa for EPPO Pest Risk Analysis

Parkinsonia aculeata

2025/026 Prioritizing management of invasive alien plant species

2025/140 Recent updates in the EPPO Global Database

2025/185 Prioritization of alien plant taxa for EPPO Pest Risk Analysis

Paspalum dilatatum

2025/249 Alien plant species in Algeria including new country records

Pathway

2025/259 First report on *Chrysobothris mali* infesting pear fruits

Paysandisia archon

2025/035 Establishment of *Paysandisia archon* in Switzerland

Peach enation virus

2025/130 Phantom disease agents of fruit crops and rose

Peach oil blotch disease

2025/130 Phantom disease agents of fruit crops and rose

Peach seedling chlorosis disease

2025/130 Phantom disease agents of fruit crops and rose

Peach star mosaic disease

2025/130 Phantom disease agents of fruit crops and rose

Peach wart agent

2025/130 Phantom disease agents of fruit crops and rose

Peach yellow mottle disease

2025/130 Phantom disease agents of fruit crops and rose

Pear bark split agent

2025/130 Phantom disease agents of fruit crops and rose

Pear corky pit agent

2025/130 Phantom disease agents of fruit crops and rose

Pear freckle pit agent

2025/130 Phantom disease agents of fruit crops and rose

Pear rough bark agent

2025/130 Phantom disease agents of fruit crops and rose

Penthimiola bella

2025/187 New data on quarantine pests and pests of the EPPO Alert List

pepino mosaic virus (*Potexvirus pepini*)

- 2025/097 First report of tomato brown rugose fruit virus and pepino mosaic virus in Iraq
 2025/207 Situation of several regulated pests in Serbia
 2025/255 Update on the situation of quarantine pests in the Russian Federation
 2025/271 Detection of pepino mosaic virus on imported tomato fruits in Estonia and Sweden

pepper chat fruit viroid (*Pospiviroid parvicapsici*)

- 2025/155 First record of pepper chat fruit viroid in Türkiye

pepper mild mottle virus (*Tobamovirus capsici*)

- 2025/097 First report of tomato brown rugose fruit virus and pepino mosaic virus in Iraq

pepper whitefly-borne vein yellows virus (*Polerovirus PEWBVYV*)

- 2025/093 First report of pepper whitefly-borne vein yellows virus in Spain and in Europe

Peru

- 2025/086 New data on quarantine pests and pests of the EPPO Alert List
 2025/146 An emerging *Platynota* sp. (Lepidoptera: Tortricidae) on blueberry in Peru
 2025/153 Update on the situation of *Xylella fastidiosa* in Peru
 2025/252 New data on quarantine pests and pests of the EPPO Alert List

Petrakia liobae

- 2025/231 Recent updates in the EPPO Global Database

Pezothrips kellyanus

- 2025/191 First report of *Selenothrips rubrocinctus* in Madeira (PT)

Phacelia tanacetifolia

- 2025/204 First report of *Phacelia tanacetifolia* in Tunisia

Phalaris canariensis

- 2025/249 Alien plant species in Algeria including new country records

Phasmarhabditis hermaphrodita

- 2025/131 Commercially available biological control agents in Germany

Phialophora cinerescens

- 2025/207 Situation of several regulated pests in Serbia

Philippines

- 2025/048 Emergence of *Ceratobasidium theobromae* as a pest of cassava, and first report in the Americas

Phoenix canariensis

- 2025/161 Alien plant species on the island of Menorca (Islas Baleares, Spain)

Phthorimaea operculella

- 2025/255 Update on the situation of quarantine pests in the Russian Federation

Phyllocnistis citrella

- 2025/207 Situation of several regulated pests in Serbia

Phyllostachys aurea

- 2025/026 Prioritizing management of invasive alien plant species
 2025/049 *Phyllostachys aurea* in the EPPO region: addition to the EPPO Alert List

Phyllostachys aurea

- 2025/029 Recent updates in the EPPO Global Database

Phyllostachys bisetii

- 2025/110 First reports of alien plants in natural areas in Poland

Phyllosticta citricarpa

- 2025/057 Update on citrus quarantine pests in the USA
 2025/071 Update on the situation of *Phyllosticta citricarpa* in Tunisia

- 2025/164 New data on quarantine pests and pests of the EPPO Alert List
 2025/232 Update of the situation of regulated pests in Brazil

Phyllosticta paracitricarpa

- 2025/164 New data on quarantine pests and pests of the EPPO Alert List

Phytophthora abietivora

- 2025/269 *Phytophthora abietivora*: an emerging pest of fir trees in North America

Phytophthora cinnamomi

- 2025/103 *Phytophthora cinnamomi* identified on avocado in Crete (GR)

Phytophthora lateralis

- 2025/102 Incursion of *Phytophthora lateralis* in Croatia

Phytophthora mediterranea

- 2025/245 *Phytophthora mediterranea*: an emerging pest of woody trees

Phytophthora pluvialis

- 2025/219 Update on the situation of *Phytophthora pluvialis* in Belgium
 2025/086 New data on quarantine pests and pests of the EPPO Alert List

Phytophthora ramorum

- 2025/266 First report of *Phytophthora ramorum* in Jersey
 2025/107 *Phytophthora ramorum* is no longer present in Portugal

Phytoseiulus persimilis

- 2025/131 Commercially available biological control agents in Germany

Pinus contorta

- 2025/053 The spread and impact of *Pinus contorta* in Iceland

Pistia stratiotes

- 2025/251 Global occurrences of alien aquatic plant species
 2025/250 Aquatic alien plants can promote proliferation of mosquitoes

Pittosporum tobira

- 2025/161 Alien plant species on the island of Menorca (Islas Baleares, Spain)

Pityophthorus juglandis

- 2025/128 Update on the situation of *Pityophthorus juglandis* and *Geosmithia morbida* in France

***Platynota* sp.**

- 2025/146 An emerging *Platynota* sp. (Lepidoptera: Tortricidae) on blueberry in Peru

Platynota stultana

- 2025/119 First record of *Platynota stultana* in Malta
 2025/055 New data on quarantine pests and pests of the EPPO Alert List

Plenodomus tracheiphilus

- 2025/267 New reports of plant diseases in Canada

Plum bark necrosis stem pitting-associated virus (*Ampelovirus pruni*)

- 2025/180 New reports of plum viruses and viroids in India

plum pox virus (*Potyvirus plumpoxi*)

- 2025/255 Update on the situation of quarantine pests in the Russian Federation

Pochazia chinensis

- 2025/256 First report of a *Pochazia* species in Czechia

Pochazia shantungensis

- 2025/006 First report of *Pochazia shantungensis* in Hungary
 2025/007 Update on the situation of *Pochazia shantungensis* in France

Pochazia shantungensis

- 2025/028 New data on quarantine pests and pests of the EPPO Alert List
- 2025/055 New data on quarantine pests and pests of the EPPO Alert List
- 2025/238 First report of *Pochazia shantungensis* in Belgium
- 2025/239 New records of *Pochazia shantungensis* in France
- 2025/257 First report of a *Pochazia* species in Czechia

Poland

- 2025/074 First report of '*Candidatus* Arsenophonus phytopathogenicus' in Central Europe
- 2025/110 First reports of alien plants in natural areas in Poland
- 2025/116 First report of *Anisandrus maiche* in Poland
- 2025/120 *Rhagoletis cingulata* occurs in Poland
- 2025/157 Recent studies and reviews involving bacteria associated with acute oak decline
- 2025/216 *Aclees taiwanensis*: first record of in the Russian Federation and incursion in Poland
- 2025/218 First report of *Davidsoniella virescens* in Poland
- 2025/121 Update on the situation of *Orientus ishidae* in the EPPO region

Polydrusus tibialis

- 2025/217 *Polydrusus tibialis*: a new pest of peach in Greece

Polygraphus proximus

- 2025/255 Update on the situation of quarantine pests in the Russian Federation

Pontederia crassipes

- 2025/251 Global occurrences of alien aquatic plant species
- 2025/250 Aquatic alien plants can promote proliferation of mosquitoes

Pontederia vaginalis

- 2025/251 Global occurrences of alien aquatic plant species

Popillia japonica

- 2025/167 Incursion of *Popillia japonica* in Spain
- 2025/168 Incursion of *Popillia japonica* in France
- 2025/169 Update on the situation of *Popillia japonica* in Slovenia
- 2025/170 Update on the situation of *Popillia japonica* in Switzerland
- 2025/192 Update on the situation of *Popillia japonica* in Germany
- 2025/193 Incursion of *Popillia japonica* in Belgium
- 2025/255 Update on the situation of quarantine pests in the Russian Federation
- 2025/213 Incursion of *Popillia japonica* in Austria

Portugal

- 2025/037 First report of *Empoasca fabalis* in mainland Europe
- 2025/107 *Phytophthora ramorum* is no longer present in Portugal
- 2025/172 Update on the situation of *Unaspis citri* in the Azores
- 2025/121 Update on the situation of *Orientus ishidae* in the EPPO region
- 2025/137 Management of *Acacia dealbata* in Portugal
- 2025/152 Update on the situation of *Elsinoë fawcettii* in the Azores (Portugal)
- 2025/158 *Neopestalotiopsis rosae* is causing strawberry and blueberry diseases in the EPPO region
- 2025/191 First report of *Selenothrips rubrocinctus* in Madeira (PT)
- 2025/197 First report of *Austropuccinia psidii* in Portugal
- 2025/201 First report of *Aphelenchoides besseyi* in Portugal
- 2025/203 First report of *Amaranthus tuberculatus* in Portugal
- 2025/227 Negative impacts of invasive *Acacia* species in fragmented forests

Potamogeton crispus

- 2025/251 Global occurrences of alien aquatic plant species

potato mop-top virus (*Pomovirus solani*)

- 2025/229 New data on quarantine pests and pests of the EPPO Alert List
- 2025/267 New reports of plant diseases in Canada

potato rugose stunting virus (*Torradovirus nanorugosum*)

- 2025/270 Recent changes in virus taxonomy

potato spindle tuber viroid (*Pospiviroid fustuberis*)

2025/187 New data on quarantine pests and pests of the EPPO Alert List

2025/255 Update on the situation of quarantine pests in the Russian Federation

potato virus H (*Carlavirus chisolani*)

2025/106 Potato Virus H found on tomato in China

Praon volucre

2025/131 Commercially available biological control agents in Germany

Premnotypes suturicallus

2025/056 Recent updates in the EPPO Global Database

Prioritization

2025/026 Prioritizing management of invasive alien plant species

Proagopertha lucidula2025/190 *Proagopertha lucidula*, an invasive pest spreading westward in the EPPO region***Propylea quatuordecimpunctata***

2025/131 Commercially available biological control agents in Germany

prunus necrotic ringspot virus (*Ilarvirus PNRSV*)

2025/180 New reports of plum viruses and viroids in India

Pseudocysta perseae

2025/164 New data on quarantine pests and pests of the EPPO Alert List

Pseudaulacaspis pentagona

2025/255 Update on the situation of quarantine pests in the Russian Federation

Pseudocercospora angolensis

2025/056 Recent updates in the EPPO Global Database

Pseudocercospora fijiensis

2025/232 Update of the situation of regulated pests in Brazil

Pseudococcus comstocki

2025/206 New data on quarantine pests and pests of the EPPO Alert List

Pseudomonas avellanae

2025/166 Changes made to the list of regulated pests of Great Britain

Pseudomonas syringae* pv. *morsprunorum

2025/115 Update on the status of some regulated pests in Chile

Pseudomonas syringae* pv. *persicae

2025/029 Recent updates in the EPPO Global Database

Pseudotsuga menziesii

2025/026 Prioritizing management of invasive alien plant species

Pterocarya fraxinifolia

2025/140 Recent updates in the EPPO Global Database

2025/185 Prioritization of alien plant taxa for EPPO Pest Risk Analysis

Publication

2025/022 Update of EPPO PM 6 Standard

2025/027 New EPPO PM 3 Standard on invasive alien plants

2025/281 Index of the EPPO Reporting Service

Puccinia horiana

2025/255 Update on the situation of quarantine pests in the Russian Federation

***Pyricularia oryzae* Triticum lineage**

2025/127 *Pyricularia oryzae* Triticum lineage causing wheat blast: addition to the Alert List

Quarantine list

2025/056 Recent updates in the EPPO Global Database

Rahnella victoriana

2025/157 Recent studies and reviews involving bacteria associated with acute oak decline

Ralstonia pseudosolanacearum

2025/028 New data on quarantine pests and pests of the EPPO Alert List

2025/139 New data on quarantine pests and pests of the EPPO Alert List

2025/187 New data on quarantine pests and pests of the EPPO Alert List

Ralstonia solanacearum

2025/018 Update of the situation of *Ralstonia solanacearum* in the EPPO region

2025/042 *Ralstonia solanacearum* detected in surface water in France

2025/179 *Ralstonia solanacearum* identified on *Rosa* sp. in the Netherlands

2025/255 Update on the situation of quarantine pests in the Russian Federation

2025/113 New data on quarantine pests and pests of the EPPO Alert List

2025/207 Situation of several regulated pests in Serbia

2025/252 New data on quarantine pests and pests of the EPPO Alert List

***Ralstonia solanacearum* species complex**

2025/018 Update of the situation of *Ralstonia solanacearum* in the EPPO region

2025/028 New data on quarantine pests and pests of the EPPO Alert List

2025/042 *Ralstonia solanacearum* detected in surface water in France

2025/068 First report of *Ralstonia syzygii* subsp. *syzygii* in Brazil on eucalyptus

2025/113 New data on quarantine pests and pests of the EPPO Alert List

2025/139 New data on quarantine pests and pests of the EPPO Alert List

2025/179 *Ralstonia solanacearum* identified on *Rosa* sp. in the Netherlands

2025/187 New data on quarantine pests and pests of the EPPO Alert List

2025/207 Situation of several regulated pests in Serbia

2025/252 New data on quarantine pests and pests of the EPPO Alert List

2025/255 Update on the situation of quarantine pests in the Russian Federation

Ralstonia syzygii* subsp. *syzygii

2025/068 First report of *Ralstonia syzygii* subsp. *syzygii* in Brazil on eucalyptus

Ranunculus acris

2025/020 Prioritizing invasive plants for biological control in in western USA

Raoiella indica

2025/055 New data on quarantine pests and pests of the EPPO Alert List

2025/229 New data on quarantine pests and pests of the EPPO Alert List

Raspberry leaf curl virus

2025/130 Phantom disease agents of fruit crops and rose

raspberry ringspot virus (*Nepovirus rubi*)

2025/207 Situation of several regulated pests in Serbia

Raspberry yellow spot agent

2025/130 Phantom disease agents of fruit crops and rose

Regulation

2025/015 Tomato brown rugose fruit virus is now a Regulated Non-Quarantine Pest for the EU

2025/055 New data on quarantine pests and pests of the EPPO Alert List

2025/056 Recent updates in the EPPO Global Database

2025/114 Recent updates in the EPPO Global Database

2025/130 Phantom disease agents of fruit crops and rose

2025/141 New EU Regulations

2025/159 Viruses, virus-like diseases and viroids of grapevine that should not be regulated

2025/166 Changes made to the list of regulated pests of Great Britain

- 2025/221 New EU Regulation for *Curtobacterium flaccumfaciens* pv. *flaccumfacien*
 2025/226 Update of the list of invasive alien species of Union concern (European Union)
 2025/254 New EU regulations

Resseliella citrifugis

- 2025/230 New additions to the EPPO A1 and A2 Lists

Retithrips syriacus

- 2025/028 New data on quarantine pests and pests of the EPPO Alert List

Reynoutria japonica

- 2025/138 The potential spread of *Reynoutria japonica* in Europe under future climate conditions
 2025/226 Update of the list of invasive alien species of Union concern (European Union)

Reynoutria sachalinensis

- 2025/226 Update of the list of invasive alien species of Union concern (European Union)

Reynoutria x bohémica

- 2025/226 Update of the list of invasive alien species of Union concern (European Union)

Rhagoletis cingulata

- 2025/120 *Rhagoletis cingulata* occurs in Poland

Rhizoecus falcifer

- 2025/115 Update on the status of some regulated pests in Chile

Rhodococcus fascians

- 2025/115 Update on the status of some regulated pests in Chile

Rhynchophorus ferrugineus

- 2025/255 Update on the situation of quarantine pests in the Russian Federation
 2025/055 New data on quarantine pests and pests of the EPPO Alert List

Rhyzobius forestieri

- 2025/131 Commercially available biological control agents in Germany

Rhyzobius lophanthae

- 2025/131 Commercially available biological control agents in Germany

Ricinus communis

- 2025/249 Alien plant species in Algeria including new country records

Ripersiella hibisci

- 2025/230 New additions to the EPPO A1 and A2 Lists

RNQP

- 2025/015 Tomato brown rugose fruit virus is now a Regulated Non-Quarantine Pest for the EU
 2025/130 Phantom disease agents of fruit crops and rose

Robinia pseudoacacia

- 2025/026 Prioritizing management of invasive alien plant species
 2025/249 Alien plant species in Algeria including new country records

Rodolia cardinalis

- 2025/131 Commercially available biological control agents in Germany

Romania

- 2025/074 First report of '*Candidatus Arsenophonus phytopathogenicus*' in Central Europe
 2025/121 Update on the situation of *Orientus ishidae* in the EPPO region

Rorippa austriaca

- 2025/020 Prioritizing invasive plants for biological control in in western USA

Rose streak virus

- 2025/130 Phantom disease agents of fruit crops and rose

Rose wilt agent (synonym of rose stunt)

2025/130 Phantom disease agents of fruit crops and rose

Rubia tinctorum

2025/249 Alien plant species in Algeria including new country records

Rubodvirus mali

2025/130 Phantom disease agents of fruit crops and rose

Rubodvirus prosserense

2025/130 Phantom disease agents of fruit crops and rose

Rubus fruticosus

2025/020 Prioritizing invasive plants for biological control in in western USA

Russian Federation

2025/001 New data on quarantine pests and pests of the EPPO Alert List

2025/039 *Ips hauseri* does not occur in Russia

2025/055 New data on quarantine pests and pests of the EPPO Alert List

2025/088 First report of *Grapholita inopinata* in the European part of the Russian Federation

2025/112 The distribution of *Impatiens glandulifera* in the Southern Urals (Russian Federation)

2025/216 *Aclees taiwanensis*: first record of in the Russian Federation and incursion in Poland

2025/255 Update on the situation of quarantine pests in the Russian Federation

Rwanda

2025/063 Interceptions of *Scirtothrips aurantii* and *S. dorsalis* from African countries

Sagittaria latifolia

2025/251 Global occurrences of alien aquatic plant species

Salpichroa origanifolia

2025/026 Prioritizing management of invasive alien plant species

2025/140 Recent updates in the EPPO Global Database

2025/185 Prioritization of alien plant taxa for EPPO Pest Risk Analysis

Salvinia molesta

2025/251 Global occurrences of alien aquatic plant species

Saperda candida

2025/065 Update on the situation of *Saperda candida* in Germany

Sasa palmata

2025/081 *Sasa palmata* in the EPPO region: addition to the EPPO Alert List

Sasa palmata

2025/029 Recent updates in the EPPO Global Database

Saudi Arabia

2025/001 New data on quarantine pests and pests of the EPPO Alert List

2025/202 First report of *Meloidogyne enterolobii* in Saudi Arabia

Scirtothrips aurantii

2025/004 First finding of *Scirtothrips aurantii* and new finding of *Scirtothrips dorsalis* in the Netherlands

2025/195 Update on the situation of *Scirtothrips aurantii* and *Scirtothrips dorsalis* in the Netherlands

2025/063 Interceptions of *Scirtothrips aurantii* and *S. dorsalis* from African countries

2025/191 First report of *Selenothrips rubrocinctus* in Madeira (PT)

2025/260 Update on the situation of *Scirtothrips aurantii* in Spain

Scirtothrips citri

2025/237 Update of the situation of *Scirtothrips citri* in Israel

Scirtothrips dorsalis

2025/004 First finding of *Scirtothrips aurantii* and new finding of *Scirtothrips dorsalis* in the Netherlands

2025/063 Interceptions of *Scirtothrips aurantii* and *S. dorsalis* from African countries

- 2025/090 Update on the situation of *Scirtothrips dorsalis* in Spain
 2025/195 Update on the situation of *Scirtothrips aurantii* and *Scirtothrips dorsalis* in the Netherlands

Scolytus morawitzii

- 2025/029 Recent updates in the EPPO Global Database

Selenothrips rubrocinctus

- 2025/191 First report of *Selenothrips rubrocinctus* in Madeira (PT)

Semanotus bifasciatus

- 2025/214 *Semanotus bifasciatus*: first finding in Europe

Senecio angulatus

- 2025/026 Prioritizing management of invasive alien plant species
 2025/140 Recent updates in the EPPO Global Database
 2025/185 Prioritization of alien plant taxa for EPPO Pest Risk Analysis

Senecio inaequidens

- 2025/082 Potential range expansion of *Senecio inaequidens* in Sardinia (IT)
 2025/163 Impacts of *Senecio inaequidens* at a local and global level

Senegal

- 2025/063 Interceptions of *Scirtothrips aurantii* and *S. dorsalis* from African countries

Serbia

- 2025/074 First report of ‘*Candidatus Arsenophonus phytopathogenicus*’ in Central Europe
 2025/086 New data on quarantine pests and pests of the EPPO Alert List
 2025/158 *Neopestalotiopsis rosae* is causing strawberry and blueberry diseases in the EPPO region
 2025/207 Situation of several regulated pests in Serbia

Sesamum indicum

- 2025/249 Alien plant species in Algeria including new country records

Sicyos angulatus

- 2025/255 Update on the situation of quarantine pests in the Russian Federation

Sida rhombifolia

- 2025/026 Prioritizing management of invasive alien plant species

Sinacalia tangutica

- 2025/140 Recent updates in the EPPO Global Database
 2025/185 Prioritization of alien plant taxa for EPPO Pest Risk Analysis

Singhiella simplex

- 2025/164 New data on quarantine pests and pests of the EPPO Alert List
 2025/187 New data on quarantine pests and pests of the EPPO Alert List

Slovakia

- 2025/014 First report of *Brenneria goodwinii* and *Gibbsiella quercinecans* in Slovakia
 2025/074 First report of ‘*Candidatus Arsenophonus phytopathogenicus*’ in Central Europe
 2025/231 Recent updates in the EPPO Global Database
 2025/241 Incursion of *Bactrocera dorsalis* in Slovakia
 2025/122 Update on the situation of the Asian hornet *Vespa velutina* in Europe

Slovenia

- 2025/018 Update of the situation of *Ralstonia solanacearum* in the EPPO region
 2025/099 First record of watermelon crinkle leaf-associated virus 1 (WCLaV-1) and WCLaV-2 in Slovenia
 2025/169 Update on the situation of *Popillia japonica* in Slovenia
 2025/175 First report of the *Cnestus mutilatus* in Slovenia and update on *Anisandrus maiche* and *Xylosandrus compactus*

Smilax rotundifolia

- 2025/277 First report of *Smilax rotundifolia* in France

Solanum abutiloides

2025/025 First report of three *Solanum* species in Morocco

Solanum bonariense

2025/249 Alien plant species in Algeria including new country records

2025/025 First report of three *Solanum* species in Morocco

Solanum elaeagnifolium

2025/249 Alien plant species in Algeria including new country records

Solanum nitidibaccatum

2025/025 First report of three *Solanum* species in Morocco

Solanum rostratum

2025/249 Alien plant species in Algeria including new country records

2025/255 Update on the situation of quarantine pests in the Russian Federation

Solanum triflorum

2025/255 Update on the situation of quarantine pests in the Russian Federation

Sorghum halepense

2025/026 Prioritizing management of invasive alien plant species

South Africa

2025/046 First report of *Clavibacter nebraskensis* in South Africa

2025/181 Bidens mottle virus, an emerging pest of sunflower in South Africa

Spain

2025/006 First report of *Pochazia shantungensis* in Hungary

2025/010 Update on the situation of *Euwallacea fornicatus sensu lato* in Spain

2025/156 First report of watermelon crinkle leaf-associated virus 1 (WCLaV-1) and WCLaV-2 in Spain

2025/161 Alien plant species on the island of Menorca (Islas Baleares, Spain)

2025/164 New data on quarantine pests and pests of the EPPO Alert List

2025/167 Incursion of *Popillia japonica* in Spain

2025/199 New report of lettuce infectious yellows virus in Spain

2025/206 New data on quarantine pests and pests of the EPPO Alert List

2025/211 First report of *Euwallacea similis* in Spain and new findings of alien *Scolytinae*

2025/243 *Amasa parviseta*, *Euwallacea similis* and *Xyleborus bispinatus* are not established in Spain

2025/260 Update on the situation of *Scirtothrips aurantii* in Spain

2025/265 New outbreak of *Meloidogyne chitwoodi* in Spain

2025/028 New data on quarantine pests and pests of the EPPO Alert List

2025/050 First report of *Andropogon abyssinicus* in the Canary Islands (Spain)

2025/060 Update on the distribution of *Dacus frontalis*, and first report from Islas Canarias (ES)

2025/077 Update on the situation of *Bursaphelenchus xylophilus* in Spain

2025/090 Update on the situation of *Scirtothrips dorsalis* in Spain

2025/093 First report of pepper whitefly-borne vein yellows virus in Spain and in Europe

2025/108 *Atriplex semilunaris* in the Canary Islands (ES)

2025/123 Update on the situation of the Asian hornet *Vespa velutina* in Europe

Spartina anglica

2025/020 Prioritizing invasive plants for biological control in in western USA

Spartium junceum

2025/020 Prioritizing invasive plants for biological control in in western USA

Spathius agrili

2025/021 Pre-emptive biological control of *Agrilus planipennis* in Europe

Spathius galinae

2025/021 Pre-emptive biological control of *Agrilus planipennis* in Europe

Sphaerophoria rueppellii

2025/131 Commercially available biological control agents in Germany

Sphaerophysa salsula

2025/020 Prioritizing invasive plants for biological control in in western USA

Spiraea alba

2025/140 Recent updates in the EPPO Global Database

2025/185 Prioritization of alien plant taxa for EPPO Pest Risk Analysis

Spiraea japonica

2025/140 Recent updates in the EPPO Global Database

2025/185 Prioritization of alien plant taxa for EPPO Pest Risk Analysis

Spodoptera frugiperda

2025/030 First report of *Spodoptera frugiperda* in Bulgaria

2025/139 New data on quarantine pests and pests of the EPPO Alert List

Spodoptera littoralis

2025/255 Update on the situation of quarantine pests in the Russian Federation

2025/258 First report of *Spodoptera littoralis* in India

Spodoptera litura

2025/255 Update on the situation of quarantine pests in the Russian Federation

squash leaf curl China virus (*Begomovirus cucurbitachinaense*)

2025/164 New data on quarantine pests and pests of the EPPO Alert List

Squash vein yellowing virus (*Ipomovirus cucurbitavenaflavi*)

2025/055 New data on quarantine pests and pests of the EPPO Alert List

Stagonosporopsis andigena

2025/056 Recent updates in the EPPO Global Database

Stagonosporopsis chrysanthemi

2025/255 Update on the situation of quarantine pests in the Russian Federation

Staphylococcus warneri

2025/028 New data on quarantine pests and pests of the EPPO Alert List

Steinernema carpocapsae

2025/131 Commercially available biological control agents in Germany

Steinernema feltiae

2025/131 Commercially available biological control agents in Germany

Steinernema kraussei

2025/131 Commercially available biological control agents in Germany

Stenocarpella maydis

2025/207 Situation of several regulated pests in Serbia

Stephanitis pyrioides

2025/028 New data on quarantine pests and pests of the EPPO Alert List

Stratiolaelaps scimitus

2025/131 Commercially available biological control agents in Germany

strawberry crinkle virus (*Alphacytorhabdovirus fragariae*)

2025/207 Situation of several regulated pests in Serbia

2025/270 Recent changes in virus taxonomy

Strawberry latent C virus

2025/130 Phantom disease agents of fruit crops and rose

strawberry latent ringspot virus (*Stralarivirus fragariae*)

2025/207 Situation of several regulated pests in Serbia

Strawberry necrosis agent

2025/130 Phantom disease agents of fruit crops and rose

strawberry vein banding virus (*Caulimovirus venafragariae*)

2025/207 Situation of several regulated pests in Serbia

Sweden

2025/018 Update of the situation of *Ralstonia solanacearum* in the EPPO region

2025/271 Detection of pepino mosaic virus on imported tomato fruits in Estonia and Sweden

sweet potato chlorotic stunt virus (*Crinivirus ipomeae*)

2025/028 New data on quarantine pests and pests of the EPPO Alert List

Switzerland

2025/035 Establishment of *Paysandisia archon* in Switzerland

2025/041 First report of *Austropuccinia psidii* in the EPPO region

2025/073 First report of '*Candidatus Arsenophonus phytopathogenicus*' on potato in Switzerland

2025/086 New data on quarantine pests and pests of the EPPO Alert List

2025/164 New data on quarantine pests and pests of the EPPO Alert List

2025/170 Update on the situation of *Popillia japonica* in Switzerland

2025/274 Accidental introduction of a biological control agent of *Cydalima perspectalis* in the EPPO region

2025/006 First report of *Pochazia shantungensis* in Hungary

2025/011 Update on the situation of *Anoplophora glabripennis* in Switzerland

Symphyotrichum squamatum

2025/161 Alien plant species on the island of Menorca (Islas Baleares, Spain)

2025/249 Alien plant species in Algeria including new country records

Synchytrium endobioticum

2025/255 Update on the situation of quarantine pests in the Russian Federation

Syria

2025/209 First report of *Dacus ciliatus* in Syria

2025/028 New data on quarantine pests and pests of the EPPO Alert List

Taiwan

2025/198 First report of *Austropuccinia psidii* in Taiwan

Takahashia japonica

2025/174 First report of *Takahashia japonica* in Belgium

2025/164 New data on quarantine pests and pests of the EPPO Alert List

Tamarix aphylla

2025/020 Prioritizing invasive plants for biological control in in western USA

Tamarixia radiata

2025/222 The potential for pre-emptive biological control of *Diaphorina citri* (EPPO A1 List) using *Tamarixia radiata*

2025/210 Update on the situation of *Diaphorina citri* in Cyprus

Tanzania

2025/063 Interceptions of *Scirtothrips aurantii* and *S. dorsalis* from African countries

Taxonomy

2025/001 New data on quarantine pests and pests of the EPPO Alert List

2025/045 Revision on the taxonomy on *Curtobacterium flaccumfaciens*

2025/130 Phantom disease agents of fruit crops and rose

2025/164 New data on quarantine pests and pests of the EPPO Alert List

2025/229 New data on quarantine pests and pests of the EPPO Alert List

2025/270 Recent changes in virus taxonomy

Telekia speciosa

2025/140 Recent updates in the EPPO Global Database

2025/185 Prioritization of alien plant taxa for EPPO Pest Risk Analysis

Tetranychus evansi

2025/206 New data on quarantine pests and pests of the EPPO Alert List

Tetranychus gloveri

2025/206 New data on quarantine pests and pests of the EPPO Alert List

Tetranychus pueraricola

2025/206 New data on quarantine pests and pests of the EPPO Alert List

Tetrastichus planipennisi

2025/021 Pre-emptive biological control of *Agilus planipennis* in Europe

Thailand

2025/187 New data on quarantine pests and pests of the EPPO Alert List

2025/229 New data on quarantine pests and pests of the EPPO Alert List

2025/164 New data on quarantine pests and pests of the EPPO Alert List

Thaumastocoris peregrinus

2025/113 New data on quarantine pests and pests of the EPPO Alert List

Thaumetopoea processionea

2025/147 Eradication of *Thaumetopoea processionea* in Ireland

Thripobius semiluteus

2025/131 Commercially available biological control agents in Germany

Thrips parvispinus

2025/028 New data on quarantine pests and pests of the EPPO Alert List

2025/187 New data on quarantine pests and pests of the EPPO Alert List

2025/229 New data on quarantine pests and pests of the EPPO Alert List

2025/252 New data on quarantine pests and pests of the EPPO Alert List

tobacco ringspot virus (*Nepovirus nicotianae*)

2025/166 Changes made to the list of regulated pests of Great Britain

tomato black ring virus (*Nepovirus nigranuli*)

2025/207 Situation of several regulated pests in Serbia

tomato brown rugose fruit virus (*Tobamovirus fructirugosum*)

2025/015 Tomato brown rugose fruit virus is now a Regulated Non-Quarantine Pest for the EU

2025/016 Update on the situation of tomato brown rugose fruit virus in the Netherlands

2025/017 First report of tomato brown rugose fruit virus in Jersey

2025/086 New data on quarantine pests and pests of the EPPO Alert List

2025/097 First report of tomato brown rugose fruit virus and pepino mosaic virus in Iraq

2025/139 New data on quarantine pests and pests of the EPPO Alert List

2025/200 Tomato brown rugose fruit virus is officially confirmed in Egypt

2025/206 New data on quarantine pests and pests of the EPPO Alert List

2025/220 Update on the situation of tomato brown rugose fruit virus in the United Kingdom

2025/229 New data on quarantine pests and pests of the EPPO Alert List

2025/252 New data on quarantine pests and pests of the EPPO Alert List

2025/255 Update on the situation of quarantine pests in the Russian Federation

tomato chlorosis virus (*Crinivirus tomatichlorosis*)

2025/229 New data on quarantine pests and pests of the EPPO Alert List

tomato fruit blotch virus (*Blunervirus solani*)

2025/094 First report of tomato fruit blotch virus in Malta

2025/095 First reports of tomato fruit blotch virus in France and in Belgium

2025/096 Confirmation of the role of tomato russet mite (*Aculops lycopersici*) as a vector of tomato fruit blotch virus

tomato leaf curl New Delhi virus (*Begomovirus solanumdelhiense*)

2025/113 New data on quarantine pests and pests of the EPPO Alert List

2025/229 New data on quarantine pests and pests of the EPPO Alert List

2025/252 New data on quarantine pests and pests of the EPPO Alert List

tomato marchitez virus (*Torradovirus marchitezum*)

2025/095 First reports of tomato fruit blotch virus in France and in Belgium

tomato matilda virus

2025/095 First reports of tomato fruit blotch virus in France and in Belgium

tomato mottle mosaic virus (*Tobamovirus maculatusellati*)

2025/206 New data on quarantine pests and pests of the EPPO Alert List

tomato necrotic spot virus (*Ilarvirus ToNSV*)

2025/270 Recent changes in virus taxonomy

tomato ringspot virus (*Nepovirus lycopersici*)

2025/028 New data on quarantine pests and pests of the EPPO Alert List

tomato spotted wilt virus (*Orthotospovirus tomatomaculae*)

2025/255 Update on the situation of quarantine pests in the Russian Federation

Torymus sinensis

2025/182 New biological control agents added to PM 6/3(5) in 2025

Toumeyella parvicornis

2025/091 Update of the situation of *Toumeyella parvicornis* in Italy

2025/206 New data on quarantine pests and pests of the EPPO Alert List

Transeius montdorensis

2025/131 Commercially available biological control agents in Germany

Trianthema portulacastrum

2025/111 *Trianthema portulacastrum* in the Hula Valley in Israel

Trichoferus campestris

2025/252 New data on quarantine pests and pests of the EPPO Alert List

2025/253 Recent updates in the EPPO Global Database

Trichogramma brassicae

2025/131 Commercially available biological control agents in Germany

Trichogramma cacoeciae

2025/131 Commercially available biological control agents in Germany

Trichogramma dendrolimi

2025/131 Commercially available biological control agents in Germany

Trichogramma evanescens

2025/131 Commercially available biological control agents in Germany

Trichopria drosophilae

2025/132 Interactions between parasitoids of *Drosophila suzukii*

Trichovirus maculavii

2025/130 Phantom disease agents of fruit crops and rose

Trioza erytreae

2025/254 New EU regulations

Trissolcus basalis

2025/131 Commercially available biological control agents in Germany

Trogoderma granarium

2025/255 Update on the situation of quarantine pests in the Russian Federation

2025/056 Recent updates in the EPPO Global Database

2025/124 *Trogoderma granarium* does not occur in the Republic of Korea

Tunisia

- 2025/024 First report of *Panicum miliaceum* (Poaceae) in Tunisia
 2025/142 First report of *Dacus ciliatus* in Tunisia
 2025/204 First report of *Phacelia tanacetifolia* in Tunisia
 2025/054 *Arctotheca calendula* in North Africa
 2025/071 Update on the situation of *Phyllosticta citricarpa* in Tunisia
 2025/086 New data on quarantine pests and pests of the EPPO Alert List

Türkiye

- 2025/006 First report of *Pochazia shantungensis* in Hungary
 2025/013 *Paecilomyces formosus*: a new pathogen of trees
 2025/051 *Ipomoea* species in Greece, Iran and Türkiye
 2025/155 First record of pepper chat fruit viroid in Türkiye
 2025/173 First report of *Nipaecoccus viridis* on citrus in Türkiye
 2025/229 New data on quarantine pests and pests of the EPPO Alert List
 2025/252 New data on quarantine pests and pests of the EPPO Alert List
 2025/256 First report of *Euwallacea fornicatus* in Türkiye
 2025/092 First report of *Nepovirus myrtilli* in the EPPO region
 2025/109 The impact of *Amaranthus palmeri* on *Gossypium hirsutum*

Tuta absoluta

- 2025/255 Update on the situation of quarantine pests in the Russian Federation
 2025/187 New data on quarantine pests and pests of the EPPO Alert List

Typha angustifolia

- 2025/251 Global occurrences of alien aquatic plant species

Ukraine

- 2025/214 *Semanotus bifasciatus*: first finding in Europe
 2025/279 Genetic studies on *Impatiens glandulifera* populations in Ukraine

Unaspis citri

- 2025/172 Update on the situation of *Unaspis citri* in the Azores

United Arab Emirates

- 2025/139 New data on quarantine pests and pests of the EPPO Alert List

United Kingdom

- 2025/001 New data on quarantine pests and pests of the EPPO Alert List
 2025/006 First report of *Pochazia shantungensis* in Hungary
 2025/040 First report of *Cryphonectria carpnicola* in the United Kingdom
 2025/162 Biogeographical studies of *Myriophyllum rubricaulis*
 2025/166 Changes made to the list of regulated pests of Great Britain
 2025/177 First report of *Meloidogyne chitwoodi* in the United Kingdom
 2025/220 Update on the situation of tomato brown rugose fruit virus in the United Kingdom

Uruguay

- 2025/028 New data on quarantine pests and pests of the EPPO Alert List
 2025/118 First report of *Euwallacea fornicatus* in Uruguay

USA

- 2025/001 New data on quarantine pests and pests of the EPPO Alert List
 2025/028 New data on quarantine pests and pests of the EPPO Alert List
 2025/038 *Cylindrocopturus furnissi*: an emerging pest of Douglas fir in the USA
 2025/133 Post-release monitoring of two biological control agents in North America
 2025/139 New data on quarantine pests and pests of the EPPO Alert List
 2025/164 New data on quarantine pests and pests of the EPPO Alert List
 2025/187 New data on quarantine pests and pests of the EPPO Alert List
 2025/206 New data on quarantine pests and pests of the EPPO Alert List
 2025/229 New data on quarantine pests and pests of the EPPO Alert List
 2025/233 First report of *Amrasca biguttula* in North America (USA)
 2025/245 *Phytophthora mediterranea*: an emerging pest of woody trees
 2025/252 New data on quarantine pests and pests of the EPPO Alert List
 2025/259 First report on *Chrysobothris mali* infesting pear fruits

2025/269 *Phytophthora abietivora*: an emerging pest of fir trees in North America

2025/273 Stakeholder perception of biological control in Washington State (USA)

Vachellia farnesiana

2025/249 Alien plant species in Algeria including new country records

Vachellia karroo

2025/026 Prioritizing management of invasive alien plant species

Vector

2025/059 First report of the African leafhopper *Leptodelphax maculigera* in South America, and its potential role as vector of corn stunt pathogens in Brazil

Vein mosaic

2025/159 Viruses, virus-like diseases and viroids of grapevine that should not be regulated

Vein necrosis

2025/159 Viruses, virus-like diseases and viroids of grapevine that should not be regulated

Veronica anagallis-aquatica

2025/251 Global occurrences of alien aquatic plant species

Vespa soror

2025/123 Update on the situation of the Asian hornet *Vespa velutina* in Europe

Vespa velutina

2025/122 Update on the situation of the Asian hornet *Vespa velutina* in Europe

2025/164 New data on quarantine pests and pests of the EPPO Alert List

2025/252 New data on quarantine pests and pests of the EPPO Alert List

Vietnam

2025/048 Emergence of *Ceratobasidium theobromae* as a pest of cassava, and first report in the Americas

2025/206 New data on quarantine pests and pests of the EPPO Alert List

Virus

2025/270 Recent changes in virus taxonomy

Washingtonia filifera

2025/026 Prioritizing management of invasive alien plant species

watermelon chlorotic stunt virus (*Begomovirus citrulli*)

2025/001 New data on quarantine pests and pests of the EPPO Alert List

watermelon crinkle leaf-associated virus 1 (*Coguvirus citrulli*)

2025/098 First record of watermelon crinkle leaf-associated virus 2 in Italy

2025/099 First record of watermelon crinkle leaf-associated virus 1 (WCLaV-1) and WCLaV-2 in Slovenia

2025/139 New data on quarantine pests and pests of the EPPO Alert List

2025/156 First report of watermelon crinkle leaf-associated virus 1 (WCLaV-1) and WCLaV-2 in Spain

2025/252 New data on quarantine pests and pests of the EPPO Alert List

watermelon crinkle leaf-associated virus 2 (*Coguvirus henanense*)

2025/098 First record of watermelon crinkle leaf-associated virus 2 in Italy

2025/099 First record of watermelon crinkle leaf-associated virus 1 (WCLaV-1) and WCLaV-2 in Slovenia

2025/139 New data on quarantine pests and pests of the EPPO Alert List

2025/156 First report of watermelon crinkle leaf-associated virus 1 (WCLaV-1) and WCLaV-2 in Spain

Wineberry latent virus

2025/130 Phantom disease agents of fruit crops and rose

Xanthium spinosum

2025/249 Alien plant species in Algeria including new country records

Xanthomonas arboricola* pv. *pruni

2025/207 Situation of several regulated pests in Serbia

Xanthomonas citri* pv. *citri

2025/232 Update of the situation of regulated pests in Brazil

Xanthomonas citri* subsp. *citri

2025/057 Update on citrus quarantine pests in the USA

Xanthomonas euvesicatoria* pv. *euvesicatoria

2025/229 New data on quarantine pests and pests of the EPPO Alert List

2025/252 New data on quarantine pests and pests of the EPPO Alert List

Xanthomonas euvesicatoria* pv. *perforans

2025/252 New data on quarantine pests and pests of the EPPO Alert List

Xanthomonas fragariae

2025/252 New data on quarantine pests and pests of the EPPO Alert List

Xanthomonas hortorum* pv. *gardneri

2025/229 New data on quarantine pests and pests of the EPPO Alert List

Xanthomonas oryzae* pv. *oryzae

2025/187 New data on quarantine pests and pests of the EPPO Alert List

Xiphinema americanum-sensu lato

2025/126 First record of *Xiphinema rivesi* in Bosnia and Herzegovina

Xiphinema diffusum

2025/028 New data on quarantine pests and pests of the EPPO Alert List

Xiphinema incertum

2025/126 First record of *Xiphinema rivesi* in Bosnia and Herzegovina

Xiphinema rivesi

2025/126 First record of *Xiphinema rivesi* in Bosnia and Herzegovina

Xiphinema simile

2025/028 New data on quarantine pests and pests of the EPPO Alert List

Xiphinema vuittenezi

2025/028 New data on quarantine pests and pests of the EPPO Alert List

Xiphinema zagrosense

2025/028 New data on quarantine pests and pests of the EPPO Alert List

Xyleborus bispinatus

2025/211 First report of *Euwallacea similis* in Spain and new findings of alien *Scolytinae*

2025/243 *Amasa parviseta*, *Euwallacea similis* and *Xyleborus bispinatus* are not established in Spain

Xylella fastidiosa

2025/012 *Mesoptylus impictifrons*, new vector of *Xylella fastidiosa* in the EPPO region

2025/066 First report of *Xylella fastidiosa* in Colombia

2025/067 First report of *Xylella fastidiosa* in Iraq

2025/086 New data on quarantine pests and pests of the EPPO Alert List

2025/153 Update on the situation of *Xylella fastidiosa* in Peru

2025/206 New data on quarantine pests and pests of the EPPO Alert List

2025/254 New EU regulations

Xylella fastidiosa* subsp. *multiplex

2025/206 New data on quarantine pests and pests of the EPPO Alert List

Xylella fastidiosa* subsp. *pauca

2025/086 New data on quarantine pests and pests of the EPPO Alert List

2025/153 Update on the situation of *Xylella fastidiosa* in Peru

Xylella fastidiosa* subsp. *sandyi

2025/067 First report of *Xylella fastidiosa* in Iraq

Xylophilus ampelinus

2025/255 Update on the situation of quarantine pests in the Russian Federation

Xylosandrus compactus

2025/028 New data on quarantine pests and pests of the EPPO Alert List

2025/175 First report of the *Cnestus mutilatus* in Slovenia and update on *Anisandrus maiche* and *Xylosandrus compactus*

2025/089 First report of *Xylosandrus compactus* in Montenegro

Xylotrechus pyrrhoderus

2025/230 New additions to the EPPO A1 and A2 Lists

Yucca gloriosa

2025/026 Prioritizing management of invasive alien plant species

Zantedeschia aethiopica

2025/026 Prioritizing management of invasive alien plant species

2025/185 Prioritization of alien plant taxa for EPPO Pest Risk Analysis

Zaprionus indianus

2025/001 New data on quarantine pests and pests of the EPPO Alert List

2025/144 First report of *Zaprionus indianus* in Hungary

2025/145 First report of *Zaprionus tuberculatus* in Algeria

Zaprionus tuberculatus

2025/145 First report of *Zaprionus tuberculatus* in Algeria

2025/113 New data on quarantine pests and pests of the EPPO Alert List

Zea mexicana

2025/140 Recent updates in the EPPO Global Database

2025/185 Prioritization of alien plant taxa for EPPO Pest Risk Analysis

Zeugodacus cucurbitae

2025/055 New data on quarantine pests and pests of the EPPO Alert List

2025/086 New data on quarantine pests and pests of the EPPO Alert List

Zeugodacus tau

2025/143 First report of *Zeugodacus tau* in Italy

Zimbabwe

2025/113 New data on quarantine pests and pests of the EPPO Alert List

Zizania latifolia

2025/029 Recent updates in the EPPO Global Database

Zygophyllum fabago

2025/020 Prioritizing invasive plants for biological control in in western USA
